Fabian Elizondo & LJ Huerta

# Overall Scene

# Description

& Story

John and Jane were always rivals in school and college, they were always competing to be at the top of their class. As years went by John struggled to find a firm job, while Jane had everything balanced out for her. Both Jane and John were offered a massive job position but only 1 would be able to accept it after having their own interview. A couple days passed, and Jane got the job. John refused to accept that he was denied from it. He was infuriated and took matters into his own hands. He entered Janes home around 3:20am (7 minutes before her death).

# Evidence Found

Knife

Blood Spatter

Footprints

Suspects shirt fiber

# How would this evidence be collected?

Knife- In order to collect a knife that has blood present, the blade and point would be wrapped in stiff unmovable cardboard and then placed in a paper bag or envelope. ( Individual Evidence)

Blood Spatter- Blood spatter would be collected by scraping, if the deposit is crusty or flaky, and stored in a paper fold. Dried blood smears can be collected on moist pieces of cotton, cloth, or cotton swabs. (Class Evidence)

Footprints- Patent prints would be photographed, casted, and lifted by using powders and chemicals. (Individual Evidence).

Shirt Fiber- Fiber can be collected by using tweezers, vacuuming, and tape lifting. (Class Evidence, can lead to Individual Evidence).

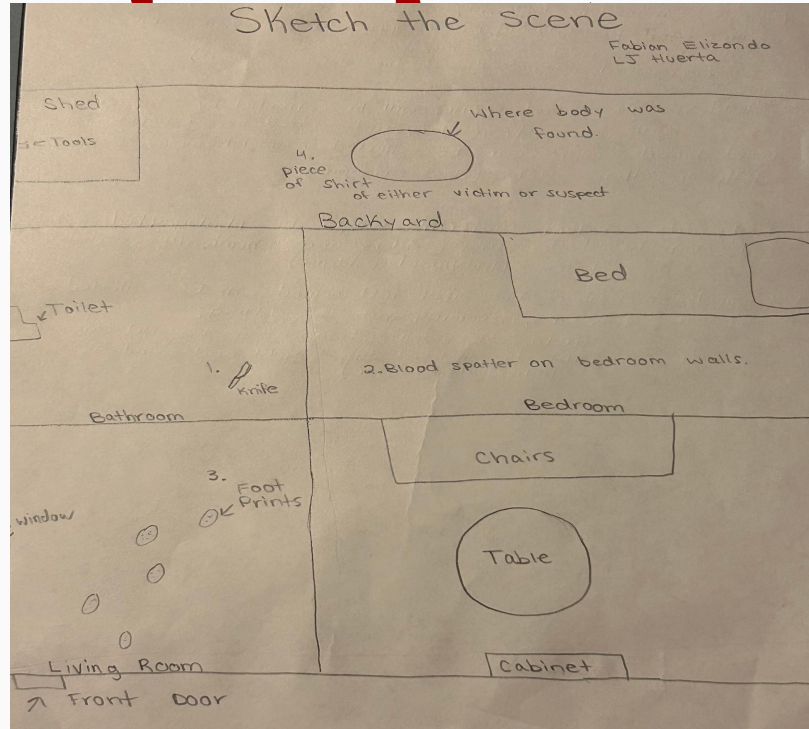

# Motive

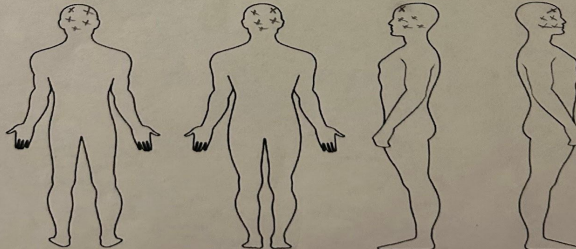

John had motive due to him feeling raged with him not getting the job position, John acted in anger and killed Jane. John was later sentenced to life in prison without the possibility of parole.
