

COFFEE

DORIN SASSON

Inspiration from a childhood memory

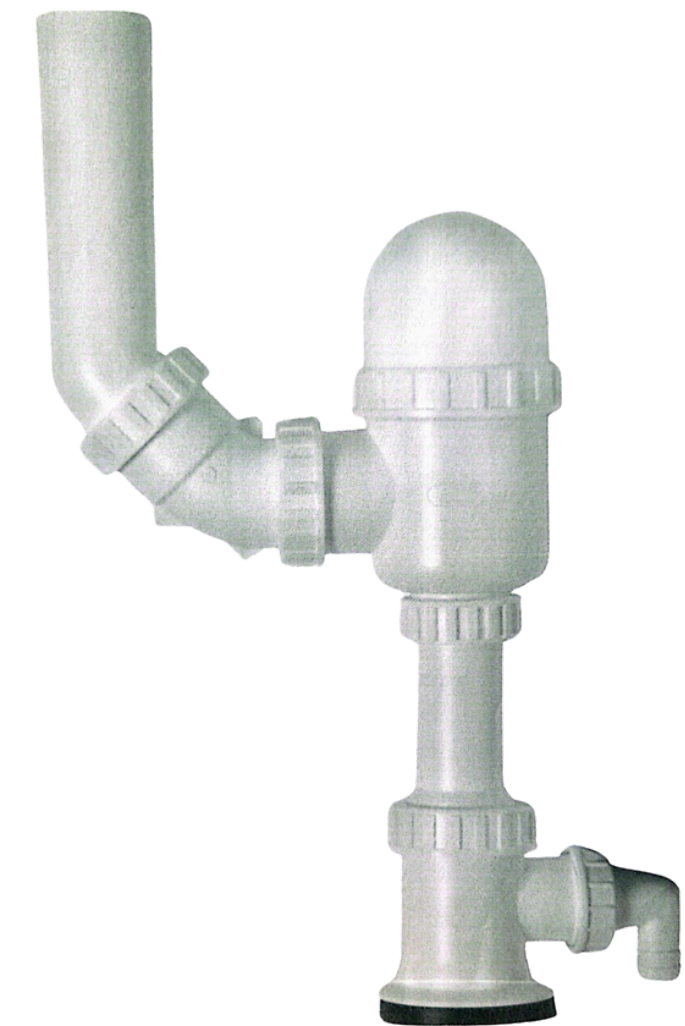

Sanitary pipes plastics

as a girl
I worked in my kibbutz's
factory, a plastic factory,
mainly pipes and
connectors for sewers.

I remember that the work
was very monotonous and
boring and to alleviate the
boredom I would start
assembling all kinds of
unrelated parts

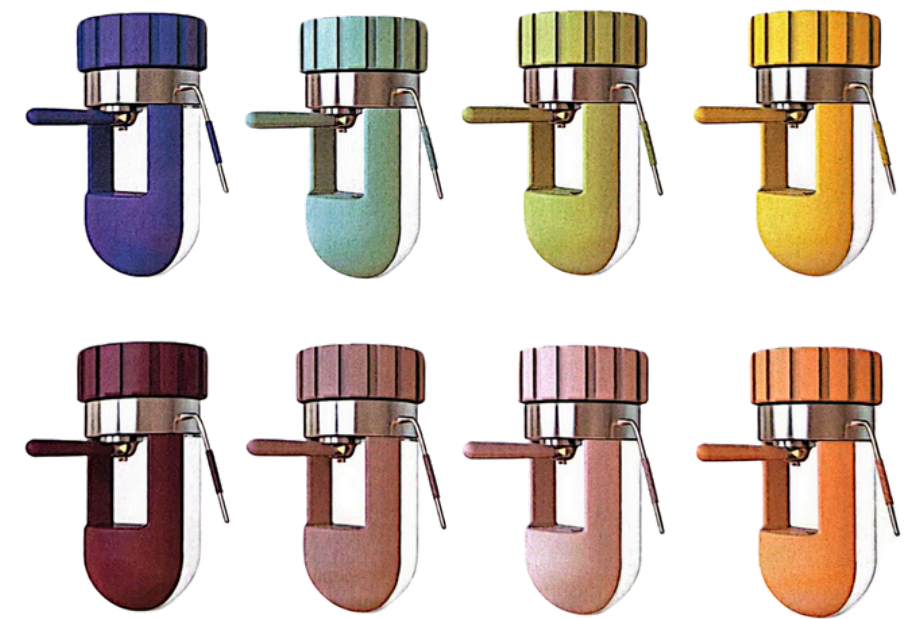

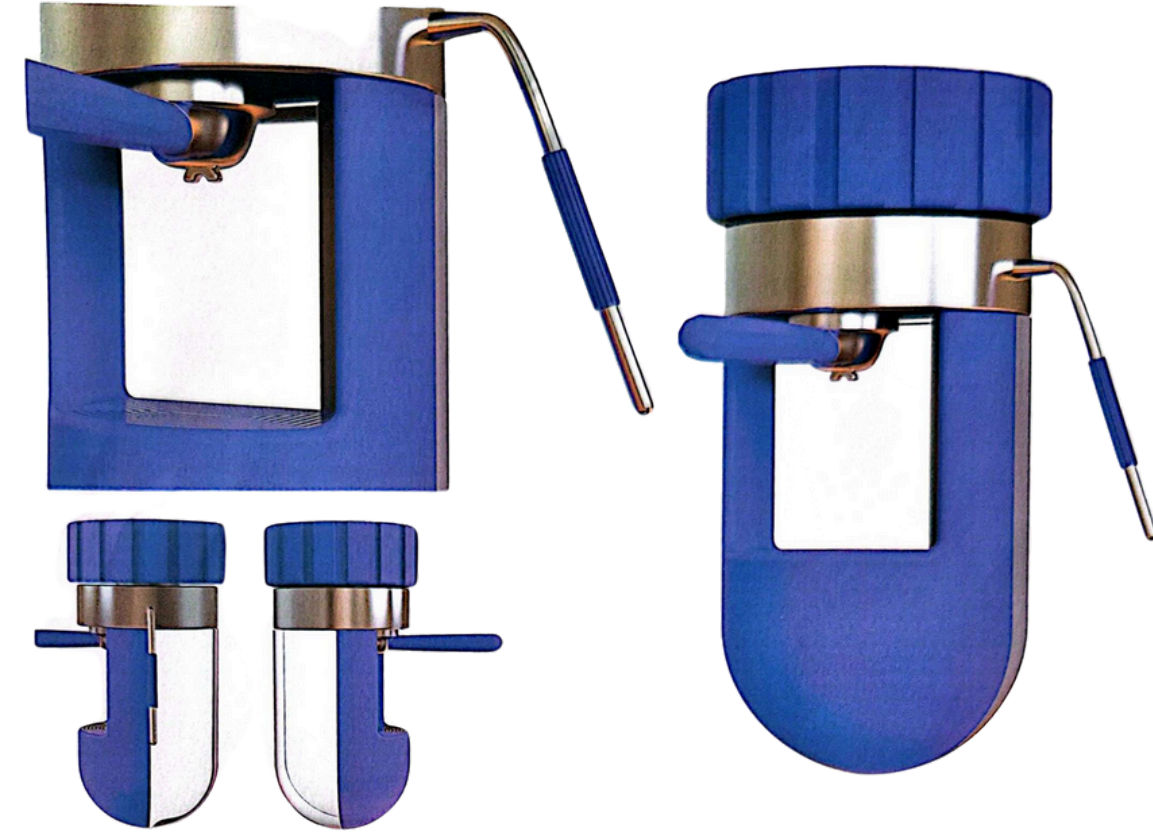

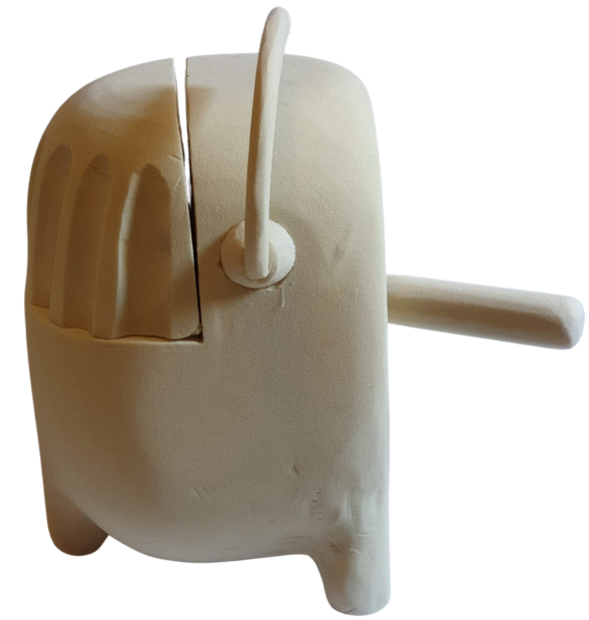

Creature and monstrous
characters were created
from them and I really
enjoyed it

category:
coffee
