

Apex Biotechnology Training and Research Institute

Training Program for Career Placement and Advanced Studies

We offer comprehensive research training in biotechnology, ranging from basic to advanced levels, to help students and higher education aspirants excel in today's dynamic world. Our program is designed to provide students with a deep understanding and hands-on experience of the principles and logic necessary to secure placements in both national and international institutions.

Who We Are

Since 2014, Apex Biotechnology Training and Research Institute (ABTRI) in Chennai, southern India, has been the region's leading biotechnology placement training institute. ABTRI boasts a state-of-the-art biotechnology training facility spanning over 3,000 square feet. The institute is dedicated to preparing students for roles as researchers in academic institutions, as industry-ready professionals, and as biotechnological entrepreneurs.

Why Choose Us

Research and Development Center for Our Conglomerate

We serve as the Research and Development Center for our conglomerate companies specializing in Agrobiotech, Biopharma, Environmental Science, Food Biotechnology, Cosmetics, and Nutraceuticals.

Centre of Industry-Academic Collaboration

We are committed to providing hands-on experience for biotech students during their studies. Through numerous collaborations with leading institutes nationwide, we function as a Biotechnology Career Development Center for their students. We also offer rigorous training for aspirants interested in studying abroad or domestically. Our training programs are designed to contribute to a brighter future for all.

We guarantee the lowest price for the training.

Training fees are as follows:

- Higher Studies Abroad (3 Months): ₹ 50,000/-
- Higher Studies Domestic (3 Months): ₹ 30,000/-
- Internship with Placement (6 Months): ₹ 75,000/-

Our Programs

Higher Studies – Abroad

Training Program for Pursuing Masters and Doctoral Programs Abroad. The curriculum covers foundational to molecular topics, integrating conceptual learning with practical, hands-on experience.

Higher Studies – Domestic

Training Program for Pursuing Masters and Doctoral Programs Domestically. The curriculum covers specialized areas and molecular topics, combining theoretical learning with practical, hands-on experience.

Placement Training

Placement Training Program for Recent Graduates Seeking Biotech Core Jobs in India. This intensive six-month program focuses on various aspects of core company projects. Trainees will attend interviews during the training, and we support their placement in core companies. We prepare them as a skilled workforce, guaranteeing placements with annual CTC ranging from 1.8 to 3.5 lakhs.
