

Firebird Drones
Monitor. Showcase. Impress.

FOR CONSTRUCTION:

SUPERINTENDENTS PROJECT MANAGERS MARKETING MANAGERS

Firebird Drones offers drone-based solutions for construction documentation & creative marketing.

What We Do

Firebird Drones specializes in delivering high-quality aerial documentation and creative marketing content tailored for the construction industry. Our drone services capture stunning photos and videos that enhance project tracking & elevate your brand's visual storytelling.

Who We Are

Founded by Levi Mack, a FAA-certified Part 107 Remote Pilot, his goal is to help others with his skills in drone piloting, videography & photography. Levi will listen to your needs and deliver exactly what you're looking for in your project documentation and/or creative media.

Our Services

Site Progress Tracking

Consistently track the progress of your sites. Systematically record your projects for internal communications, proof of work, safety evaluations and improved workflows.

Drone Mapping & Modeling

Create 2D maps of your sites for all teams to reference. Explore 3D models from the comfort of your office and interactively showcase your work to clients.

Creative Media

Post unique drone content to attract prospective clients. Drone photos, videos and fly-throughs offer stunning perspectives compared to traditional ground cameras.
