Partner Lab

Laboratory Accreditation

BioCentra Diagnostics is accredited as a high-complexity diagnostics laboratory by the College of American Pathologists (CAP) and Centers for Medicare and Medicaid (CMS).

Clinical Expertise

Our extensive expertise in high-complexity diagnostics empowers us to independently develop, validate, and bring cutting-edge scientific innovations into clinical practice.

CERTIFICATE of ACCREDITATION

BioCentra LLC
Laboratory
Houston, Texas

CAP Number: 9518360
JCI ID: 2212163
CLIA Number: 4502237827

The organization named above meets all applicable standards for accreditation and is hereby accredited by the College of American Pathologists Laboratory Accreditation Program. Reaccreditation should occur prior to May 5, 2025 to maintain accreditation.

Accreditation does not automatically survive a change in director, ownership, or location and assures that all interim requirements are met.

Kathleen G. Beards, MD, Accreditation Committee Chair

Emily Rob, MD, PCAP, President, College of American Pathologists

Our Vision

To transform healthcare with
breakthrough diagnostics for
overlooked medical conditions.

Problem

- ✓ 95% of mild Traumatic Brain Injuries (mTBI/concussion) are often missed by CT/MRI imaging. This leads to misdiagnosis, delayed treatment, litigation challenges, and long-term disability.
- ✓ The impact is felt across patients, personal injury law firms, athletes, schools, sports organizations, healthcare organizations, and insurers who lack objective evidence.

Solution

Blood Biomarkers

TBioScan	Biomarkers	Price
Essential Panel	3	\$15,000
Complete Panel	4	\$20,000
Dementia Risk Test	1	\$5,000
Advanced Panel	5	\$25,000

Advantage

Blood biomarker testing is recommended by the FDA as an alternative to MRI and CT scans.

Convenient Blood Draw

Simple collection with no invasive procedures required.

Rapid Turnaround Time

Lab-certified results delivered within 24 hours.

Objective Evidence of Injury

Biomarker-based proof beyond subjective symptoms.

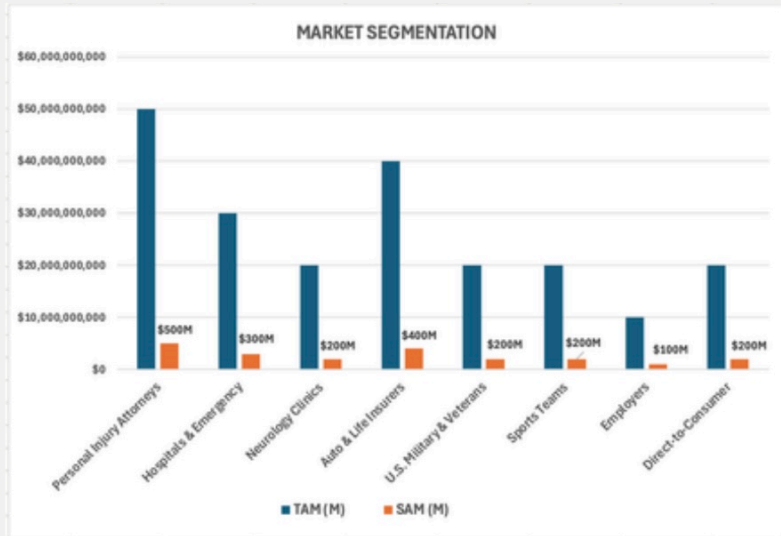

Future Damage Modeling

AI-driven lifecare planning to predict future damages.

Market Opportunity

SAM - \$210 Billion

TAM - \$2 Billion

Investment Ask

\$2.5 MM

Use of Funds

1. Technology and Infrastructure
2. Education & Training Programs
3. Business Development & Sales
4. Costs of Reagents and Supplies
5. Operational Support & Payroll

Valuation

Pre-money
