

QHSE POLICY

At NESA Energy LLC, we are committed to conducting our operations in a manner that protects the health and safety of our employees, minimizing our environmental impact whilst providing quality to our clients. QHSE policy is integral to our Quality Management System and compliance with API Specification Q1 and alignment to ISO 9001 and ISO 14001.

Health and Safety First

We prioritize the prevention of injury and ill health by providing a safe and healthy workplace. We foster a safety culture where all employees are empowered and responsible for safety performance.

Environmental Protection

We are committed to minimizing our environmental impact by preventing pollution and conserving resources. We achieve this by integrating environmental considerations into all phases of project planning and operations in alignment to ISO 14001.

Quality through Compliance

We are committed to delivering quality products and services to our clients. We achieve this by continual improvement and compliance to relevant regulatory, industry and client requirements ensuring API Q1 compliance and alignment to ISO 9001. We welcome review of our QHSE performance through regular auditing and inspection to ensure continuous improvement.

Competence and Awareness

We ensure all employees are trained, competent and aware of their HSE responsibilities. We promote a culture of continual learning, communication, and participation across all levels of the organization.

Risk Management and Continual Improvement

We adopt a proactive, risk-based approach to managing QHSE risks and opportunities. We identify hazards, assess risk and implement effective controls to reduce design and operational risk.

Stakeholder Engagement

We engage openly with our stakeholders, including employees, clients, regulators, and local communities, to build trust and promote transparency in our HSE performance.

Leadership and Responsibility

By endorsing this policy, Top Management demonstrates QHSE leadership, commitment and responsibility. Periodic review through management review will ensure policy relevance, effectiveness and continual QHSE improvement.
