***water is life, water distribution is best with
Flow Cera pipes and fittings***

FEATURES & BENEFITS

- Manufactured using lead-free and environmentally friendly compounds
- UV stabilised
- Ideal for hot and cold water applications
- Low thermal expansion
- Safe for potable water system
- Unaffected by chlorine in water
- Outstanding fire safety profile
- Insulating properties result in high energy saving
- High Impact strength
- Leak - proof joints
- No corrosion resulting in uncompromised water quality
- No scaling, pitting, or leach formation
- Cost-effective
- Easy installation
- Stringent quality control
- Manufactured from high grade raw material

APPLICATIONS

Flow Cera CPVC pipes are ideal for hot and cold water distribution systems for indoor and outdoor applications. This system is widely used with solar and electric water heaters in :

- Individual homes and residential apartments
- Hospitals
- Corporate houses and commercial establishments
- Academic institutions
- Hotels and resorts
- High-rise buildings as well as independent houses
- Swimming pools
- Manufacturing plants

Note : Not suitable for compressed air and gases.
