† Note on blends: Market Price and 50% Discount for blends refer to the combined total price for the specific blend formulation, not per mg.

Notes & Definitions

- Bulk API: supplied in grams or higher quantities
- Dash (-) means no unique CAS assigned (custom fragments or proprietary blends)

Commercial Notes

- Lyophilized sterile vials: most common format
- Bulk API: usually ≥ 1 g MOQ
- Standard purity: 98–99% (HPLC)
- Cold chain required for long transit
