Professional Summary

UI/UX Designer with a strong foundation in user-centered design principles and hands-on experience building digital products. Transitioning from 4 years in sales and management, bringing proven skills in user research, empathy-driven problem-solving, and cross-functional collaboration. Skilled at translating customer pain points into actionable design solutions through wireframing, prototyping, and usability testing. Seeking to leverage a unique blend of business acumen and design thinking to create intuitive, user-focused experiences.

UI/UX Projects

Pinkdolls Aesthetic — Website Redesign (Web)

2025

- Redesigned the website to improve clarity, usability, and visual consistency for an aesthetic services brand
- Reorganized and improved the categorization of services, making it easier for users to understand and compare offerings
- Identified friction points in the booking flow and redesigned the user journey to reduce steps and improve ease of scheduling
- Created wireframes and high-fidelity UI designs in Figma, focusing on a clean, modern aesthetic aligned with the brand
- Iterated on designs based on usability considerations and best practices

EFP — Engineered for Performance (Mobile App)

2025

- Designed a mobile e-commerce app for a gym clothing brand with a focus on performance-driven users
- Created user flows for browsing products, viewing details, and completing purchases efficiently
- Developed wireframes and high-fidelity UI designs in Figma, emphasizing clarity, consistency, and usability
- Applied visual hierarchy, typography, and spacing to support a strong, athletic brand identity
- Designed interactive prototypes to validate user flows and overall experience
