

THE GREEN GUARDIANS: MISSION EARTH

Our vibrant Earth slowly turning grey with pollution, deforestation, and plastic.

Anya, Ravi, and Zoya—eco-conscious kids. They spot a strange glowing plant in the school garden.

Once a lush green planet.

Earth is now calling for help

THE CALL TO ACTION

The glowing plant transforms into a tiny green superhero named Sprig, a guardian of nature.

You three have been chosen to be Earth's Green Guardians!

The kids visit a garbage-filled riverbank and a dried-up field

Land degradation* happens when the quality of land declines due to factors like deforestation, overgrazing, pollution, and climate change. This makes the land less productive for farming and other uses.

We need to clean up and plant more trees!

Plastic everywhere! No trees in sight

Mission: Protect the planet. Heal the land. Inspire others.

ACTION BEGINS – COMMUNITY DRIVE

Go green

Go clean

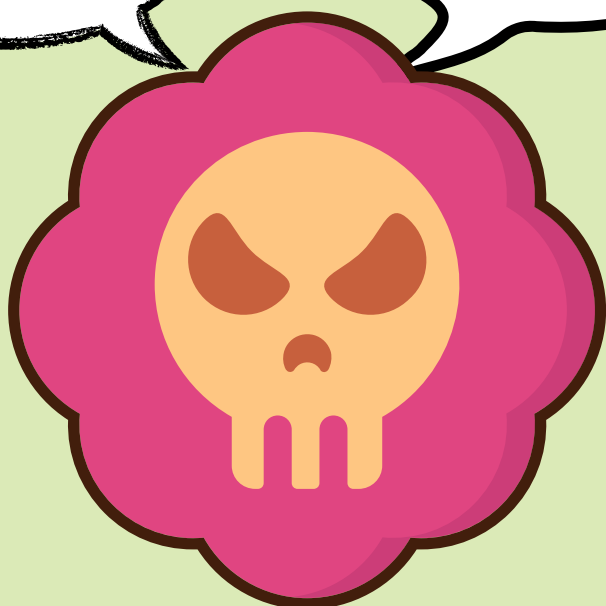

THE VILLAIN – DUSTOR THE DRAINER

Introduce Dustor, a villain made of smoke, garbage, and dryness.

You can't stop the destruction!

Most people in the world are my followers

He starts drying up plants and poisoning soil.

THE BATTLE FOR EARTH

Kids educate villagers, clean waste, and build rainwater harvesting pits

Only
knowledge,
action, and
unity can beat
him

USE ENVIRONMENT
FRIENDLY VEHICLES

Air Pollution can be reduced by

Planting more
trees

Using electric
vehicles

Using alternate
sources of energy

Using public transport

Only print
when necessary

Buy in bulk

Use both sides
of scrap papers

SALE OR DONATE
UNWANTED ITEMS

Buy reusable
items

Use rechargeable
appliances

Use reusable
grocery bags

Use refillable
water bottles

Reduce

Reuse

Recycle

Papers

Metal cans

Plastic bags
and bottles

Cardboard boxes

Newspapers and magazine

Glass bottles
and jars

VICTORY

Dustor vanishes. Earth glows green again

Protect Our
Planet Every
Day is
Environment
Day
