

Message from PPS Superintendent Dr. Kimberlee Armstrong in *ParentSquare*
Thursday, Feb 12, 2026, 5:35 PM:

Dear MLC Families,

I know the recent announcement regarding the 9–12 programming at Metropolitan Learning Center has brought forward strong emotions, important questions, and deep concern.

Decisions that affect students and families deserve care, clarity, and space for conversation. I want to create that space.

I will be scheduling a listening session at MLC on **Wednesday, February 18 at 6 P.M.**, to hear directly from families and students. My goal is to hear from you and to share more about the district's thinking and next steps.

While the decision regarding high school programming has been made, our responsibility to support students and families remains ongoing.

I encourage families and students to attend and engage in this dialogue.

Thank you for your partnership and your advocacy for your children.

With care,

Dr. Kimberlee Armstrong | Superintendent
