KHL Rulebook

Section 1 - Object

1.1 To assemble a line-up of NHL Hockey players whose statistics during the regular season, measured by the methods described in these rules, exceed those of all other teams in the league.

Section 2 – Teams

- 2.1 The league consists of 26 franchises, in one conference.
- 2.2 Owner participation is expected. Owners are expected to participate in online drafts, respond to trade offers in a timely fashion, and maintain the day-to-day operations of their team.

Section 3 – Schedule

- 3.1 Teams play 3 different opponents each period of the NHL season with the last four periods reserved for the KHL playoffs. The regular season is usually 22 weeks or 66 games.
- 3.2 Each period is based on a Monday to Sunday week, however, some periods may be longer or shorter as determined by the NHL schedule.

Section 4 – Regular Season

- 4.1 Teams play 66 regular season games. Three games for each of the NHL regular season periods, less four periods for KHL playoffs.
- 4.2 The schedule is subject to the length of the NHL season and could vary based on Olympic participation, strike, lockout, pandemic.

Section 5 - Playoffs

- 5.1 Playoffs take place during the final 4 periods of the NHL season.
- 5.2 After the regular season is completed, the top 16 teams will qualify for the playoffs.
- 5.3 Each round of the playoffs is a one-period sudden-death playoff.
- 5.4 In round one, the 1st place team is matched up against the 16th place team, the 2nd place team plays the 15th place team, ect.
- 5.5 In round two, the eight remaining teams are ranked 1-8. With 1st playing 8th, 2nd vs. 7th, ect.
- 5.6 In round three, the semifinals, the four remaining teams are seeded one through four. Seed one will play four and seed two plays three. The winners advance to the KHL Championship.
- 5.7 The highest-seeded team in all playoff games receives 1.5 additional points advantage.

Section 6 – Active Lineup

- 6.1 Each week teams must have 14 Active players named for the starting lineup. These are the players that score points on a weekly basis.
- 6.2 Teams should be starting their best active lineup on a weekly basis, blatant attempts to start a losing lineup will result in a loss of draft lottery chances.
- 6.3 Active rosters must always consist of:

POSITION	No.
Forwards	9
Defensemen	4
Goaltenders	1

Section 7 – Press Box

- 7.1 Any player may be placed in the press box or bench.
- 7.2 Each team may have a maximum of 4 players.
- 7.3 Players in the press box do not count towards a team’s weekly point total.
- 7.4 Players who are actively rostered in the majority of Fantrax leagues should be starting in favour of those who are starting in under 10% of Fantrax leagues.
- 7.5 Failure to comply with 7.4 could result in the loss of draft lottery balls in the next draft lottery the team is involved in.

Section 8 – Prospects

- 8.1 Prospects that have played in 75 NHL regular season games (40 games for goaltenders) in their career must be signed to a KHL contract immediately and are not eligible for the prospect list from that point forward.
- 8.2 Prospects that have been activated and signed but are under the games played limit as stated in 8.1, may be returned to the prospect list.
- 8.3 Players can not be added to the prospect list, they can only be drafted during the prospect draft.
- 8.4 Salaries for unsigned prospects is \$1.00
- 8.5 The maximum number of prospects is 20 per team.

Section 9 – Scoring

- 9.1 How players score fantasy points:

Skaters:		Goaltenders:	
Goals	1 point	Wins	3 points
Assists	1 point	Shootout Losses	1 point
		Overtime Losses	1 point
		Shutouts	1 point

- 9.2 Each week (Monday-Sunday) teams’ active players’ points are accumulated. The team with the greater amount of fantasy points is awarded a WIN with the team compiling the fewer fantasy points is given a LOSS. If each team has an equal amount of fantasy points then each team is given a TIE.

Section 10 – Standings

- 10.1 Teams are given 2 points for a WIN, 0 points for a LOSS, and 1 point for a TIE.
- 10.2 Teams are ranked in their division in order of points.
- 10.3 If there is a tie in points between two or more teams the following tie-breakers apply:
 - Most Wins
 - Most Fantasy Points
 - Head-To-Head Game Results

Section 11 – Player Additions

- 11.1 Player additions begin following the second period of the NHL season. Rosters are frozen until that time.

- 11.2 Players not owned by teams in the KHL may be added during the season. Players added must be deemed eligible by Fantrax and rostered by an NHL team.
- 11.3 Players claimed by two or more teams will go to the team lower in the waiver order (determined by reverse standings).
- 11.4 Player addition requests will be processed every Sunday at 11:20pm using the waiver order.
- 11.5 After 11.4, players may still be added up until the beginning of the first NHL game on Monday. After the 11.4 deadline, the player additions are first come, first served.
- 11.6 Teams retain their waiver order for one player request, then the next ranking team will get one player, ect.
- 11.7 Teams adding a player must drop a player to the free agent pool. (If necessary to maintain a legal roster) Players dropped are not eligible for pickup until the following week.
- 11.8 There is a roster freeze during the KHL playoffs when no players will be added by any teams. The freeze takes effect the Monday of the final regular season week.
- 11.9 Added players' salaries are at the league minimum for the balance of the season.
- 11.10 After the season, added players who are in their age 29 season or younger, automatically agree to a contract extension of one season at a salary equal to market value factor in rule 13.5, times the players recent point total. The status of the contract is dependent on their age after the extension.
- 11.11 Players in their age 30 season or older, are UFA's and released at the end of the regular season.

Section 12 – Trades

- 12.1 Trades may include any combination of active players, prospects, and draft picks.
- 12.2 No trade will be allowed for draft picks more than 13 months away, or any deals that require a player to be given back at the end of the season.
- 12.3 Conditional picks based on performance or injuries ARE allowed but must include specific targets.
- 12.4 Traded players' new team accepts the terms of all current contracts.
- 12.5 The trading deadline is SUNDAY of the 18th week at 9pm PST.
- 12.6 The league commissioner reserves the right to send any proposed trade agreements to a league-wide vote for veto purposes.

Section 13 – Player Contracts

- 13.1 All players must be under contract to be eligible for the starting lineup.
- 13.2 Owners may sign players to any term they wish. (Maximum 4 years.)
- 13.3 Players salaries are determined by their market value. The market value is calculated by the players point per game totals for the last four seasons.
- 13.4 The PPG value used in the calculation will be the greater number of: Total PPG over the last four seasons, latest season PPG, and weighted PPG (40% of the most recent season, 30% two years ago, 20% three years ago, 10% four years ago)
- 13.5 The highest PPG value is then multiplied by 82 to determine a point total. The point total is then multiplied by the market value factor which is subject to a raise each season. For 2023-24 the market value factor was .253.
- 13.6 For players entering their last contract (age 28), a premium (+20%) market value factor is used. For 2023-24 the number was .304

- 13.7 Players activated from teams' prospect list must sign a 2-year contract. Salaries for prospects are determined by their draft position when drafted into the KHL. The chart below indicates rookie salaries for this season.
