

Tax Consulting

What We Do

Personalised Tax Advisory Services

We provide tailored tax consulting services, including:

- Preparation and/or review of tax returns ;
- Consolidation of accounts ;
- Identification and application of tax incentives and benefits ;
- VAT recovery claims on irrecoverable debts (PAP) ;
- Assessment of the tax impact of company liquidation and dissolution ;
- Design and analysis of flexible employee benefits plans, tailored to each business ;
- Audits of specific tax and financial areas ;
- Calculation and tax impact analysis of capital gains and losses on movable and immovable assets ;
- Support and tax structuring for the commencement of business activities ;
- Registration of the Ultimate Beneficial Owner (RCBE) ;
- Preparation of personal income tax (IRS) returns ;
- Personal income tax advisory services ;
- Guidance on the Portuguese personal income tax system (IRS) ;
- Non-Habitual Resident (NHR) regime – ongoing support ;
- Tax structuring and support for local accommodation (short-term rental) activities ;
- Registration of lease agreements on the Tax Authority portal ;
- Taxation of foreign-source income for Portuguese tax residents ;
- Obtaining Tax Residence Certificates ;
- Applications for joint taxation for the purposes of the Additional Municipal Property Tax (AIMI) .

How We Do It :

- Information management based on knowledge platforms, drawing on multiple realities and professional experiences ;
- A highly personalised, high-quality service built on our know-how in the auditing and consulting sectors ;
- Continuous monitoring of changes in tax legislation to ensure up-to-date and compliant advice .

VAT (Value Added Tax)

Thinking beyond borders is essential to navigate today's increasingly complex VAT environment.

Our clients benefit from the use of low-tax business structures while fully complying with all requirements imposed by the complex European Union VAT legislation at every stage.

We design and manage tax-efficient structures for EU trading operators across a wide range of industries.

Our services make use of the latest reporting technologies, significantly reducing administrative burdens and ensuring full compliance with international regulatory standards.
