### MAP LEGEND

- ⑦ Tour stop / numbered post
- P Modern parking area
- Building or other structure
- G Guard tower

Adapted from a 1946 map showing the site's greatest extent at the end of World War 2. The church camp later removed some structures and added others. Not all buildings and paths shown on this map can be found today. The underlying map includes buried water lines and a barbed wire fence around the main prisoner compound.
