

# COACHING FOR PARENTS

## 2<sup>nd</sup> Module — Primary Sounds

The primary sounds of a-z are taught to the participants with emphasis on producing the right sound for each letter. You will be taught the manner of articulation for all the primary sounds.

## 4<sup>th</sup> Module — Blending 3-Letter Words

You will be taught when to move from the previous stage to start blending 3-letter words. You will learn different strategies to help your child master this skill.

## 1<sup>st</sup> Module — Overview of the Programme

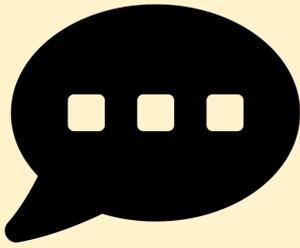

You will get a clear understanding of what Systematic Phonics is and how it helps children to read, spell and pronounce correctly as opposed to Non-systematic Phonics and the Look and Say method.

## 3<sup>rd</sup> Module — Phonemic Awareness Skills

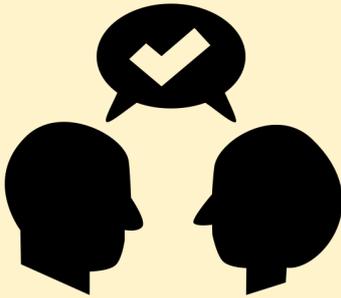

You will acquire the tools to help your child hear the sounds of spoken words e.g. map begins with /m/; map ends with /p/. You will be taught how to help your child hear individual sounds. Children need to master this skill before they can start blending 3-letter words.

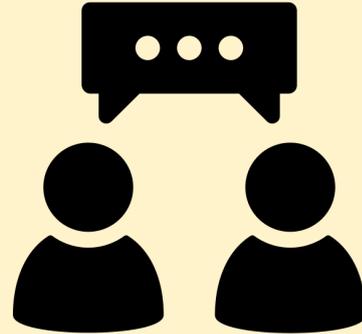

### 6<sup>th</sup> Module — Consonant Blends

You will get a thorough understanding of the Consonant Blends – what they are and how to help your child to master them in reading, spelling and pronunciation. This is a crucial stage in the child's sharpening his/her Phonemic Awareness skills.

### 5<sup>th</sup> Module — Double Consonants

You will learn how the concept of Double Consonant words and acquire the skills to teach words that come under this category competently.

### 7<sup>th</sup> Module — Phonograms

You will learn the different phonograms that make up the bulk of words in the English Language and acquire skills on how to teach them effectively with different emphasis at the different levels of this stage.
