www.emaillic.online

NOTE

Each domain has 2 to 3 sending accounts, and if more than three accounts are created on a single domain, deliverability can be compromised.

Each sender account can send a 20 emails per day.

Why do we recommend separate domains for cold email marketing?

In the realm of email marketing, we understand the importance of protecting your main domain's authority. Many marketers use separate domains to safeguard their primary brand domain. Here's the scoop - we'll ensure seamless redirection from the new domain to your main domain, making it a smooth and secure experience for your audience.

ADDITIONAL NOTE

Account health is paramount for optimal performance. Emaillic provides. Comprehensive guidance to prevent any potential issues arising from exceeding maximum sending limits or other restrictions. In the rate of account damage, service charges will apply for correction.

However, if account strength is compromised due to our setup strategy, repairs are provided free of cost. Irreparable accounts will be replaced with sender accounts each.

Our commitment is to ensure your accounts are in top condition, facilitating successful and uninterrupted email campaigns.

For every plan, payments for the license and domains, if purchased through us, are required in advance. We understand the importance of payment protection for our clients, ensuring peace of mind and a secure partnership. Your investment is safeguarded, allowing you to focus on maximizing the benefits of our services without any concerns about payment security.

Let me know if there's anything else you'd like to adjust or if you have any further requests!.

THANK YOU
