Work Experience

LEGO

Concept Model Design Intern - Creative Play Lab
Billund, Denmark

February - May 2025

Worked collaboratively to innovate and push the boundaries of what LEGO can be. Supporting software, hardware, and narrative designers by building models around their ideas while contributing personally. Got hands-on insights into safety standards for building toys, plastic manufacturing, and designing for play.

Made de Madera

Industrial Design Intern
Alcorcón, Madrid, Spain

May - August 2024

Designed many projects for both in-house use and commercial endeavors. Brought unique input to the shop as a student and received unique and valuable Spanish perspective in return. Amassed skills in a variety of new areas, as well as experimented with different ideation techniques.

ionVentus

Industrial Design Intern
Xenia, Ohio, United States

August - December 2023

Provided Industrial Design Input on products that have a variety of applications across consumer markets. Assisted with prototyping and small scale manufacturing across a variety of projects around the office, learning valuable prototyping skills such as proper painting technique, creating and casting parts out of silicon molds, and operating various tools such as a dremel or laser cutter.

DAAP Experiential Exploration Program[EEP]

Independent Study
Cincinnati, Ohio, United States

January - May 2023

Carefully selected independent projects in order to further develop skills as a designer, including MIG welding, various new woodworking techniques, and basic 3D Printer Operation. Traveled to NYC to visit the Cooper-Hewitt Design Museum.
