So What Is...

Income Protection w/ Living Benefits

This is what we call “everything” insurance. It’s specifically designed to protect your income—and everything it supports—for as little as \$1 a day.

Like traditional life insurance, it provides a substantial lump-sum payment to your family or named beneficiary if you pass away.

But unlike traditional life insurance, it can advance up to \$1,500,000 of your benefit while you’re still alive if you experience a qualifying health event.

With over 18 triggers including:*

Terminal illness
Chronic illness
Cancer
Heart attack
Stroke
Sudden cardiac arrest
Coma
Paralysis
Severe burns
Traumatic brain injury
Heart valve replacement
Major organ transplant
End stage renal failure
Aorta graft surgery
Aplastic anemia
Blindness
Cystic fibrosis
ALS
Motor neuron disease
Alzheimer / Dementia

So instead of relying on strangers to “GoFundMe”, you have an affordable way to access up to \$1,500,000, when you need it the most to Go Fund Yourself!

[Click Here](#) to see real life testimonials.

*Not all coverages are available in all states. Please see your policy for complete details.
