FOUNDER BINOD BHAGAT

About Us

Founded in 2018 with the motive of ensuring safety and security. We have served more than 20,000 clients

We manufacture invisible grills, pleated mosquito nets, and zip screens to cover all your needs.

The key to our success lies in our customer oriented and dedicated approach.

Mission

At Jivdani Invisible Grill, our mission is to provide innovative, high-quality invisible grill solutions that ensure safety without compromising aesthetics. We are committed to protecting homes and commercial spaces with durable, reliable, and discreet security systems, while delivering excellent service and complete customer satisfaction

Vision

Our vision is to become a trusted and leading name in invisible safety solutions by setting standards in quality, design, and customer care. We aim to create safer living and working environments where protection blends seamlessly with modern architecture.

Values

At Jivdani Invisible Grill, we believe in safety first, always prioritizing the well-being of our clients. We are dedicated to quality craftsmanship, using strong and dependable materials for long-lasting protection. Customer commitment is at the heart of everything we do, ensuring trust, transparency, and timely service. We value innovation by continuously improving our products to meet modern needs, and we uphold integrity by delivering honest and reliable solutions every time.

INVISIBLE GRILLS

Unleash fresh air with uninterrupted balcony views.
Jivdani invisible grills safeguard homes through
invisible protection and visible measures.

Materials Used

- 316 Marine-Grade Stainless Steel- enhances strength, exemplifies elegance
- SS316 Nylon Coated Cable- adds sturdiness and reliability
- 6063 Grade Aluminium Channel- prevents corrosion
- SS304 Grade Fixing Anchors and Screws- provides extra stability
- SS316 Cross Clip-provides durability

Channels

Material

Aluminum Alloy: Lightweight and corrosion-resistant, often anodized or powder-coated for additional protection and aesthetics.

Stainless Steel: Provides extra strength and durability, commonly used in high-stress installations.

Grill Mosquito Net Channels Color

- Heavy Weight Aluminium Alloy.
- Stainless steel bolt with Nylon Washer
- Bolt Space : 50 MM, 75 MM, 100MM
- Wall Thickness : 1.5MM, 2MM.

Wire Comparison :

Wire Thickness

Jivdani Invisible Grills:

Wire Diameter: [0.5 mm and 1.5mm]
Characteristics: High tensile strength, designed to blend seamlessly with the environment while offering robust safety features.

Competitors :

Wire Diameter: [1.2 mm, 2.2]
Characteristics: Generally thinner, which may affect strength and durability.

Wire Material

Jivdani Invisible Grills:

Material: Stainless Steel (304 or 316 grade) Benefits: Excellent corrosion resistance, high durability, and long-lasting performance.
Competitors:

Competitors :

Material: Varies (mild steel, lower grade stainless steel) Benefits: Potentially less resistant to rust and corrosion, which can impact longevity.

Wire Design

Jivdani Invisible Grills:

Design: Multi-strand wire configuration for added strength and flexibility.
Aesthetics: Designed to be minimalistic and unobtrusive, maintaining visual clarity.

Competitors :

Design: Single-strand or less refined configurations.
Aesthetics: Can be more noticeable and less integrated into the design of the building.

Durability & Strength

Jivdani Invisible Grills:

Durability: High impact resistance & tensile strength due to superior material and design. **Warranty:** Longer warranty period reflecting confidence in product longevity.

Competitors :

Durability: May have lower impact resistance and tensile strength. **Warranty:** Often shorter, indicating potential concerns about long-term performance.

Maintenance & Cleaning

Jivdani Invisible Grills:

Maintenance: Low maintenance required due to high-quality stainless steel that resists rust and staining. **Cleaning:** Easy to clean with minimal effort.

Competitors :

Maintenance: Higher maintenance might be required if using lower-grade materials. **Cleaning:** May require more frequent cleaning and care.

Wire Type :

Invisible grill wires are thin, high-tensile stainless steel cables used for safety and security purposes, typically installed on windows, balconies, and other open areas. They are designed to provide an unobtrusive barrier that maintains the aesthetic appeal of a space while ensuring safety. The wires are often coated with a protective layer to resist corrosion and enhance durability, making them suitable for various environmental conditions. Their transparency allows for unobstructed views, ample ventilation, and natural light, making them a popular choice for modern architectural designs.

Color : Black & Natural

Black

Natural

Wire Design

SS304 (AISI 304)

Composition: Contains 18–20% Chromium and 8–10.5% Nickel.

Properties: Good corrosion resistance, more affordable, widely used in indoor applications.

SS316 (AISI 316)

Composition: Contains 16–18% Chromium, 10–14% Nickel, & 2–3% Molybdenum.

Properties: Superior corrosion resistance (especially against chlorides & industrial solvents), ideal for outdoor & harsh environments.

Wire Diameters

0.5 mm Diameter

Strength: Offers a balance between visibility and strength. Suitable for applications where a less obstructive view is desired while maintaining safety.

1.5 mm Diameter

Strength: Stronger than 2 mm wires, providing enhanced safety. It is still relatively unobtrusive but offers more security against potential impacts or attempts to breach.

Functionality

Unobstructed view and airflow made with thin and nearly transparent bars, Devaaj invisible grills allow the flow of air while letting you enjoy a clear view of surroundings.

Easy maintenance being easy to clean and resistant to corrosion, invisible grills require minimal maintenance.

Safety and security the sturdy construction provides an extra layer of security by acting as a barrier to prevent falls

Aesthetic design the sleek and modern design of invisible grills can fit any living space, making it visually appealing
