

ANKAAY

TECHNOLOGY SERVICES PVT. LTD.

Cutting Edge Solution

THE FUTURE
IS HERE
AI & YOU

COMPANY OVERVIEW

ANKAAY Technology & Services (ATS) is a forward-thinking, AI-centric technology and consulting company delivering intelligent digital solutions, advanced IT services, and business transformation support to startups, SMEs, enterprises, and institutions.

Founded with a vision to bridge technology with real-world business needs, ATS helps organizations transform operations, decision-making, and customer experiences through Artificial Intelligence, Automation, and Intelligent Digital Solutions. We combine innovation, technical expertise, and reliability to enable businesses to scale efficiently, securely, and sustainably in a rapidly evolving digital landscape.

At ATS, we believe technology should do more than automate processes it should create measurable value, reduce operational risk, and unlock new growth opportunities. We specialize in building practical, scalable, and business-aligned AI solutions that go beyond experimentation, delivering real outcomes, improved efficiency, and long-term impact.

- **At ATS, AI is not a buzzword.**
- **It is a tool for productivity, accuracy, speed, and competitive advantage.**

ATS Approach to AI

Our AI delivery model is built on clarity, control, and value:

Business First : Identify real problems before applying AI

Responsible AI : Secure, ethical, and compliant solutions

Scalable Design : Built for growth, not pilots only

Measurable Impact : Clear KPIs and performance tracking

Long-Term Partnership
Continuous optimization & support
We design AI that works in real environments, not just presentations.

WHO WE ARE

ATS is a collective of AI strategists, data professionals, automation experts, developers, and project managers with strong experience in enterprise systems, cloud platforms, and modern AI frameworks.

We work closely with startups, MSMEs, enterprises, and institutions to identify high-impact AI use cases and convert them into deployable, secure, and cost-effective solutions.

VISION & MISSION

OUR VISION

To become a trusted global leader in Artificial Intelligence and digital transformation, empowering organizations to adopt intelligent technologies that drive efficiency, innovation, and sustainable growth

OUR MISSION

To deliver practical, secure, and scalable AI-driven solutions that help organizations automate intelligence, enhance decision-making, reduce risk, and achieve measurable business outcomes through responsible innovation
