ADVANCED TECHNOLOGY INNOVATION CO.

Overview of Atic Group

We provide innovative technology solutions across industrial, technology, and healthcare sectors, tackling complex challenges with cutting-edge innovations.

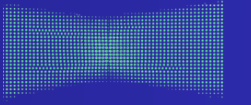

We're committed to developing solutions that transform industries, advance technology, and improve health outcomes through rigorous research and development.

We partner with leading global companies to deliver world-class technology integration and comprehensive solutions from project development through implementation.

ADVANCED TECHNOLOGY INNOVATION CO.

Vision and Mission

Our Vision

To be a leading provider of transformative technology solutions across industry, technology, and health sectors, setting benchmarks for quality, innovation, and sustainability.

Our Mission

To enhance industries, advance technology, and improve health outcomes by integrating world-class innovation through strategic partnerships with leading global companies.

ADVANCED TECHNOLOGY INNOVATION CO.

Organizational Structure

Atic Group operates through three specialized subsidiaries, each focused on delivering excellence in its respective domain. This structure enables comprehensive coverage across business solutions, R&D manufacturing, and strategic partnerships.

Bedot

We offer advanced ERP systems, banking solutions, custom websites and mobile apps, AI implementations, integration services, and cybersecurity in Saudi Arabia and Oman.

ATIC R&D

R&D Manufacturing and Institutions develop innovative products through rigorous research. Agency Marketing drives vendor collaboration and partnerships.

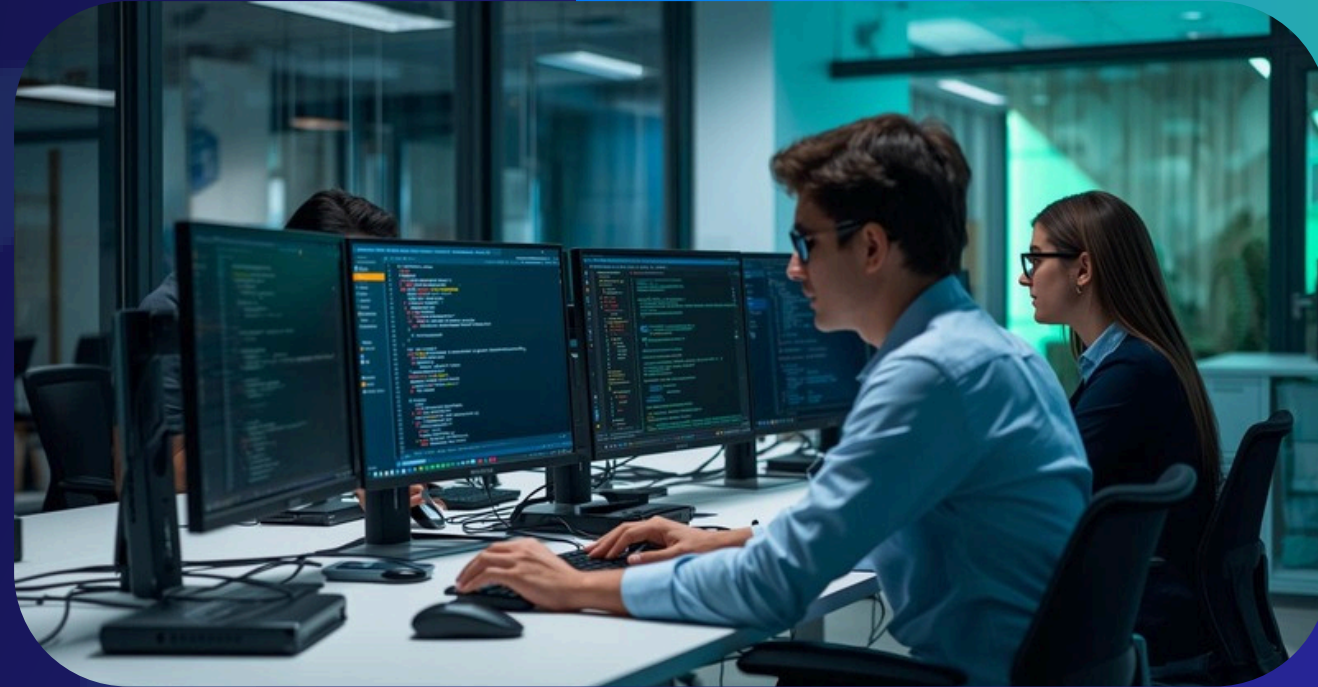

ADVANCED TECHNOLOGY INNOVATION CO.

Bedot – Unified Business Solution

Digital Solutions

Website design and mobile app development delivering next-generation digital experiences for businesses in Saudi Arabia and Oman.

Smart Management

Comprehensive management solutions powered by Bedot AI for intelligent automation, billing systems, and banking integrations.

Security & Growth

Core cybersecurity services protecting your assets, combined with strategic business development services for sustainable growth.

Our Services Across Sectors

ADVANCED TECHNOLOGY INNOVATION CO.

Industrial Solutions

Automation & Smart Manufacturing

Implementing intelligent automation systems, robotics integration, and smart factory solutions that optimize production efficiency and reduce operational costs.

Industrial IoT & Plant Engineering

Connected sensor networks, predictive maintenance systems, and comprehensive plant engineering services ensuring optimal equipment performance and uptime.

Advanced Materials & Sustainability

Cutting-edge sustainable technologies and advanced material solutions that meet environmental standards while enhancing industrial performance and longevity.

ADVANCED TECHNOLOGY INNOVATION CO.

ADVANCED TECHNOLOGY INNOVATION CO.

Technology Solutions

Digital Transformation

Leveraging AI, Machine Learning, and Big Data analytics to drive intelligent automation and data-driven decision making across your organization.

Cybersecurity

Comprehensive security solutions protecting your digital assets with advanced threat detection, vulnerability assessment, and compliance management.

Cloud & Infrastructure

Scalable cloud computing solutions and robust IT infrastructure services enabling seamless digital operations and enterprise connectivity.

ADVANCED TECHNOLOGY INNOVATION CO.

ADVANCED TECHNOLOGY INNOVATION CO.

Healthcare Solutions

Telemedicine

Advanced telemedicine platforms enabling remote consultations, virtual care delivery, and seamless patient-provider connectivity across distances.

AI Diagnostics

Cutting-edge AI-powered diagnostics and medical imaging solutions that enhance accuracy, speed up analysis, and support clinical decision-making.

Patient Management

Comprehensive patient management and health information systems streamlining records, workflows, and care coordination across healthcare facilities.

ADVANCED TECHNOLOGY INNOVATION CO.

ADVANCED TECHNOLOGY INNOVATION CO.

Thermocase Insulation Jackets

Assessment & Analysis

Comprehensive evaluation of energy systems, identification of non-insulated elements, and detailed analysis of the current equipment state.

3D Design & Installation

Technical study with heat loss calculations, energy savings projections, ROI analysis, followed by precision 3D modeling and on-site installation.

After-Sales Support

Ongoing maintenance and support services ensure optimal performance and longevity of insulation solutions for hot and cold surfaces.

ADVANCED TECHNOLOGY INNOVATION CO.

Why Choose Atic Group?

Innovation & Quality

Unwavering commitment to innovation and quality excellence. Proven R&D and manufacturing capabilities are driving cutting-edge solutions.

Global Partnerships

Partnering with leading global companies gives us access to world-class technology and cutting-edge solutions.

Multi-Sector Expertise

Comprehensive expertise across industrial, technology, and healthcare sectors. We provide full-service, from project development to after-sales support.
