RENOVATION & REMODELING

Transforming existing spaces into modern, functional areas that enhance usability and aesthetics.

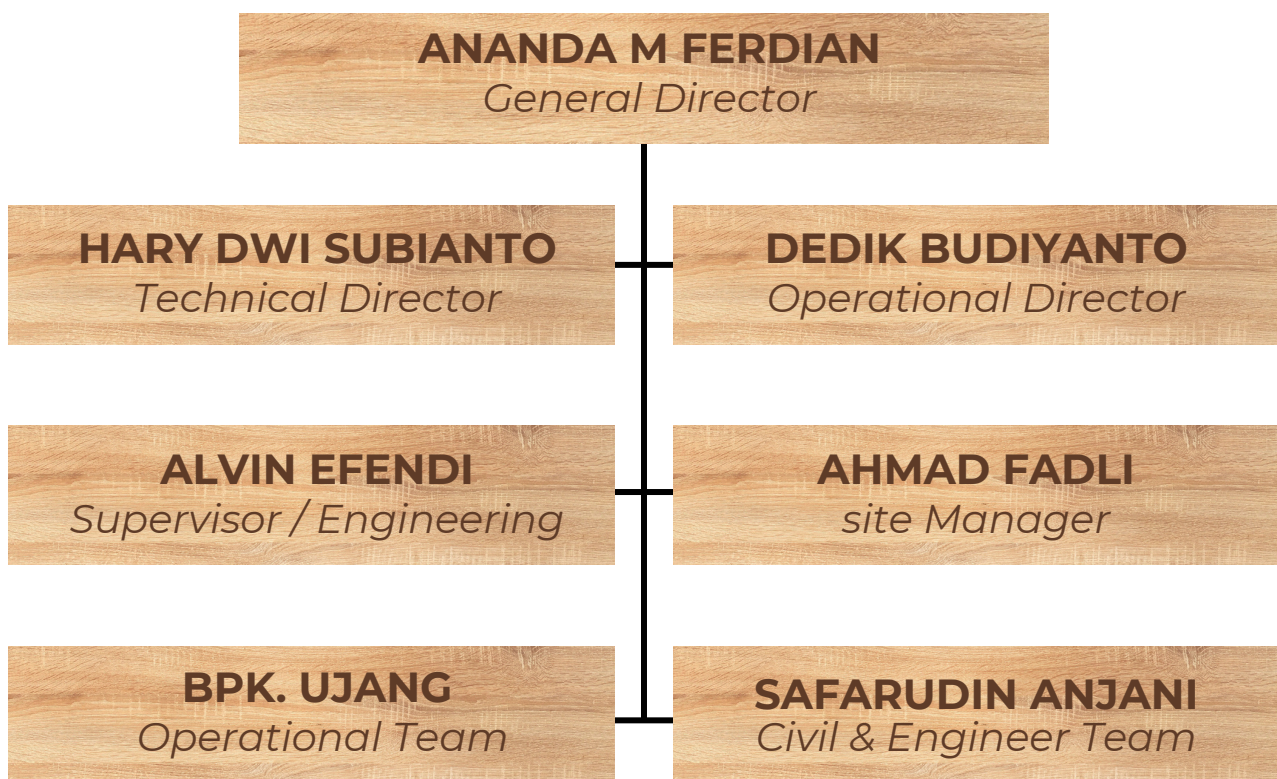

SUSTAINABLE BUILDING SOLUTIONS

We incorporate eco-friendly materials and practices, promoting sustainability in every project.

ORGANIZATION **STRUCTURE**

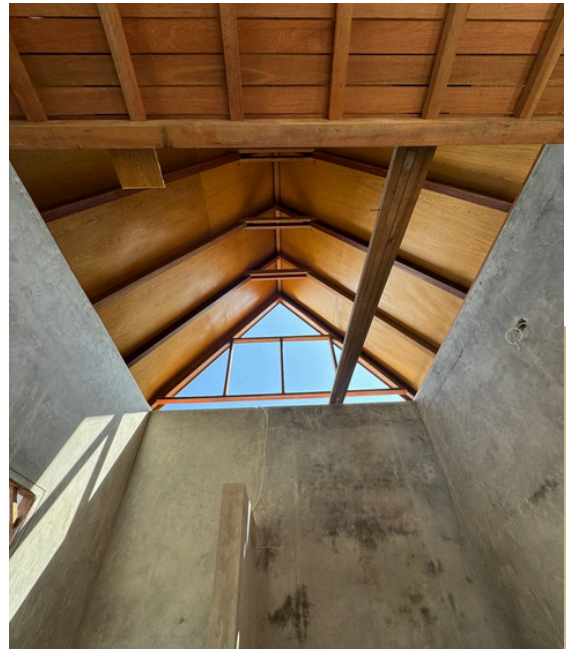

"Strength in Structure, Excellence in Execution"

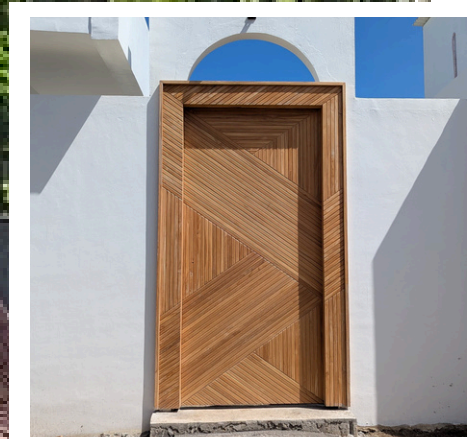

This structure empowers PT. Rumah Joglo Indonesia to deliver projects with precision, creativity, and unwavering commitment to client satisfaction.

LATEST PROJECT

Our latest project mostly located in KUTA, Lombok, West Nusatenggara, Designed with people at its heart, this space isn't just about walls and windows; it's about creating moments. From the first sketch to the final brick, we've poured creativity and care into every detail, ensuring it feels as functional as it does inspiring.

We didn't just design a building - we built a living, breathing space that changes with the light and grows with its people. Every curve in the facade? That's from watching how crowds naturally flow through public squares. The way materials age gracefully? That's from listening to maintenance teams tell us what really lasts.

THE MANNY'S

Design and build a one-of-a-kind private villa that seamlessly integrates luxury living, sustainability, and cutting-edge technology, while reflecting owner's personal style and values.

Position : Woods Supplier, Architectural Design & Construction Team
(All IN PROJECT)

Location : Kuta, Lombok

Project : The Ultimate Bespoke Retreat" – Where Every Detail Reflects the Owner's Legacy

Cost : IDR. 6 Billion

MANUEL

SELONG SLOW

PT Joglo Indonesia is crafting Selong Slow, a boutique eco-villa and bungalow project that embodies Lombok's unhurried beauty. We're seeking passionate creators to design and build spaces where time moves with the tides, and every detail whispers "stay a little longer."

MONICA

	Amenity Development: <ul style="list-style-type: none">◦ Private swimming pools for each villa◦ Landscape integration

PAST PROJECT

WWW.JOGLOINDONESIA.COM

WHERE VISION TAKES SHAPE

From restoring 200-year-old palace roofs with painstaking precision to shaping modern villas where teak beams glow in the sunset, we build with passion and proven craftsmanship. As your trusted wood supplier, we source only the finest quality teak, ironwood, and rare Indonesian timbers - each piece hand-selected for its character and durability. Whether it's century-old reclaimed teak whispering stories in a Joglo villa or sustainably harvested meranti framing a luxury pool deck, we treat every plank with reverence. Our clients sleep well knowing their projects use wood that's ethically sourced, expertly cured (our 3-stage kiln drying prevents warping), and installed by artisans who speak the language of grain and joinery. Because exceptional spaces begin with exceptional materials - and that's a promise we've kept across Rp 1.7 billion worth of projects, from royal museums to hillside retreats. Ready to build something enduring? Let's talk wood with soul.

PT JOGLO INDONESIA

*"Building legacies—in stone,
wood, and client trust."*

VILLA - SUMBAWA

2023 - 2024

Position : Construction Team
Location : Sekongkang Village, West Sumbawa
Project : Villa with wives sounds
Cost : IDR. 350 Million
