Evaluation Assessment Comes First!

You must first do an evaluation assessment before deciding to choose a price package!

- The evaluation assessment is a **flat fee of 5\$**.
- An evaluation assessment lasts **30 to 45 minutes**.
- In the evaluation assessment we test your: **Algebra, Geometry, Trigonometry, Statistics, Calculations, Sequences and Functions**.
- **The Instructor will advise you to choose a specific course** based on your level and results from the evaluation assessment.
- Once your evaluation assessment is complete, you will be **given a contract form** and you must **choose 1 COURSE** (in your particular region) to study.

Open Courses for Junior Mathematics

Grade 7 Mathematics

In Grade 7, students strengthen their core skills and build confidence in handling numbers. The focus is on mastering the basics and laying a strong foundation for higher concepts. Key topics include:

- **Number systems:** integers, fractions, decimals, percentages, and ratios.
- **Algebra:** introduction to expressions, simple equations, and inequalities.
- **Geometry:** angles, triangles, quadrilaterals, circles, perimeter, area, and volume.
- **Data handling & probability:** bar graphs, pie charts, and measures of central tendency (mean, median, mode).

Grade 8 Mathematics

At this level, students transition into more abstract thinking, learning to connect different mathematical ideas. Focus areas include:

- **Algebra:** linear equations, simultaneous equations, and an introduction to functions.
- **Geometry:** congruence, similarity, Pythagoras' theorem, and coordinate geometry.
- **Applied arithmetic:** percentages, profit and loss, simple interest.
- **Data & probability:** histograms, scatter plots, and sample space concepts.

Open Courses for Senior Mathematics

Grade 9 Mathematics

Here, learners advance their problem-solving skills and tackle more complex algebraic and geometric reasoning. They will cover:

- **Algebra:** polynomials, factorisation, quadratic expressions, and inequalities.
- **Geometry & coordinate geometry:** equations of straight lines, slopes, and circle theorems.
- **Trigonometry:** introduction to trigonometric ratios, identities, and practical applications.
- **Statistics & probability:** cumulative frequency and structured probability problems.

Grade 10 Mathematics

In the final stage of foundational learning, students consolidate knowledge and prepare for senior-level mathematics or exams. Key topics include:

- **Algebra:** quadratic equations, sequences, functions and progressions.
- **Geometry:** advanced circle theorems, constructions, and coordinate geometry (distance, midpoint, intersections).
- **Trigonometry:** applications in heights and distances, solving real-life problems.
- **Statistics & probability:** deeper probability work, standard deviation, and advanced data analysis.
- **Exam preparation:** problem-solving strategies, application-based learning, and timed practice.

Package Options: Region America

(4/8 Lessons / Month, 1 Hour)

Region	Option 1	Option 2	Option 3
	Singles – Price per Lesson	Singles – Monthly Instalment (4 Lessons)	Singles – Monthly Instalment (8 Lessons)
South America	\$15	\$55 / month	\$110 / month
Central America	\$17.5	\$60 / month	\$120 / month
Northern America	\$20	\$65 / month	\$130 / month
Caribbean	\$17.5	\$60 / month	\$120 / month

Package Options: Region Africa

(4/8 Lessons / Month, 1 Hour)

Region	Option 1	Option 2	Option 3
	Singles – Price per Lesson	Singles – Monthly Instalment (4 Lessons)	Singles – Monthly Instalment (8 Lessons)
Southern Africa	\$15	\$55 / month	\$110 / month
Eastern Africa	\$15	\$55 / month	\$110 / month
Middle Africa	\$15	\$55 / month	\$110 / month
Western Africa	\$15	\$55 / month	\$110 / month
Northern Africa	\$15	\$55 / month	\$110 / month

Package Options: Region Europe

(8 Lessons / Month, 1 Hour)

Region	Option 1	Option 2	Option 3
	Singles – Price per Lesson	Singles – Monthly Instalment (4 Lessons)	Singles – Monthly Instalment (4 Lessons)
Southern Europe	\$17.5	\$60 / month	\$120 / month
Western Europe	\$20	\$65 / month	\$130 / month
Northern Europe	\$20	\$65 / month	\$130 / month
Eastern Europe	\$17.5	\$60 / month	\$120 / month

Package Options: Region Asia

(8 Lessons / Month, 1 Hour)

Region	Option 1	Option 2	Option 3
	Singles – Price per Lesson	Singles – Monthly Instalment (4 Lessons)	Singles – Monthly Instalment (8 Lessons)
Western Asia	\$17.5	\$60 / month	\$120 / month
Central Asia	\$17.5	\$60 / month	\$120 / month
Eastern Asia	\$20	\$65 / month	\$130 / month
Northern Asia	\$20	\$65 / month	\$130 / month
Southern Asia	\$15	\$55 / month	\$110 / month
Southeastern Asia	\$15	\$55 / month	\$110 / month

Package Options: Region Oceania

(8 Lessons / Month, 1 Hour)

Region	Option 1	Option 2	Option 3
	Singles – Price per Lesson	Singles – Monthly Instalment (4 Lessons)	Singles – Monthly Instalment (8 Lessons)
Australia	\$20	\$65 / month	\$130 / month
New Zealand	\$20	\$65 / month	\$130 / month
Melanesia	\$17.5	\$60 / month	\$130 / month
Micronesia	\$17.5	\$60/ month	\$130 / month
Polynesia	\$17.5	\$60 / month	\$130 / month

Key Features of the Price Packages

- **Live interactive lessons** with a qualified instructor.
- **Lesson recordings** provided for revision.
- **Downloadable resources** (worksheets, notes, practice activities).
- **Homework assignments** tailored to lesson objectives.
- **Monthly lesson plans** are given to keep track of your lessons.
- **Personalized feedback** to track progress.
- **Flexible scheduling** (within available slots).
- **Focus on all skills:** speaking, listening, reading, and writing.

Key Benefits for Single (1:1)

- **Fully personalized learning plan** tailored to your goals (exam prep, business English, conversation, etc.).
- **Direct attention** — every minute is focused on you.
- **Flexible pace** — move faster on strengths, spend more time on challenges.
- **Custom materials** suited to your interests and needs.
- **Speaking confidence boost** — maximum talking time.
- **Flexible scheduling** — book times that best fit your routine.
- **Accelerated progress** with targeted corrections and feedback.
