

UFS 1004

Intumescent Fire seal

UNILOCK UFS 1004 is an intumescent fire seal incorporating an exfoliated graphite core that expands when exposed to high temperatures.

Designed for installation in timber fire doors and frames, it helps prevent the spread of fire, hot gases and smoke while maintaining the integrity of the fire door assembly.

Available in brown and white finishes to suit a wide range of door applications.

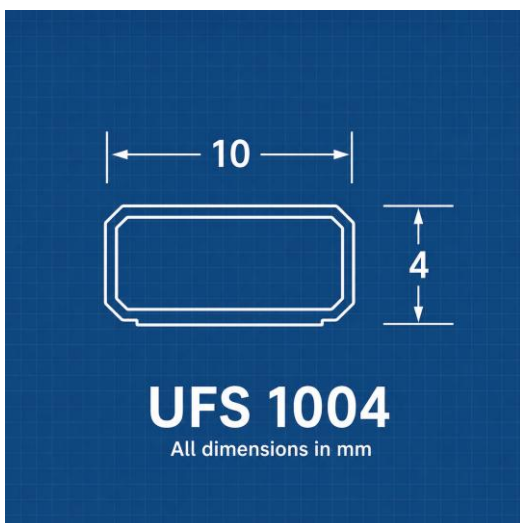

Application:

- Smoke Control
- Fire Protection
