

Sandy
Benkimoun
BIO

Sandy Benkimoun (b.1987, France) is a Sydney-based multi-media artist. Her figurative and abstract work draws from Nature's capacity to thrive on a symbiosis of dualities. It explores her Identity, our Origin, and the role of Chaos in Change. She's been selected for Sydney's Artroom gallery's current group exhibition, as well as the No.35 London gallery's international online summer exhibition for her latest sculpture of repurposed materials. Only recently grasping the organic path her life was taking, the emerging artist has joined 5 exhibitions, including the 34th "Art of Sydney", and 4 digital exhibitions since Sep. 2025. During a short break from her former career, she ended up a twice-finalist in the 2022 EQUUS quantum competition.
