Washington DC: A Tale of Two Cities

Here are a few appalling facts about our city that prompted me to run for Mayor:

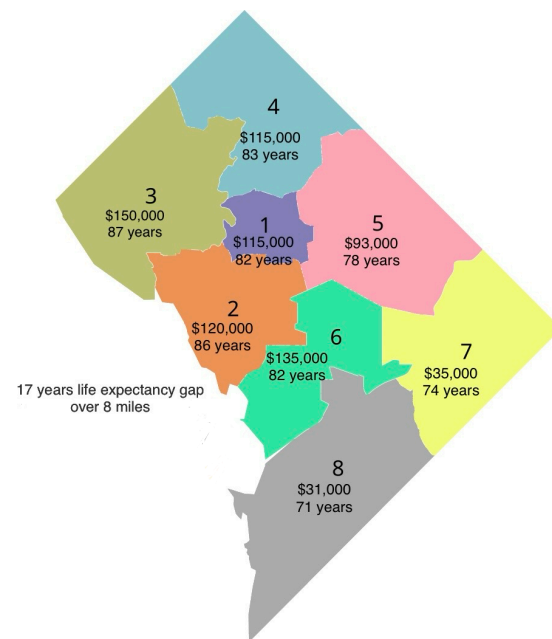

The 17-Year Zip Code Penalty: In Ward 3, residents live to 88; in Ward 8, that number drops to 71. I believe your birth certificate shouldn't come with an expiration date dictated by your neighborhood.

The No-Grocery Zone: It shouldn't take three bus transfers or a \$25 Uber ride just to find a fresh head of lettuce. While Northwest DC is overflowing with Whole Foods, Trader Joe's, Safeways and Giants, 160,000 residents in Wards 7 and 8 have been left behind in a desolate "food desert"—they contain 80% of DC's food deserts with just THREE full-service grocery stores serving 7 & 8 COMBINED. Ward 3 alone has 19! I'm running to ensure that "eating well" isn't a privilege reserved for the wealthy.

"Medical Apartheid": Six hospitals for Northwest and two for Southeast isn't just bad math—it's bad medicine. We're going to ensure that "quality care" is a right for every Ward, not a luxury for few.

The 65x Gap: Households in Northwest D.C. (Wards 2 and 3) have a net worth estimated to be 65 times greater than those living east of the Anacostia River. A net worth gap of 65:1 between neighborhoods is a monumental structural failure. When the median income for White households is triple that of Black households, we don't have an "equity" problem—we have a structural one. I'm running to rebuild a city where net worth isn't determined by Northwest proximity.

I am running for Mayor of Washington DC, because I believe your life expectancy should NOT depend on which side of the river you call home. I'm not just running to balance the budget; I'm running to balance the scales. I'm running because I believe it is time for a DC where EVERY Ward is a winner. I'm running because I believe that the incredible talent and resilience of its people can transform DC into the ultimate Dream City—the gold standard by which all great cities are judged.
