

ABOUT US

WE BRB GROUP

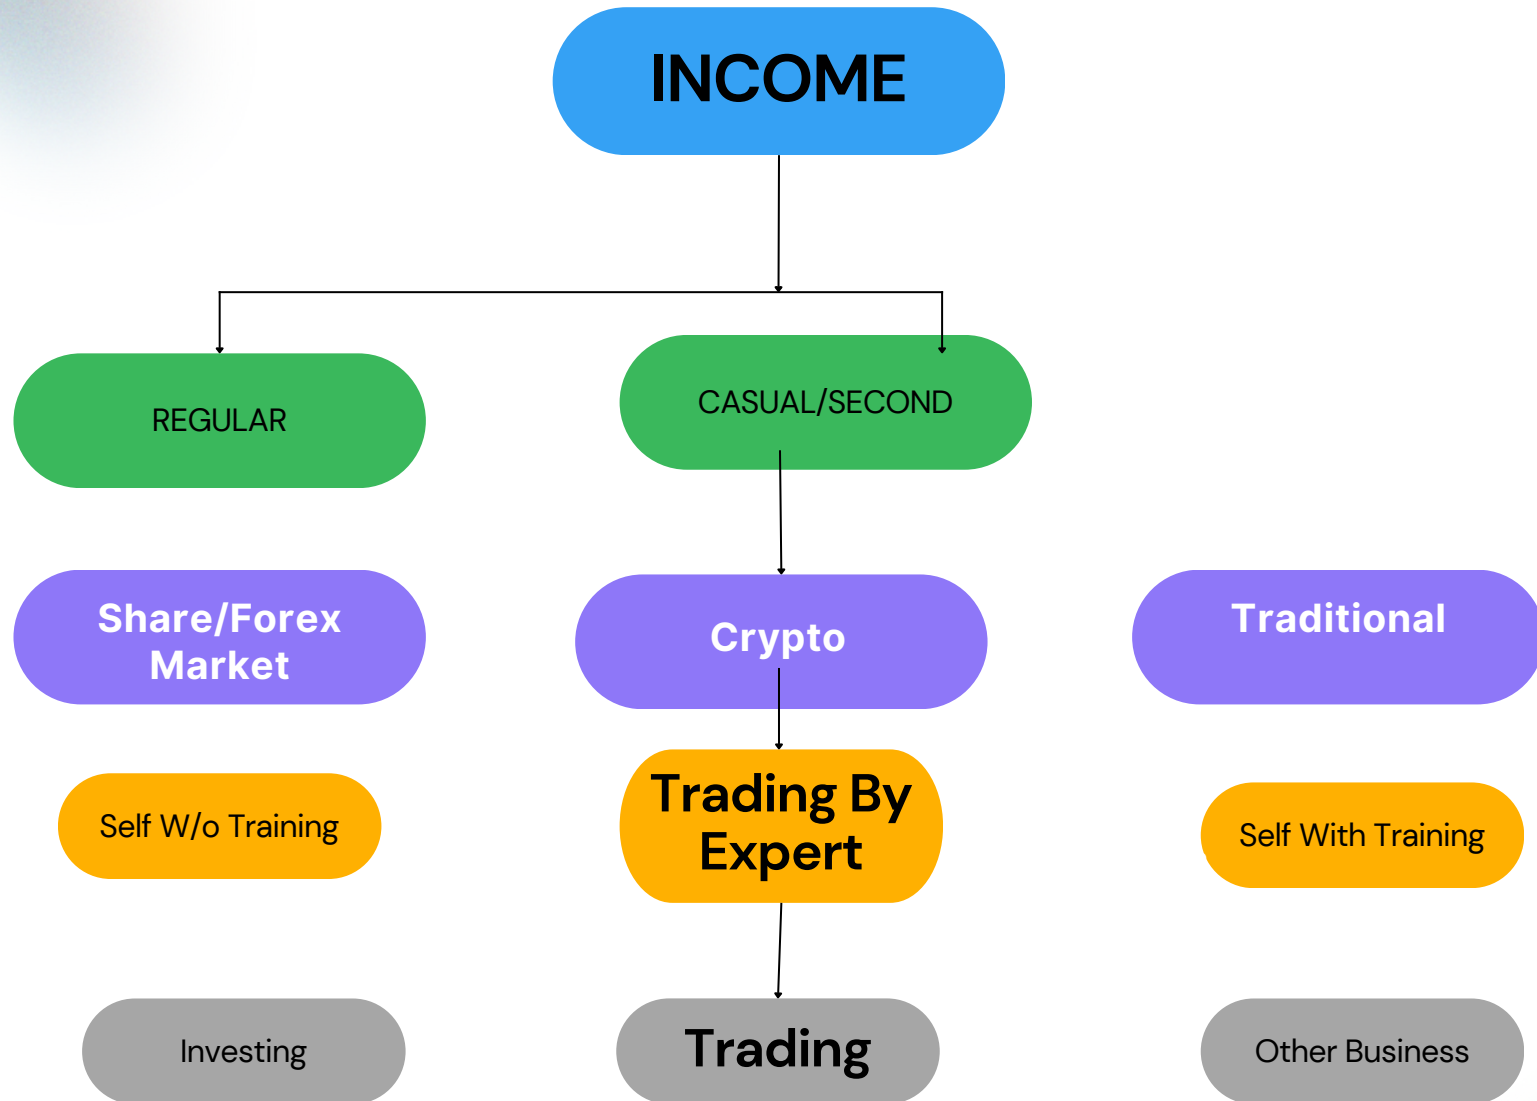

Are working on Franchising, or a business franchise model in which we do a contractual business or relationship whereby BRB Group allows an independent business owner, or franchisee, to use its branding, business model, and other intellectual property. In return, the franchisee agrees to pay an upfront franchise fee, plus ongoing royalties to the franchisor.

We deal in following types of franchise arrangements:

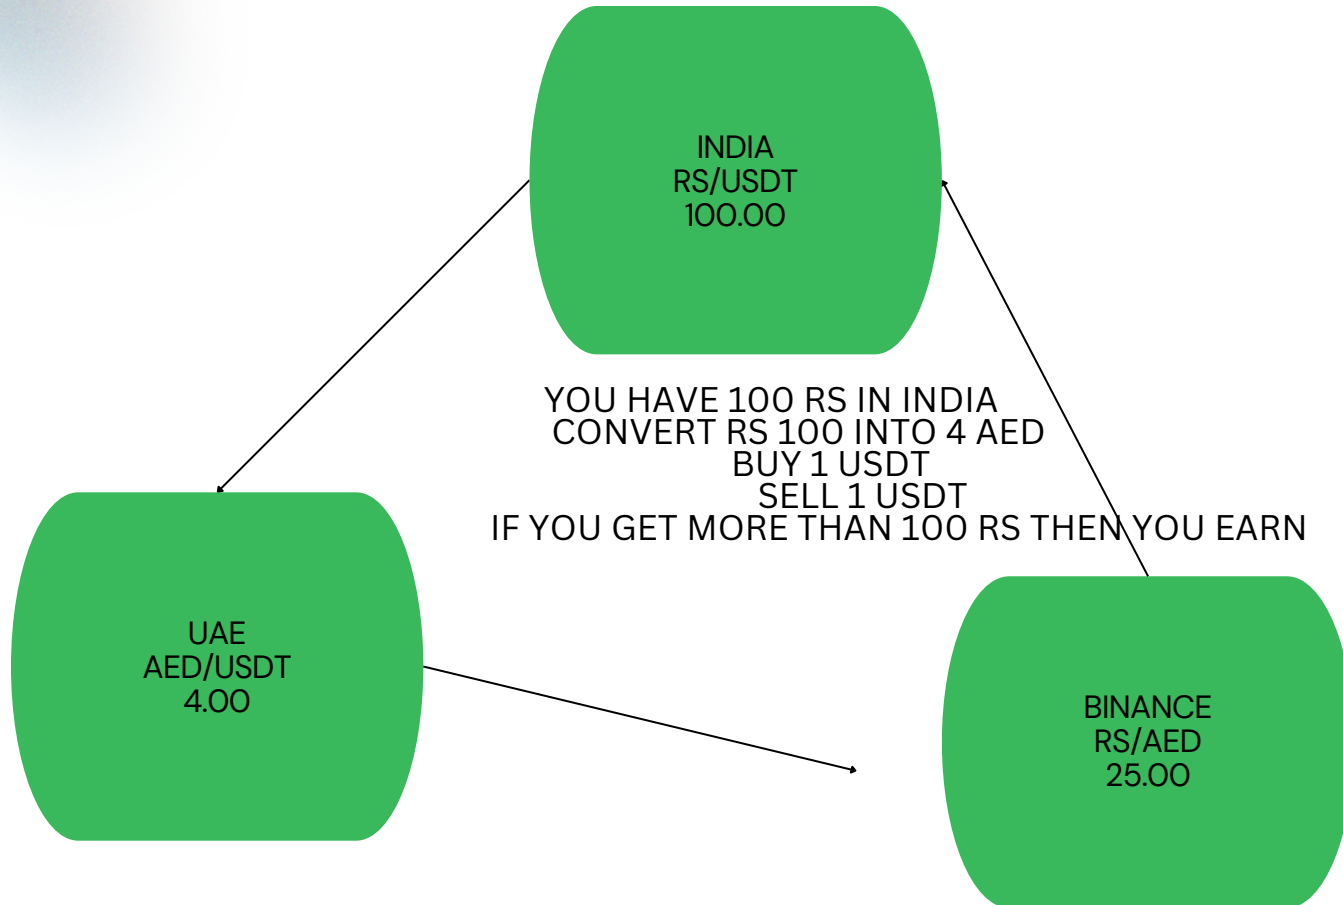

- **Business format franchise:** This is the most common type of franchise arrangement. In this model, the franchisor allows a third party to do business using their trademarks and business model in exchange for fees and a recurring percentage of sales revenue. Franchisees under this model are run according to the parent company's guidelines and rules.
- **Product franchise:** This is the oldest form of a franchise arrangement. Under this model, the franchisees exclusively distribute or sell franchisor's products.
- **Manufacturing franchise:** Within this model, third-party manufacturers obtain exclusive rights to produce and distribute products using the franchisor's trade name and trademark.
