# 1. HOTEL ENTRANCE

AUTOMATIC DOOR SYSTEMS | FLOOR SPRINGS & PATCH  
FITTINGS FOR GLASS DOORS | FOOT PANEL PLATE | SURFACES |

## AUTOMATIC SLIDING DOORS

Automatic door systems provide a sophisticated and urbane look with their modern design, and aesthetic appearance and are an efficient way to handle simultaneous two-way traffic at a hotel entrance!

S200

M200

## AUTOMATIC SWING DOORS

The Automatic Swing Door Systems, offer relatively simple yet highly sustainable means to enhance the performance and accessibility of entrance – exit points especially of places where maximum opening area is desired

## AUTOMATIC REVOLVING DOORS

Automatic Revolving Doors make it easier for guests to enter and exit the hotel without the need to physically open/close the doors

## FLOOR SPRINGS & PATCH FITTINGS FOR GLASS DOORS

For hotel glass doors, you need hardware which is inherently strong as well as aesthetically appealing. Combining these two qualities, Häfele gives you the best of both worlds with its Range of Floor Springs and Patch Fittings that include fittings for varying door widths and weight bearing capacities.

## 2. RECEPTION AREA

PROLOCK: ELEVATOR CONTROL SYSTEM | RETROFIT GLASS PARTITION  
CLAMPS | SURFACES |

# PROLOCK- ELEVATOR CONTROL SYSTEM

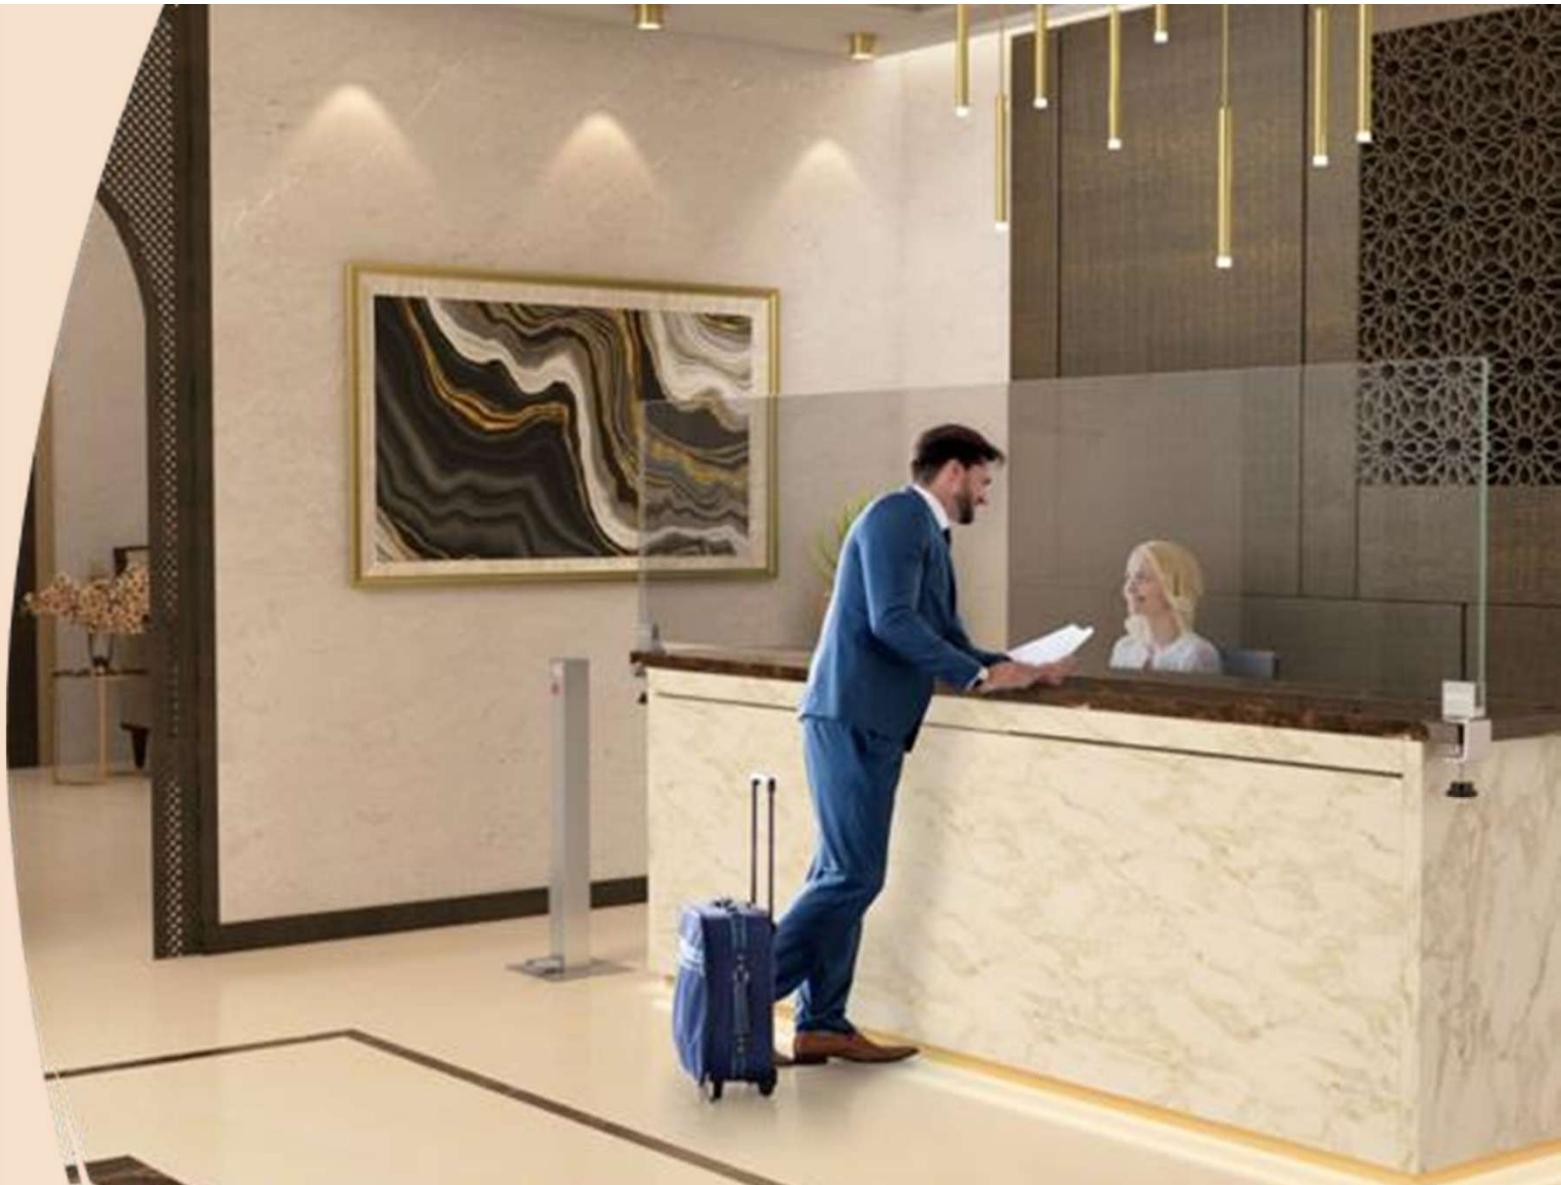

To manage and grant specific guest/ admin access: -

- By floor: private and public floor
- By time range within the day
- By day of week (weekends/workday)

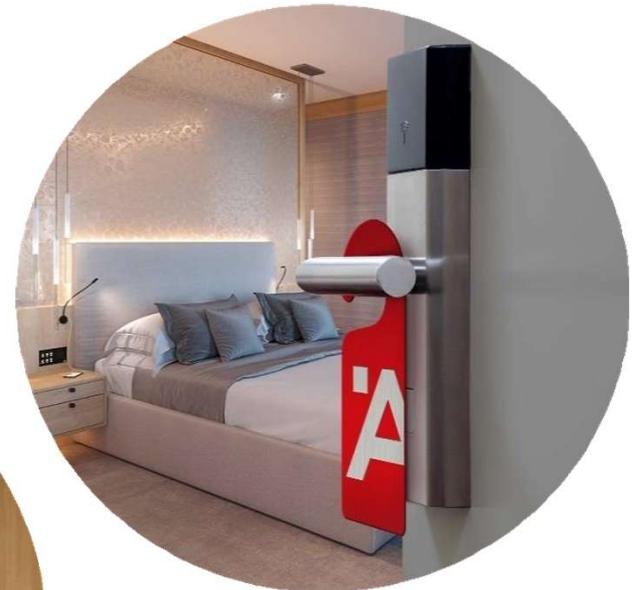

## RETROFIT GLASS PARTITION CLAMPS

A fitting for the reception area that has become even more crucial in the current situation, considering the safety and hygiene when facing the customer

### 3. ROOM ENTRANCE

DIALOCK ELECTRONIC ACCESS CONTROL SYSTEM | PROLOCK |  
ARCHITECTURAL DOOR HARDWARE

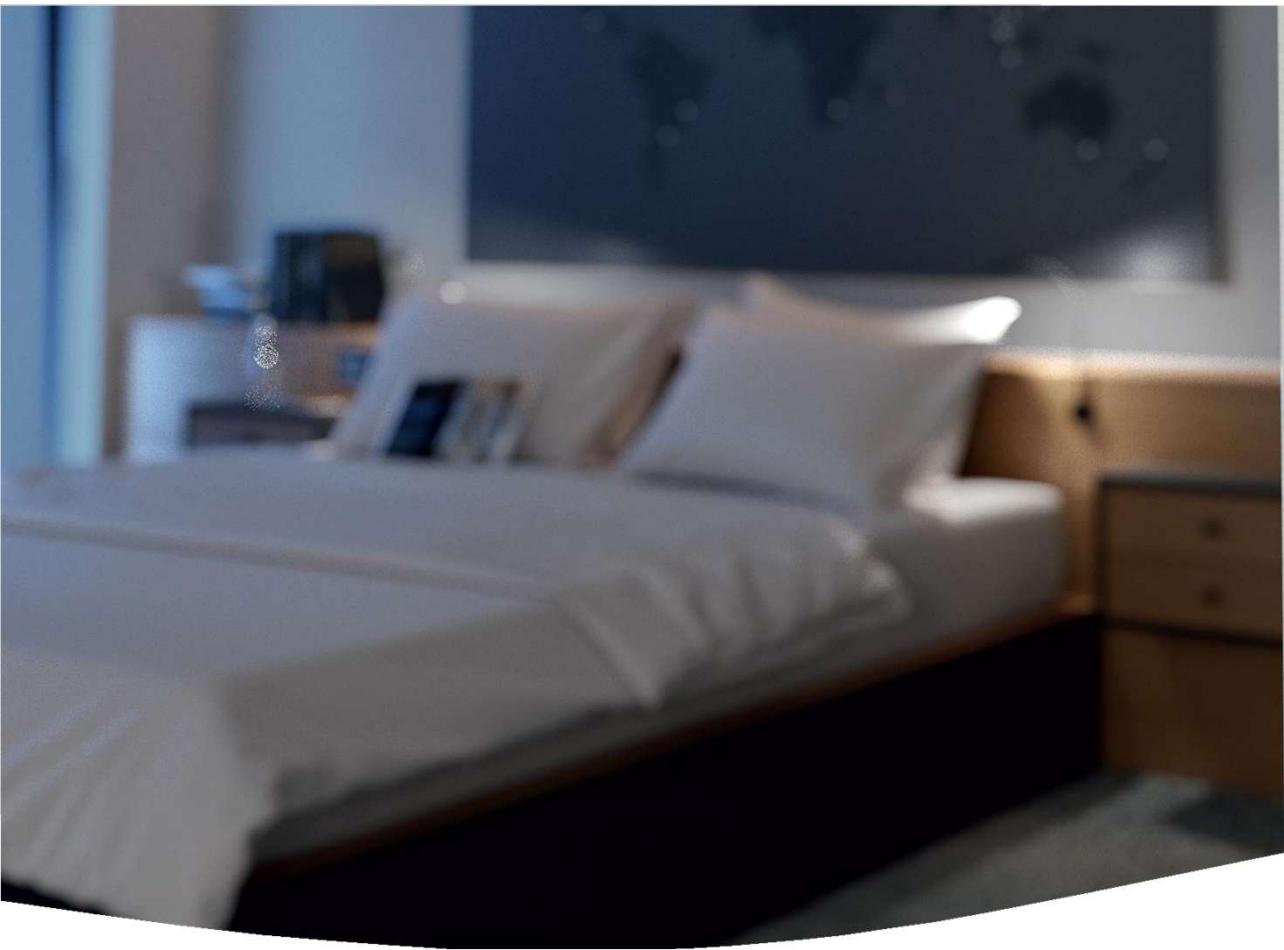

- ✓ Easy to operate
- ✓ Easy to configure
- ✓ Easy to network

## DIALOCK

A touchless key card convenience for guests and staff. Guest room doors, hotel entrances, and even elevators can be operated with ease with a single key.

The key can also be interfaced with the booking system for use in the restaurant, the parking area and the spa area.

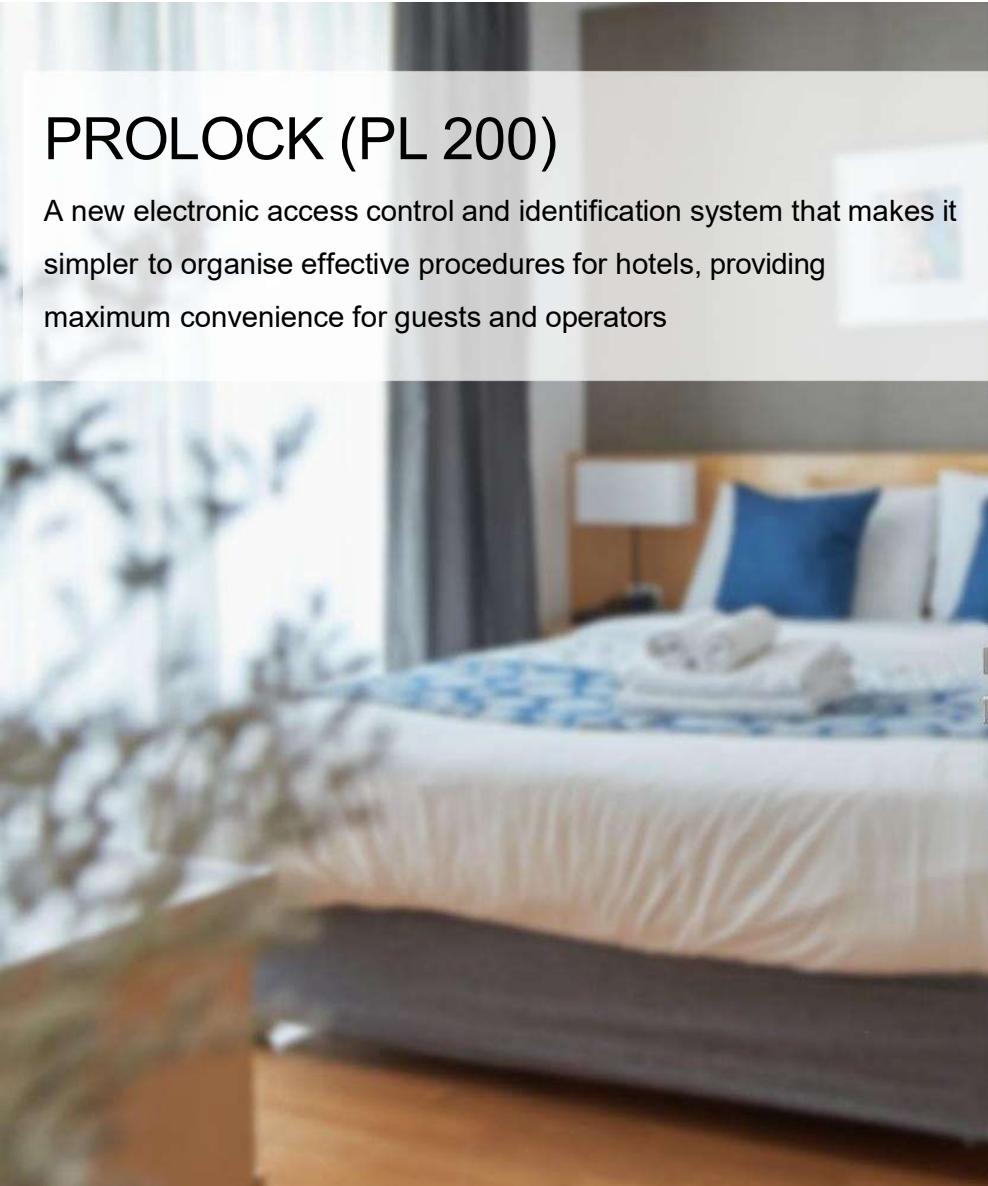

## DIALOCK

- ✓ On entering the room, the Dialock key is inserted into the energy-saving terminal and the power circuit is activated
- ✓ Suitable for activating electrical loads in guest rooms such as lighting, TV, sockets, air conditioning

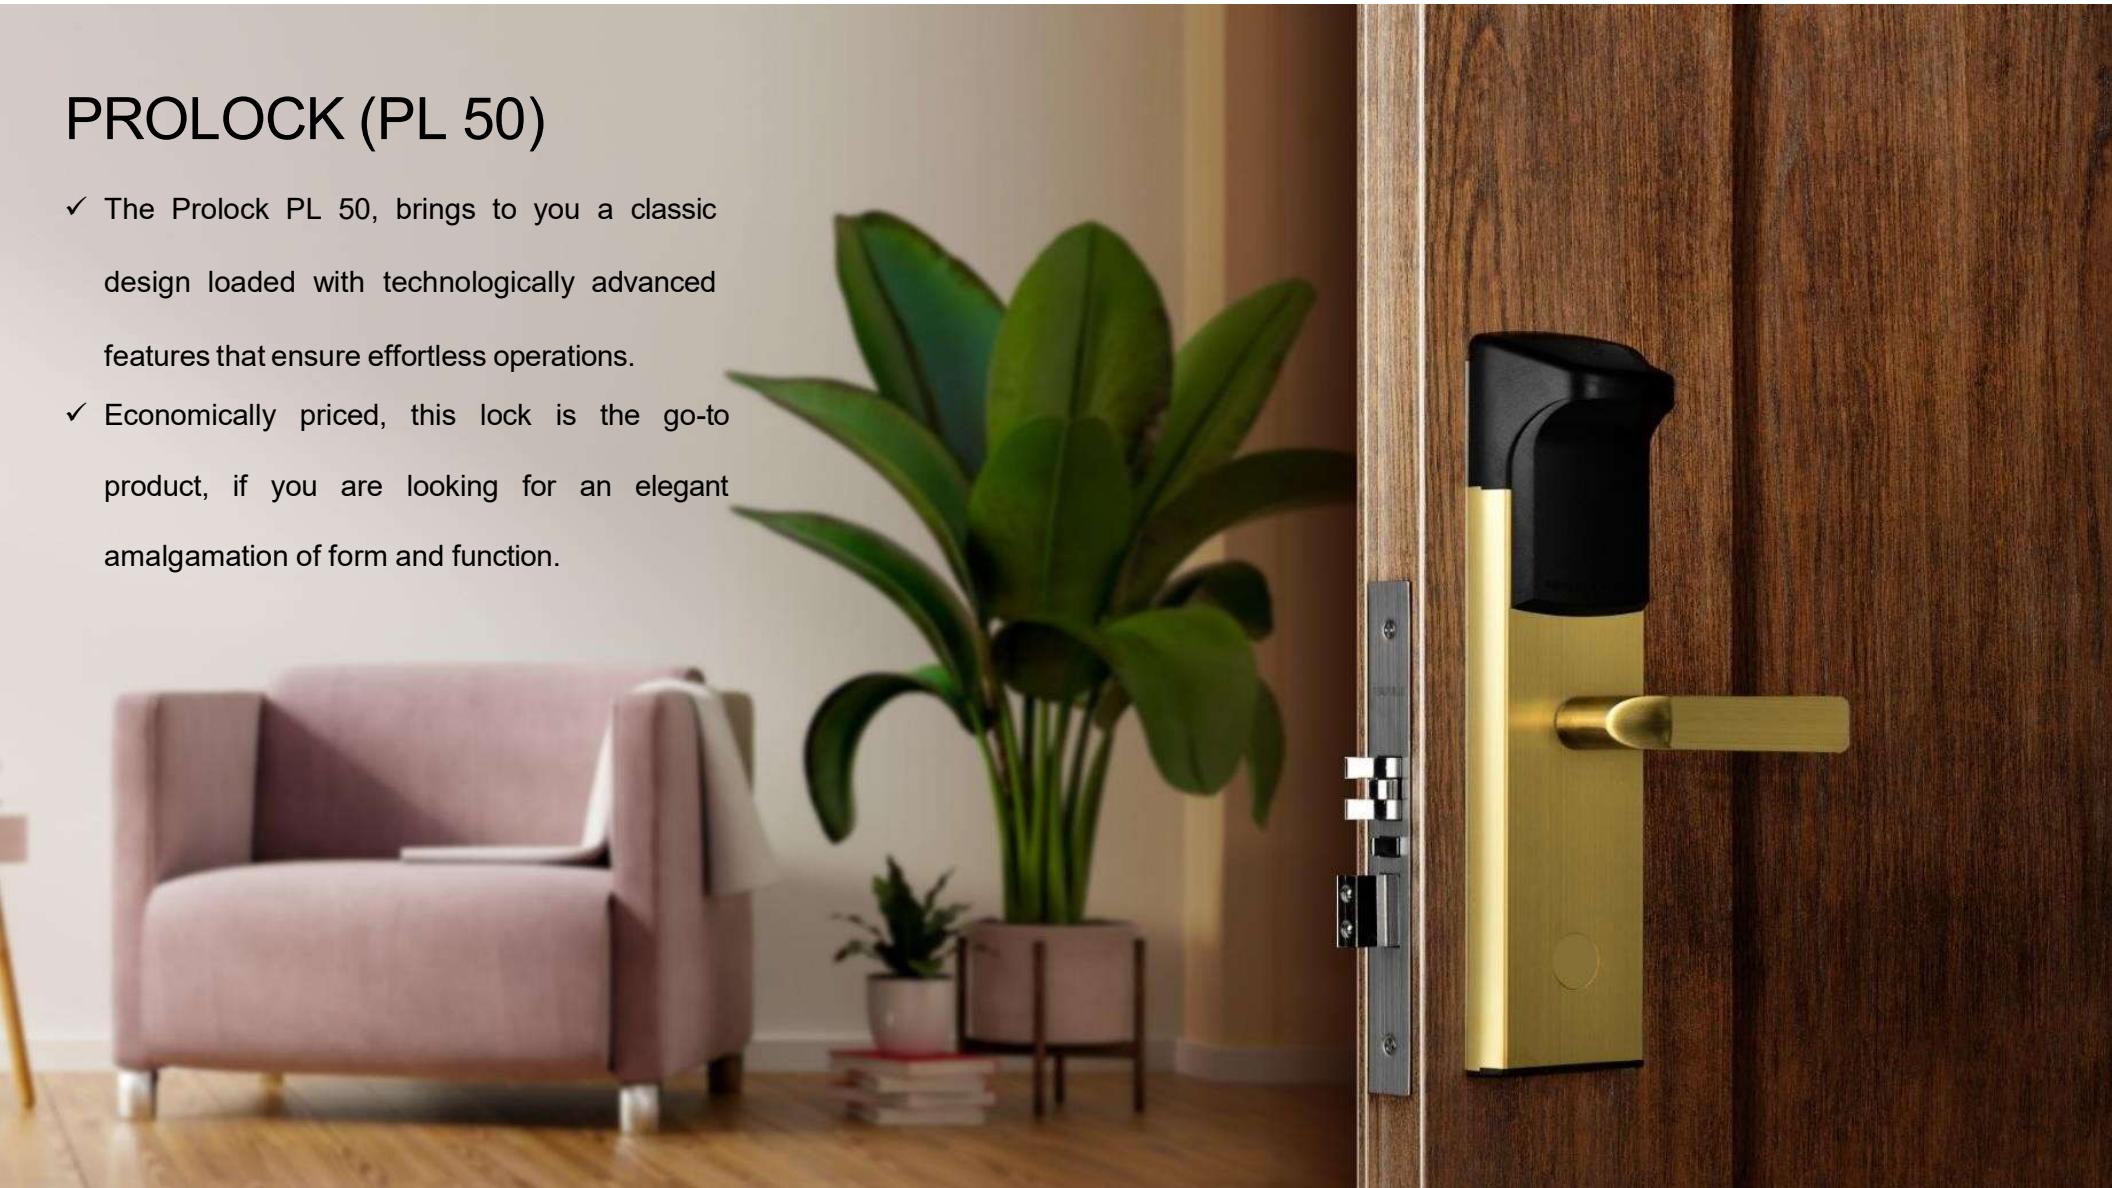

## PROLOCK (PL 200)

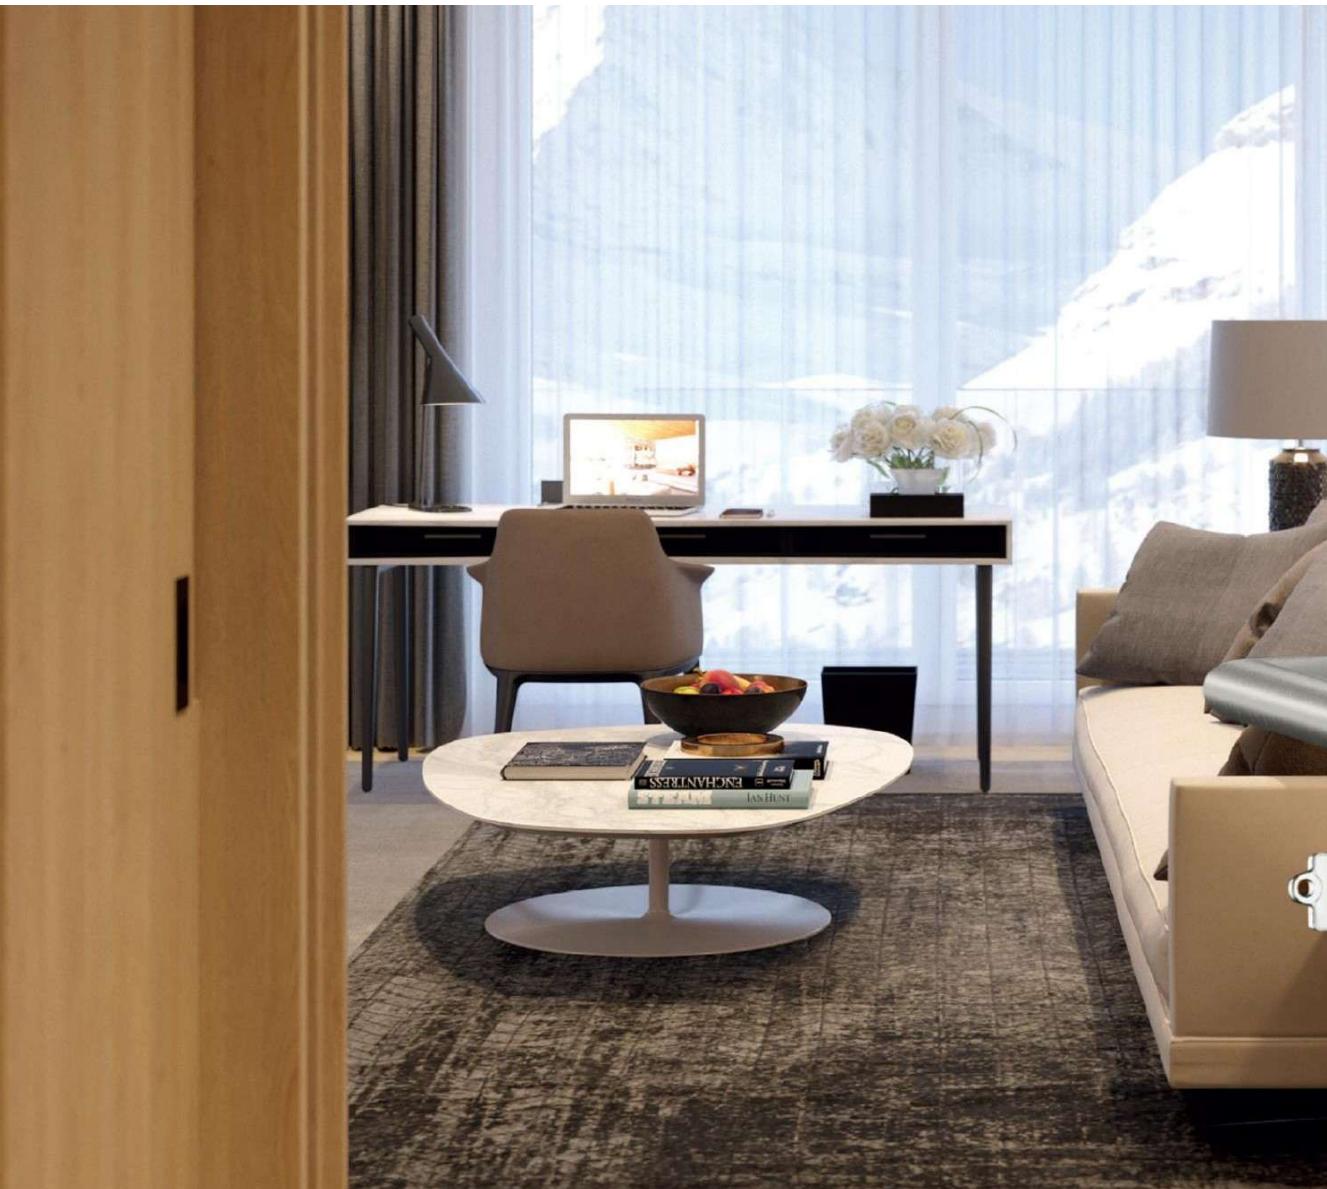

A new electronic access control and identification system that makes it simpler to organise effective procedures for hotels, providing maximum convenience for guests and operators

## PROLOCK (PL 50)

- ✓ The Prolock PL 50, brings to you a classic design loaded with technologically advanced features that ensure effortless operations.
- ✓ Economically priced, this lock is the go-to product, if you are looking for an elegant amalgamation of form and function.

## MASTER KEY SYSTEMS

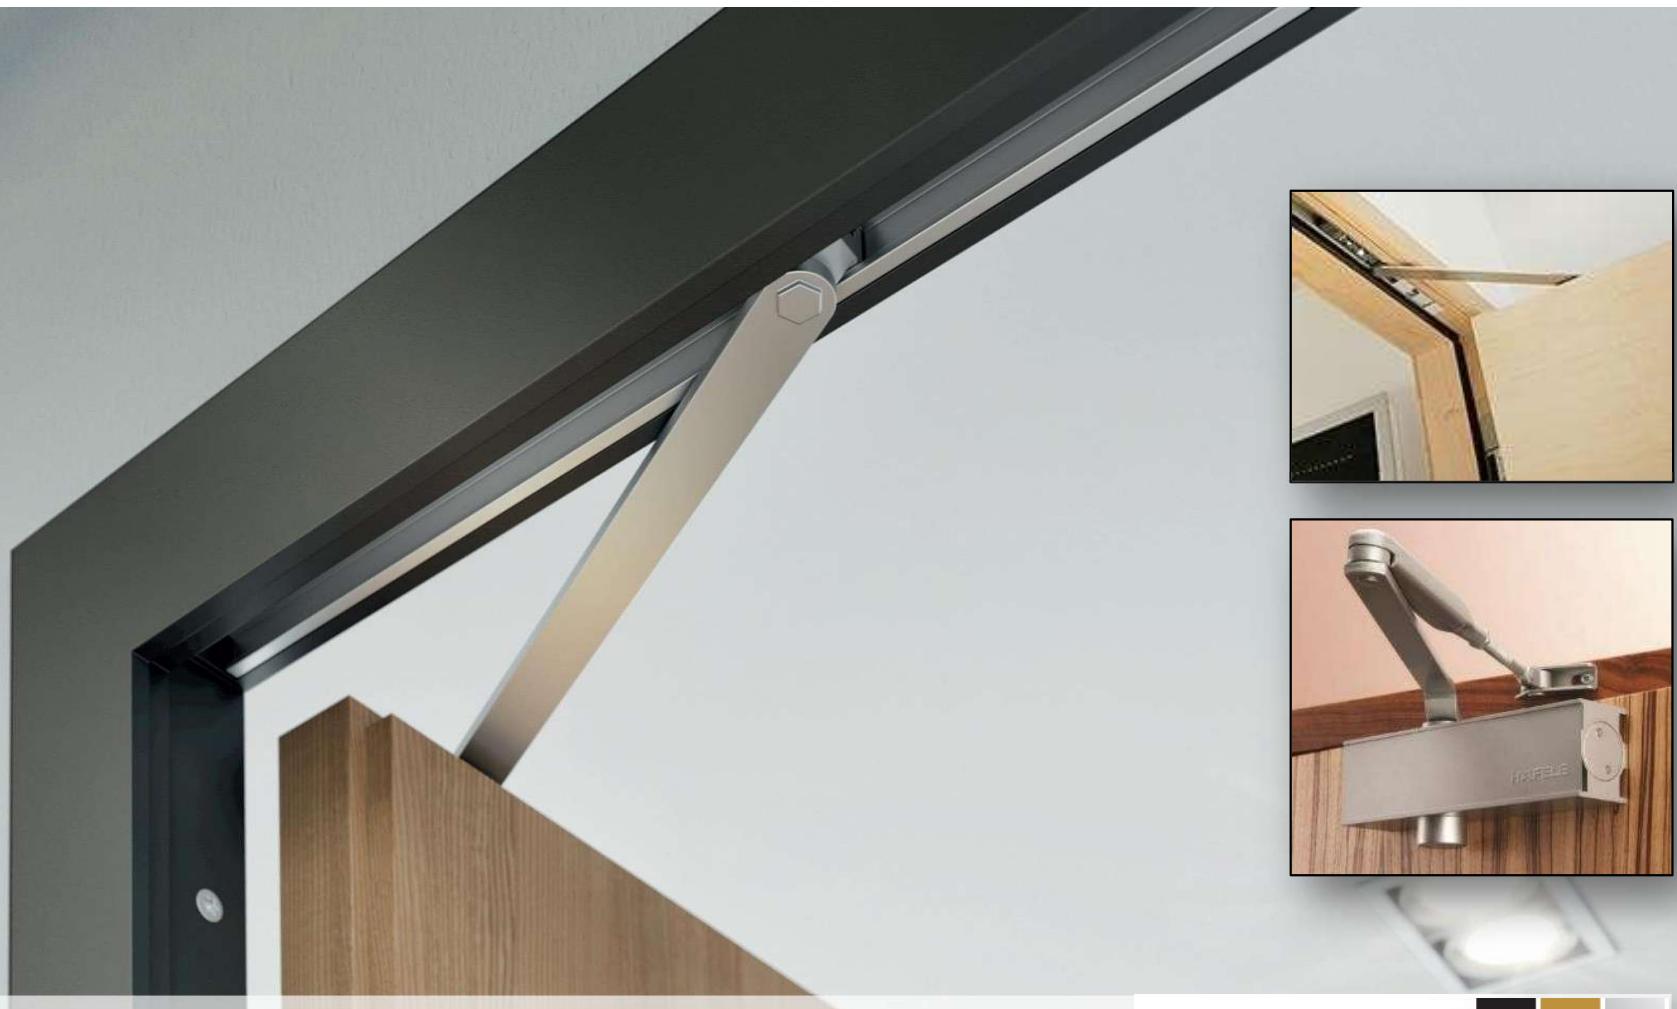

A comprehensive locking system to safeguard or limit the access to particular areas of the hotel premises

## DESIGNER LEVER HANDLES

Your hotel requires the most exclusive solutions; for a personal and unique experience to your guests, Hafele offers you the most extensive and exclusive designer handles.

## DOOR CLOSERS

AVAILABLE FINISHES

Door control devices offer unhindered appearance to the door and provide self- closing doors in restricted spaces, in addition to maintaining the door's sound insulation properties

# DOOR FITTINGS

Door fittings that provide true functionality to any door application
