

A large offshore oil and gas platform is shown against a clear blue sky and the ocean. The platform features a complex network of yellow structural beams, pipes, and stairs. Several tall, white cylindrical storage tanks are visible on the upper decks. A crane is positioned on the right side of the platform. In the background, a red and white lattice tower stands out. Overlaid on the right side of the image is a semi-transparent grid with various data points and lines, suggesting a digital or engineering context. The text 'TUCO INTEGRATED SERVICES' is prominently displayed in the lower center in a large, bold, white font.

TUCO INTEGRATED SERVICES

Advanced Engineering, Procurement, and Energy Solutions.
Delivering Excellence in Oil & Gas and the LPG Value Chain.

www.tucogroup.com

GUIDED BY SEASONED PROFESSIONALS

Femi Johnson (CEO) &
Adumike Emmanuel (COO)

"We look for more efficient and safer ways to solve problems associated with oil and gas."

VISION:

To be a leading world-class company in Africa's oil & gas sector through innovation.

MISSION:

Providing safe, reliable, and timely services that compete globally.

CORE VALUES:

Integrity, Accountability, Continuous Improvement, Innovation, Quality, Teamwork.

OUR MANAGEMENT TEAM

“We know how important it is to deliver reliable, affordable energy while also prioritizing environmental, social, and governance excellence.”

INTEGRITY | INNOVATION
ACCOUNTABILITY | TEAMWORK

Femi Johnson

Founder / CEO

Femi Johnson is a seasoned professional with over 15 years post-graduate experience in the oil & gas and construction sectors. He possesses strong expertise in project development, strategic leadership, and operational management. As a member of recognized professional bodies, he is committed to industry best practices, sustainable growth, and delivering high-value infrastructure solutions.

**Alao Julius
Olaosebikan**

Co-Founder / COO

Alao Julius Olaosebikan is an accomplished industry professional with over 15 years post-graduate experience spanning oil & gas and construction operations. He specializes in project execution, technical coordination, and business strategy. A member of reputable professional bodies, he upholds high standards of quality, safety, innovation, and corporate excellence.

Engr Yusuf Michael

Business Development Manager

A results-driven Business Development Manager with over 15 years post-graduate experience in strategic growth, client acquisition, and market expansion. Skilled in building partnerships, negotiating high-value contracts, and driving revenue performance. A member of relevant professional business and marketing bodies, demonstrating commitment to ethical practice, continuous learning, and industry leadership.

Eng Moses Orangun

QAQC Manager

A highly skilled QA/QC Manager with over 10 years post-graduate experience in quality assurance systems, compliance monitoring, and process improvement. Proficient in implementing international quality standards and ensuring operational excellence. A member of professional quality management bodies, dedicated to maintaining safety, efficiency, and continuous improvement.

Mr, Olu -Ojo Caleb
Financial Controller

An experienced Financial Controller with more than 10 years post-graduate expertise in financial management, reporting, budgeting, and compliance. Proven ability to strengthen internal controls and optimize financial performance. A member of recognized professional accounting bodies, upholding high standards of integrity, regulatory compliance, and strategic financial governance

Engr Alex Oke
Director of Projects

A seasoned Project Director with more than 10 years post-graduate experience leading complex, large-scale projects across multiple sectors. Expert in strategic planning, stakeholder coordination, and resource management. A member of recognized project management professional bodies, committed to delivering projects on time, within budget, and to international quality standards.

TRUSTED BY INDUSTRY LEADERS: SPDC (SHELL)

PROJECT FILE

PROJECT SHOWCASE

1. **TUNU FLOWSTATION:** Train 3 Plant Construction.
2. **YOKRI GAS PLANT:** Pre-commissioning mechanical maintenance.
3. **SOUTH BANK GAS PLANT:** Integrity assessments and upgrades.

KEY ACHIEVEMENT:

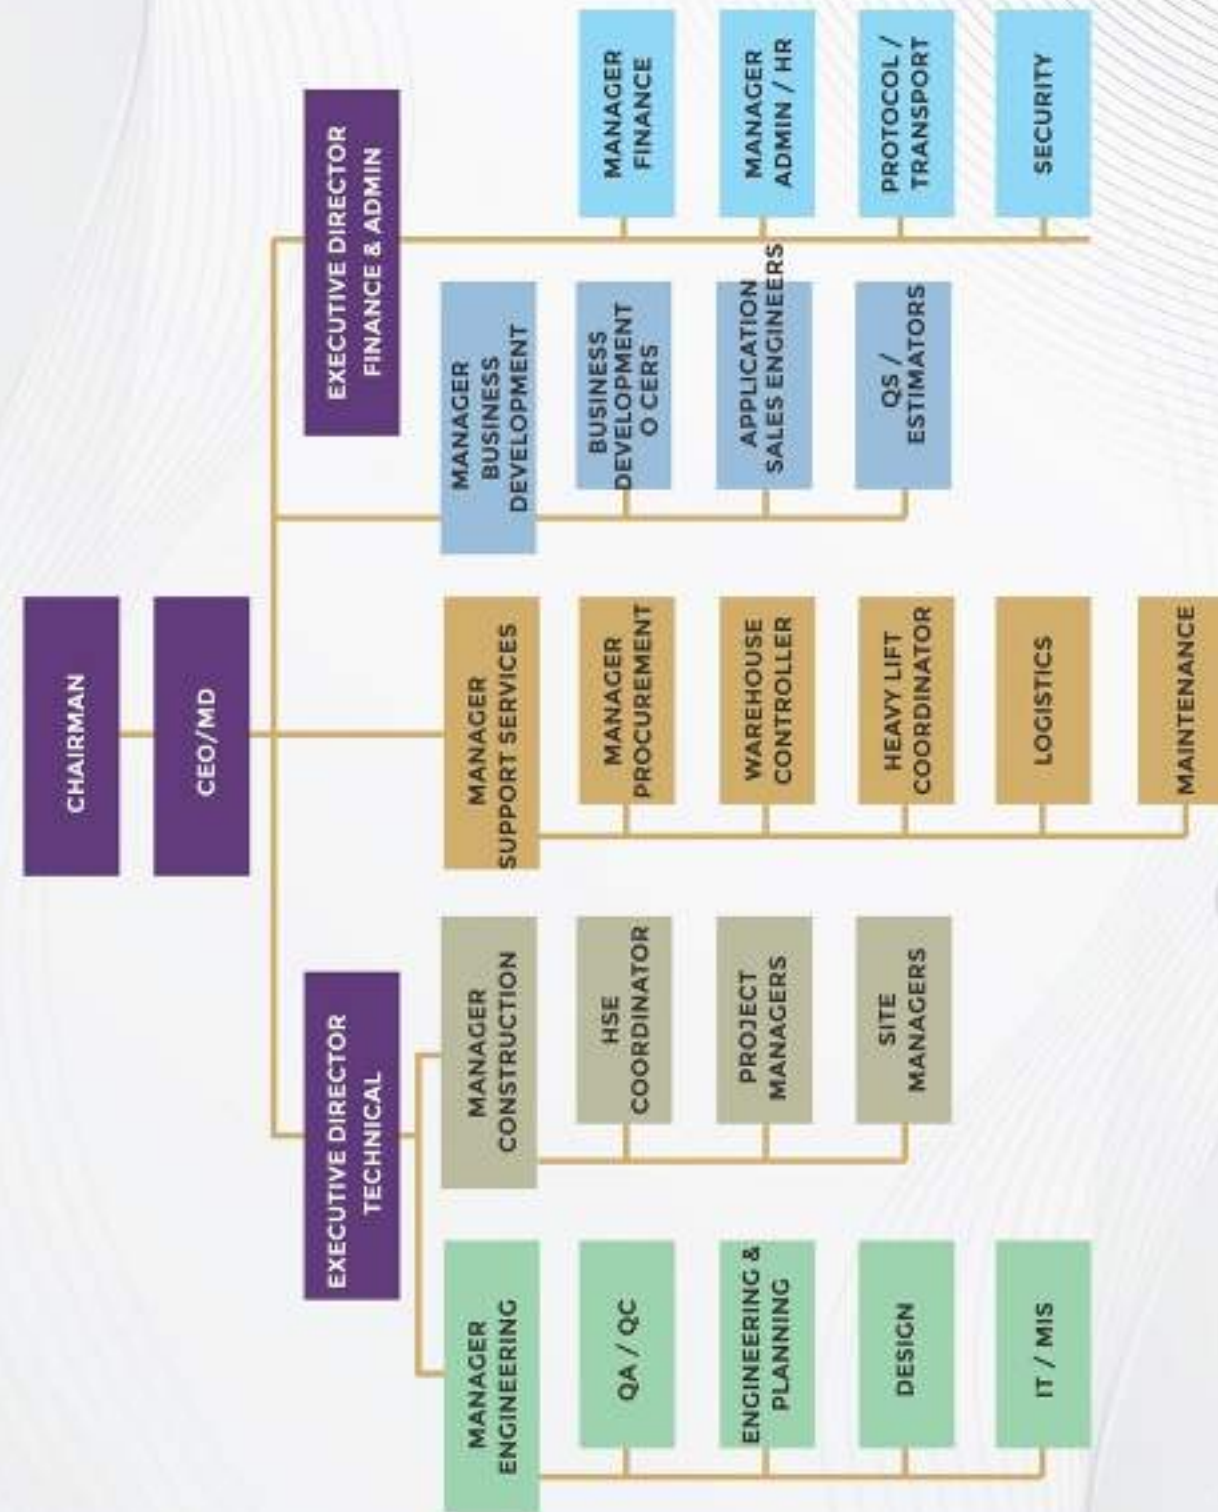

Achieved 90% recovery rate on flange refacing; successful hot bolting and tensioning.

STATUS: Completed Satisfactorily & Ongoing Milestones.

BUILT FOR EXECUTION

A diverse group of professionals working together to protect professional integrity and deliver on time.

Our Services

Engage With Our Company

At TUCO, we are largely involved in rendering top quality services in Design, Procurement, Construction and commissioning with maintenance and testing.

Mechanical Fabrications and Installation

TUCO in collaboration with OEM has the capacity for Installation, Commissioning, repair and maintenance of Skidded equipment, Vessels, Water Treatment plant and rotating equipment.

- Mechanical Fabrication
- Pipe Laying and pipe interconnecting hook-up
- Skidded equipment installation
- Sectional replacement
- Leak repair
- Maintenance on facility equipment component
- Integrity test of various types

CORE COMPETENCIES:

- **Mechanical Fabrication:** Pipe laying, interconnecting hook-up, skidded equipment installation.
- **Facility Upgrade:** Sectional replacement, leak repair.

PILLAR 2: LPG INFRASTRUCTURE & LOGISTICS

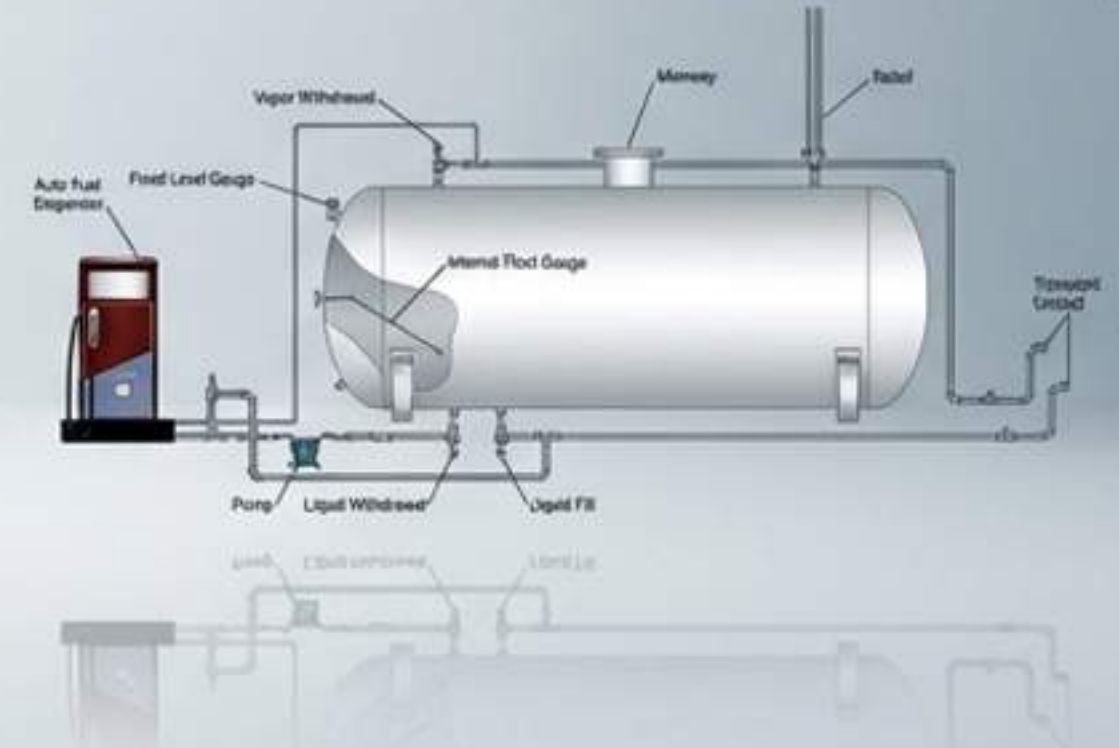

FABRICATION

LPG Dispensing Skids
(Surface & Underground)

STORAGE

Propane/Propylene Tanks
& Tank Trailers

TECHNICAL SERVICES

Calibration, Certification,
and Safety Monitoring

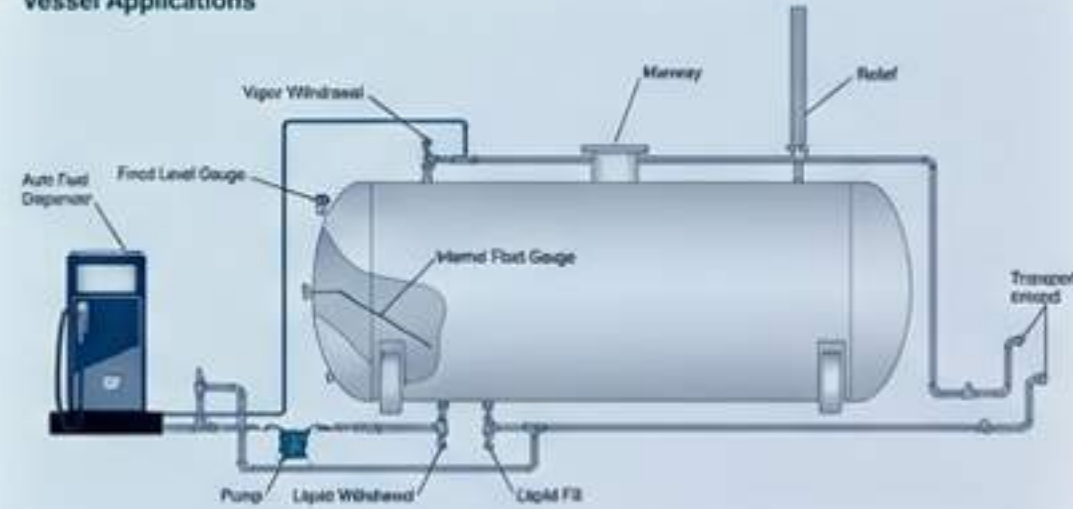

SUPPLY

Plant Accessories
(Pumps, compressors, valves)

The LPG Value Chain

Autoges LPG
Vessel Applications

Capabilities:

- Fabrication: Surface and underground LPG skids (10M3 to 50M3+).
- Supply: Pumps, dispensers, and plant accessories.
- Safety: Calibration, certification, and safety monitoring of LPG facilities.

Market Position: A formidable player in the LPG expansion across Nigeria.

PILLAR 3: ASSET INTEGRITY & MAINTENANCE

Extending the Lifecycle of Critical Infrastructure

TECH SPEC:
In-situ field machining
achieved 90% recovery
rate without hazardous
cutting.

KEY CAPABILITIES:

VALVE MAINTENANCE:
ESDVs, PCVs, and SDs
overhauling.

CORROSION CONTROL:
Grit blasting, wet blasting,
industrial painting, cathodic
inspection.

INSTRUMENTATION:
Calibration, HV/LV
installation, control system
installation.

The Services Ecosystem

A fully incorporated, multi-faceted ecosystem delivering solutions across the energy value chain.

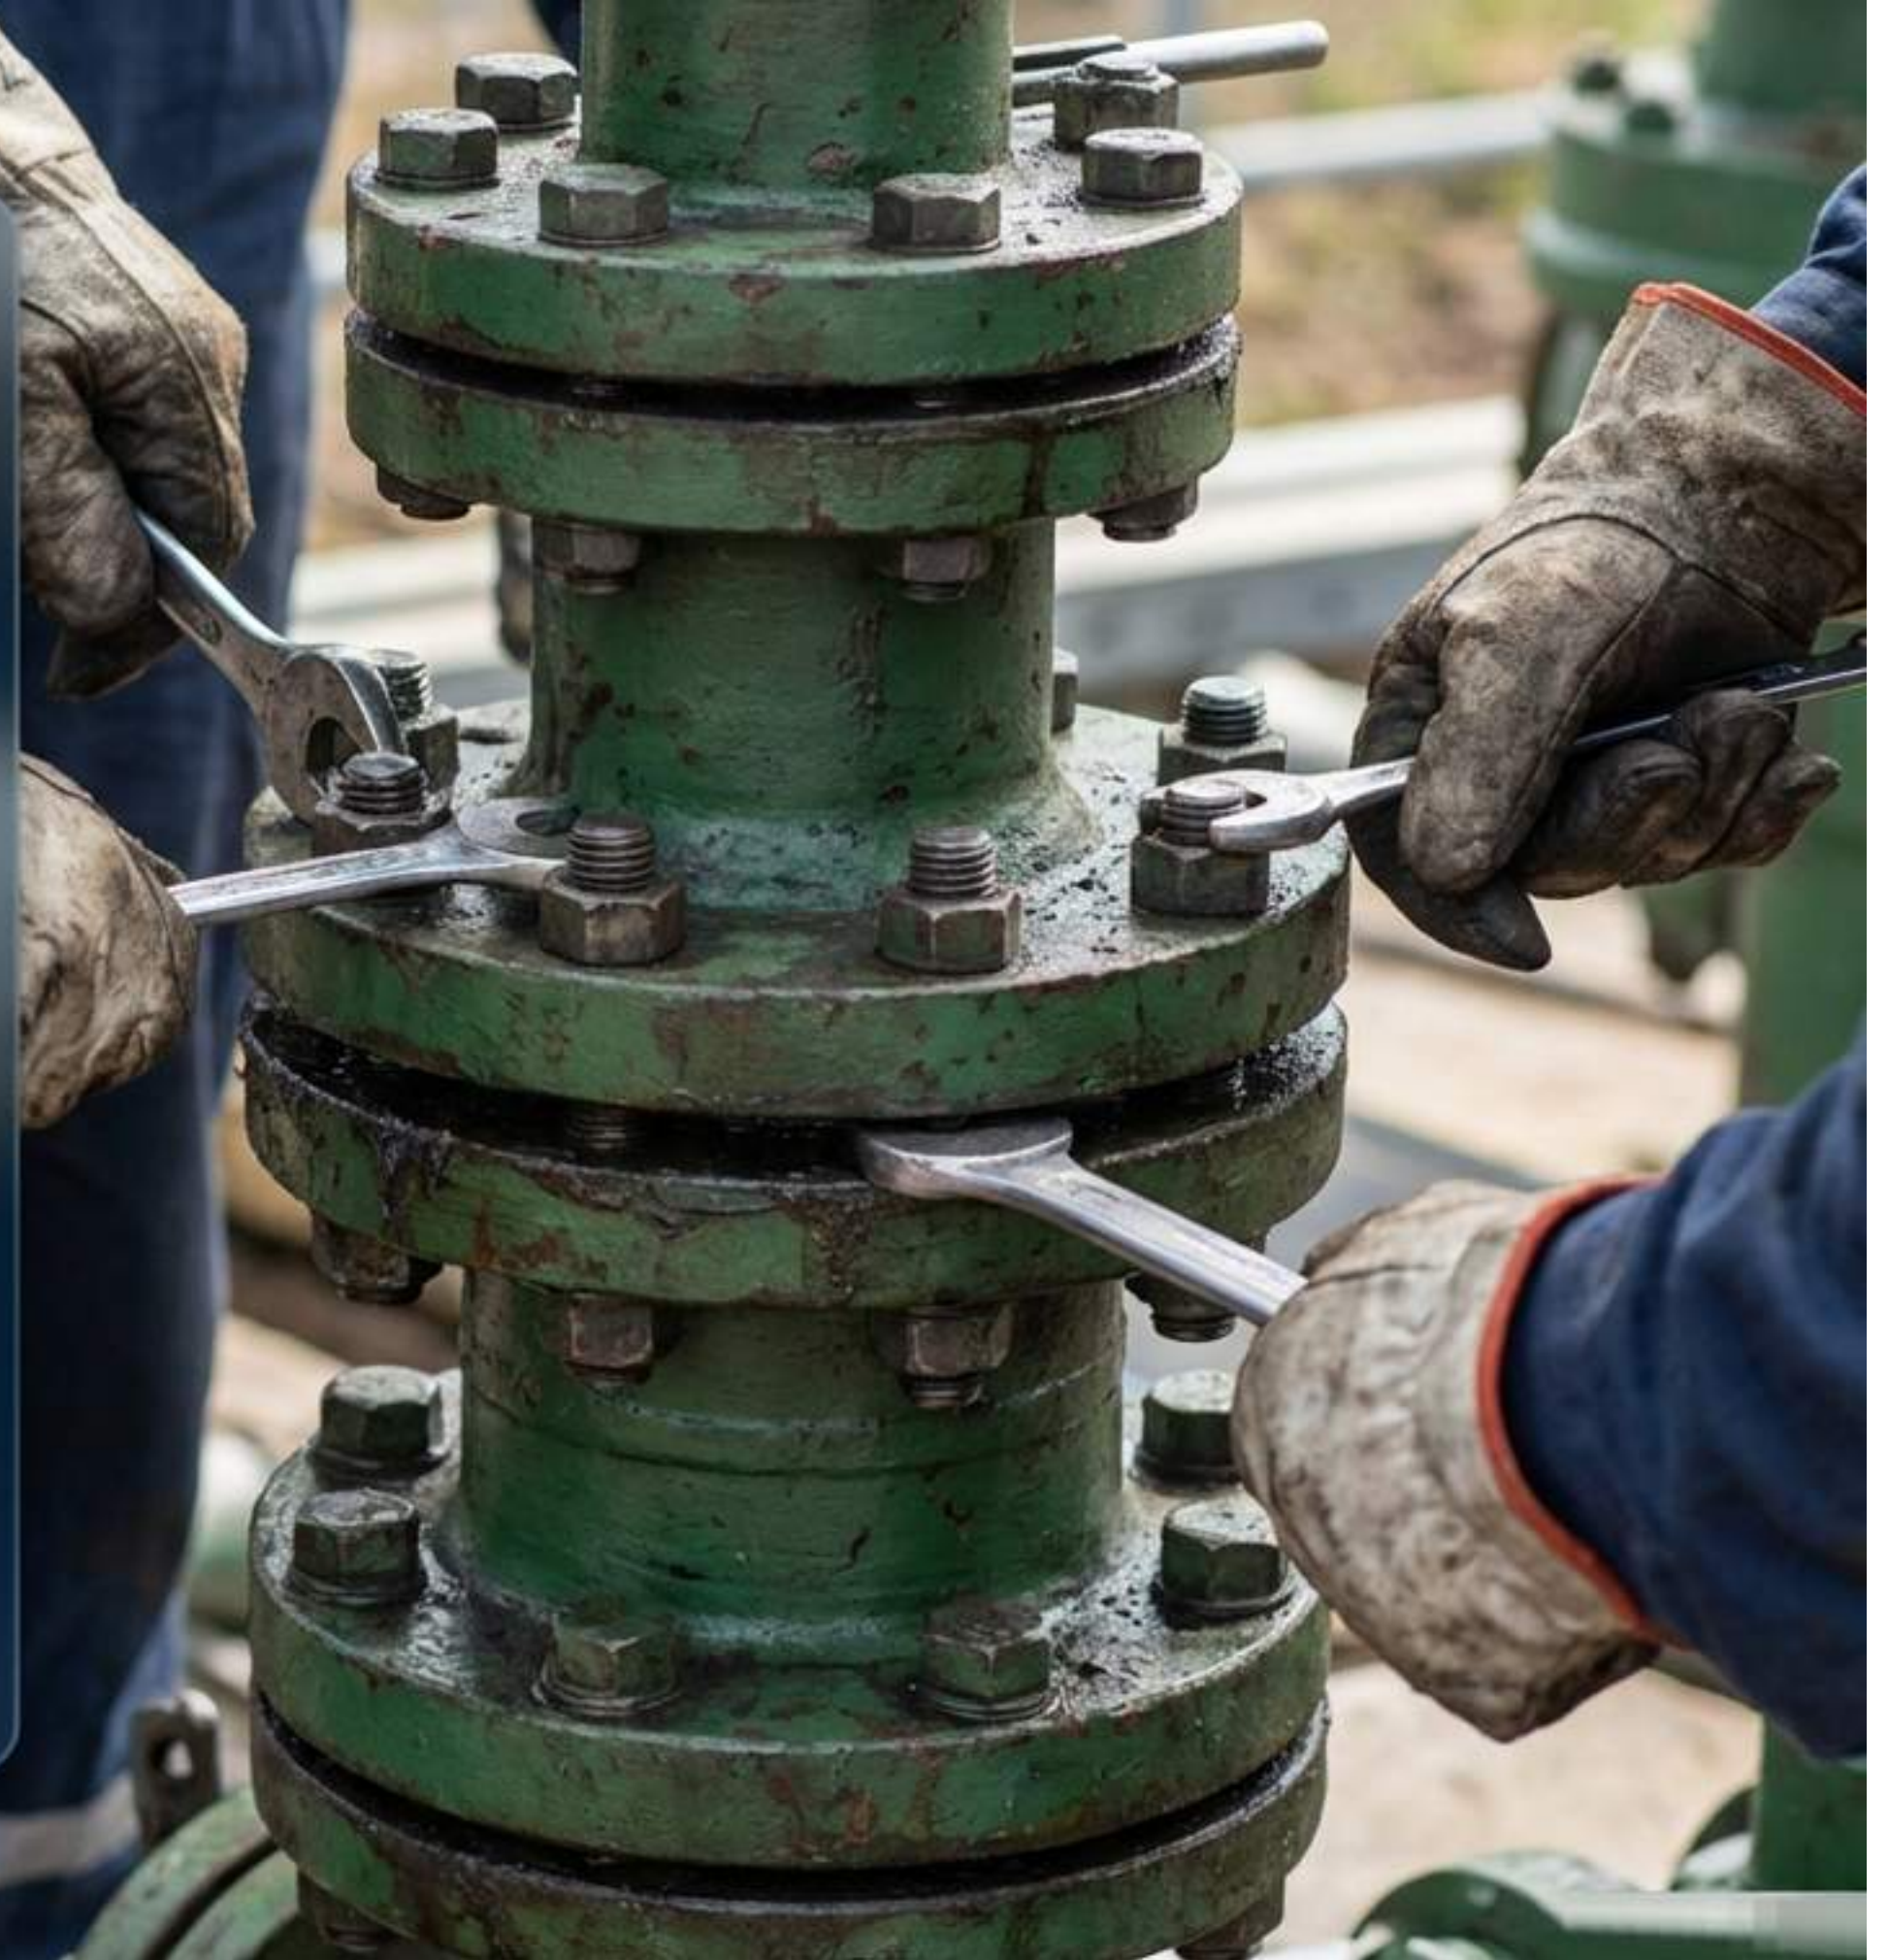

Maintenance & Asset Integrity

Focus: Extending the lifecycle of Oil & Gas assets.

Services:

- Valve Maintenance: Overhauling and recertification of ESDVs, PCVs, and SDs.
- Corrosion Control: Grit/Wet blasting, industrial painting, and cathodic inspection.
- Integrity Testing: Hydrostatic and pneumatic tests of tanks and gas lines.

90% recovery rate on flange refacing without hazardous cutting.

PROJECT PROFILE: NAVGAS & UPGRADES

FEATURED PROJECT: NAVGAS APAPA TANK FARM

- Scope: Online valve servicing, retrofitting, ESDV overhauling, and pressure testing.
- Outcome: Completed Successfully.

ADDITIONAL PROJECT: RUMUEKPE ENVIRONMENTAL UPGRADE (SPDC)

- Scope: Automation of drainlines and closed drains.

Engineering, Procurement & Construction (EPC)

Mechanical & Civil Capabilities

- ✓ **Mechanical Fabrication:** Pipe laying, interconnecting hook-up, and sectional replacement.
- ✓ **Civil Works & Dredging:** Land reclamation, excavation, shoreline protection, and documentation management.
- ✓ **Electrical & Instrumentation:** HV/LV installation, transformer installation, and control system calibration.

OEM Collaboration: We partner with OEMs for installation, commissioning, and repair of rotating equipment and water treatment plants.

Bridging Upstream Engineering & Downstream Distribution

The TUCO Edge

End-to-End Control: A multi-faceted EPC and Logistics company managing the lifecycle from extraction engineering to product haulage.

Indigenous Compliance: 100% Indigenous compliance paired with world-class OEM partnerships.

Market Reach: Authorized distributor for Dangote Refinery products, securing the supply chain for PMS, AGO, and Aviation Fuel.

20+
Years of Industry
Experience

Downstream Trading & Logistics

Authorized Dangote Refinery Distributor

Product Portfolio

- PMS (Petrol)
- AGO (Diesel)
- Aviation Fuel
- Base Oil
- Polypropylene

Logistics Support

- Land Transport: Fleet management for nationwide distribution.
- Marine Support: Vessel supply and offloading.
- Material Sourcing: Effective document and deliverables management.

INTEGRATED LOGISTICS & SUPPORT

STRATEGY: Dedicated resources for seamless project delivery.

✓ Land & Marine

Quality
Delivery

Our prime objective is sustained client satisfaction through a rigorous Quality Management System (QMS). We prioritize safer, more efficient ways to solve problems in a cost-effective, environmentally friendly approach.

UNCOMPROMISING SAFETY & QUALITY ASSURANCE

**ZERO INJURIES.
ZERO PROPERTY DAMAGE.
ZERO ENVIRONMENTAL HARM.**

Our Quality Management System (QMS) is aimed at total Customer Satisfaction. We adhere to strict compliance standards where safety is the foundation of every operation.

Featured Projects: NAVGAS Apapa Tank Farm

Project Scope:

Facility Upgrade & Valve Retrofitting.

Key Activities:

- Online valve servicing and replacement.
- Procurement of OEM spares.
- Overhauling of ESDVs and pressure testing.
- Replacement of corroded bolts and joint integrity assessment.

Outcome:

Completed Successfully.

Featured Projects: Shell (SPDC)

Yokri Gas Plant (2018–Present)

Scope: Pre-commissioning mechanical maintenance.

Achievement: Pipe joint integrity assessment and in-situ field machining.

Tunu Flowstation (2002–2005)

Scope: Construction of Train 3 Plant.

Status: Completed Successfully.

South Bank Gas Plant

Scope: Integrity assessment of manual and actuated valves.

Detail: Classes 150# - 1500#.

LPG Storage Tank

LPG Tank Trailer

LPG Skid Station

Our Projects

Our steady rise in reputation has seen us enjoy a lot of referrals and recommendations from partner companies we've worked with in various projects.

Through the years, TUCO has had the opportunity to be involved with quite a number of projects, both large and small.

S/NO	DATE	PROJECT TITLE/BRIEF DESCRIPTION	LOCATION	LEAD CONTRACTOR	CLIENT	PROJECT STATUS	REFERENCES
1.	2002 - 2005	Construction of Train 3 Plant for SPDC in Tunu	Tunu Flowstation	Natony LTD	SPDC	Completed Satisfactorily	Engr. lyke Ezeaku
2.	2010	Rumuekpe Environmental Upgrade	Rumuekpe automation of All drainlines and closed drain	Natony LTD	SPDC	Completed Satisfactorily	Engr. lyke Ezeaku
3.	July - Oct 2018	NAVGAS TANK FARM APAPA LAGOS	NAVGAS APAPA TANK FARM Online Valve Servicing, Replacement of Valves, Retrofitting, testing and other required facilities upgrade activities. - OEM Spares procurement and replacement - ESDV's, PCV's, SD's Overhauling, function testing, re-certification (On-site works) - Removal and replacement of defaced/ severely corroded bolts/ joints integrity assessment and upgrades. - Onsite pressure testing and re-certification	OMCLTD	NAVGAS TANK FARM APAPA	Completed Successfully	CCEL CEO Mr. Samson Lawal. 08036596584
