

Accounting and Tax Compliance :

It is essential for all companies to maintain accurate accounting and tax records in order to comply with local and international regulatory requirements.

We provide a comprehensive range of accounting services, from the preparation and management of statutory accounts to customised invoicing solutions.

Our partnership's multi-jurisdictional accounting teams also deliver full bookkeeping services, financial monitoring, and the submission of statutory filings to the relevant authorities—such as company registries and tax authorities—anywhere in the world.

Jadranka Angelova provides financial peace of mind, allowing clients to focus clearly on the operation and growth of their business, wherever they operate.

Bookkeeping

It is critical for company directors to maintain accurate accounting records, including the annual preparation of financial statements in accordance with international standards.

In some jurisdictions, accounts must also be filed with national company registries or tax authorities, adding further complexity for multinational businesses.

Our experienced accounting team offers a complete service solution, including:

- Full preparation of statutory accounts ;
- Comprehensive accounts management ;
- Bank account maintenance ;
- Management of payments and receivables ;
- VAT (IVA) services ;

- Calculation and submission of corporate and other taxes ;
- Liaison with third parties and specialist representation ;
- Offshore invoicing services .

Jadranka Angelova delivers peace of mind and enables clients to focus fully on managing their business, anywhere in the world.

Our clients recognise the importance of financial compliance. Current international standards require directors to maintain accurate, complete, and up-to-date financial records on a timely basis.

Our multi-jurisdictional accounting teams ensure full bookkeeping services, financial monitoring, and the submission of statutory obligations to the appropriate company registries and tax authorities in any jurisdiction. The level of involvement is defined by the client—from basic support to fully integrated solutions—using advanced technologies and the highest quality standards.

Jadranka Angelova manages your company's financial obligations so that you can focus on growing your business.

Accounting and Reporting

We provide a comprehensive range of accounting and reporting services, including:

- Tax filings ;
- Tax calculation and assessment ;
- Collaborative and digital accounting ;
- Online accounting reporting ;
- Cost centre accounting ;
- Management and analytical accounting ;
- On-site accounting services at the client's premises .

Our Accounting Services Include:

- Ongoing accounting management ;
- Specialist accounting support for year-end closing ;
- Efficient VAT accounting ;
- Corporate Income Tax returns ;
- Simplified Personal Income Tax returns ;
- Corporate secretarial services .

Accounting services play a vital role in managing an organisation's financial records. All businesses, including small enterprises, aim to monitor profits and losses effectively. To achieve this, the support of a reliable accounting firm is essential—one that can contribute to the sustainable growth of the business.

We offer a full suite of accounting-related services, from bookkeeping to comprehensive accounting solutions, including VAT services, budgeting, forecasting, and corporate secretarial support, enhancing the accounting capabilities of businesses of all sizes.

Bookkeeping :

Bookkeeping services include balancing estimated financial records to meet the accounting needs of small businesses or individuals, verifying financial transactions, and collecting bank statements. Account management is our priority.

Our accounting and bookkeeping services take care of your financial records and support informed decision-making for the growth of your business.

VAT Compliance

Compliance with rules and regulations is essential when establishing and operating a company. VAT compliance involves adhering to all rules and regulations related to Value Added Tax.

You can rely on our firm for online VAT services, or we can conduct a VAT audit of your business to provide additional support. We ensure that all companies meet their legal obligations relating to VAT.

Budgeting and Forecasting :

Budgeting and forecasting are critical tools for business management. Budgeting involves managing financial resources over a defined period, while forecasting estimates future financial outcomes based on historical data.

These processes support strategic planning, help define future goals, and enable businesses to develop effective strategies for sustainable growth.
