

cradi charles river accelerator
& development lab

Building infrastructure is often expensive, time-consuming, and may not be the right approach when looking to conduct early discovery work. The Charles River Accelerator and Development Lab (CRADL™) is an AAALAC accredited, full-service turnkey vivarium rental space for emerging or well-established biotech and pharmaceutical companies, as well as academic institutions looking to expand vivarium space without a cost-prohibitive build.

Turnkey

Everything needed to conduct early-discovery research is under one roof.

Flexible

Multiple options allow for a customized solution that fits your research needs.

Comprehensive

Access to our portfolio allows you to expand the limits of your research.

Collaborative

By working with us, you can seamlessly progress through the drug discovery and development continuum.

Turnkey.

CRADL™ combines modern vivarium space with industry-leading expertise in animal husbandry and vivarium management to ensure you have what you need to achieve your research milestones on time and on budget. Clients immediately gain access to supplemental equipment and technical services, and our expert staff are on hand to customize a program to your specific requirements.

IACUC Support

Charles River's Humane Care Imperative is overseen by our Animal Welfare and Training group. They ensure that our facilities comply with stringent standards of practice and accepted guidance for the care and use of laboratory animals.

Veterinary Support

Continuous oversight to ensure the health and welfare of all animals at CRADL™.

Technical Services

Experienced staff are available to provide additional study support functions such as dosing, sampling and measurements, study preparation, and more.

Equipment Rental

Standard research equipment is available for use, depending on client requirements.

Procurement Services

Approved vendor-sourced animals and research supply ordering.

Expert staff are available to extend your research capabilities.

cradl

Flexible.

From small or start-up companies that realize the value in focusing on their research and partnering with an industry expert to manage day-to-day vivarium functions, to academic institutions that have either outgrown their existing space or are looking to expand their research footprint without further building their infrastructure, our vivarium services are the ideal solution.

CRADL™ has several options available depending on your study requirements. Space is available for short- and long-term durations, and can be privately occupied or shared with other partners as a low-cost solution for start-up or pilot research projects.

Shared Rooms

Low-cost solution for start-up or pilot research projects. Holding and procedure rooms are available as shared rooms.

Dedicated Rooms

Private-lease rooms for clients looking to conduct studies that can be customized as dedicated animal holding or procedure rooms.

Expanded Suites

These larger rooms are equipped with both animal holding and procedure space to provide clients with a complete solution.

Dedicated animal holding with procedure rooms act as an extension of your lab by providing both vivarium and procedure space in one room.

cradl

Comprehensive.

CRADL™ not only provides a turnkey vivarium rental solution, it also grants you access to *in vivo* support services within Charles River, increasing the potential for your research to progress forward. Whether you need to create a unique transgenic model, are looking for histopathology support, or need to design a program that ensures the health and genetic integrity of your research animal colonies is upheld, these services can be added as part of your Charles River total package offering.

Customized *in vivo* support services include:

Scientific Advisory Services provides free, personalized support to design and manage lean and robust preclinical programs.

Collaborative.

Your research may come to a critical milestone that requires further expansion of capabilities and infrastructure, or the need to outsource key components of your discovery work. We're strategically positioned to help support you during this time. Our team of experts take a true collaborative approach with you to determine the optimum path to market that fits your program goals and timelines.

Build Infrastructure

Our team of vivarium, scientific, and technical experts are on hand to discuss staffing, training, and vivarium design and planning support.

Outsource Your Next Milestone

Partner with an industry leader in end-to-end integrated drug discovery and safety assessment to ensure the success of your research.

Create a Hybrid Program

Customizable programs that allow clients to maintain control of all or part of their research studies, while Charles River is ready to assist when needed.

Experienced staff are ready to support your research every step of the way.
