Changing **The Landscape of Business**

Welcome to Recycle Agent, where we provide hassle-free, secure, and environmentally friendly electronic recycling solutions at zero cost to our clients. Our mission is to help businesses, government contractors, and organizations responsibly dispose of IT assets while ensuring data security, compliance, and sustainability.

Our Green Commitment

At Recycle Agent, we take pride in leading the way in sustainable electronics recycling. Reducing environmental impact requires collaboration with businesses, institutions, and partners to develop innovative solutions that prioritize sustainability.

Zero Carbon Footprint

Implementing environmentally friendly practices to reduce emissions and energy consumption.

Refurbishment & Reuse Programs

Extending the lifespan of IT assets through repair and resale, reducing waste.

Zero Landfill Policy

Ensuring that all materials are responsibly recycled, avoiding landfill disposal.

Our Services

Secure Electronics Recycling

Hassle-free pickup and collection of IT assets, including Gaylord box or truckload collections.

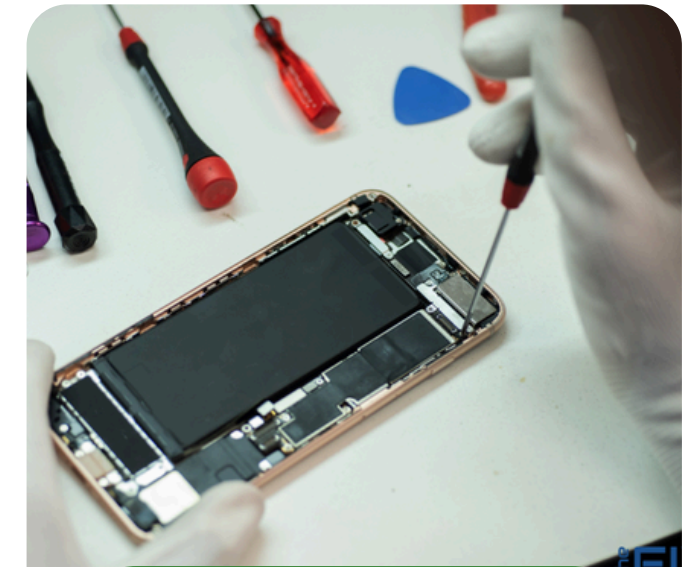

Data Erasure & Reporting

Using wipeOS for hard drives, laptops, and desktops and PhoneCheck for phones and tablets to provide detailed reports.

Customizable Solutions

Tailored data sanitization and reporting services to meet each client's unique needs.

Repair & Refurbishment

Cost-effective repair services that can save businesses up to 50% compared to manufacturer repairs

Our Recycling Process

At Recycle Agent, we follow a structured, secure, and eco-friendly four-stage process to ensure responsible electronics recycling.

01 Collection & Tracking

- Clients schedule a zero-cost pickup for their IT assets.
- Devices are logged into our system for chain-of-custody tracking.

02

Data Erasure & Destruction

- Devices undergo certified data sanitization using wipeOS and PhoneCheck.
- Certificates of data destruction are issued to guarantee compliance.

03

Refurbishment & Reuse

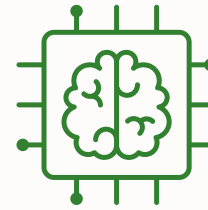

- Functional devices are repaired and resold, extending their lifecycle.
- Equipment that can be reused is redirected to schools, businesses, and organizations.

04

Recycling & Certification

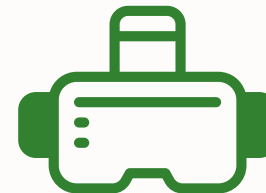

- Non-functional devices are dismantled, with metals, plastics, and components responsibly recycled.
- Clients receive detailed reports and certifications for complete transparency

SECURITY FOCUS Technologies

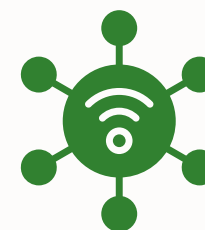

Certified Data Destruction

Ensuring complete, irreversible elimination of sensitive information through wipeOS and PhoneCheck.

Chain of Custody & Compliance

The background image shows a bright, modern office space. On the left, there's a grey sectional sofa and a wooden table. The room is filled with various indoor plants, including large leafy ones in the foreground and hanging plants from the ceiling. Large windows with wooden frames line the right side, letting in natural light. A green rectangular overlay with rounded corners is positioned in the center, containing white text.

Let's Work Together

Security is our commitment. We ensure data protection, compliance, and sustainability in every step of recycling, refurbishing, and reselling electronics
