## EXTENSA DECO FLOOR

HOMOGENEOUS RESILIENT SHEET

**What is homogeneous Resilient Sheet?**  
Homogeneous Resilient Sheet is a type of flooring that comes in a non-directional pattern and is available in sheet form measuring 2.0m x 2.0m. This flooring option is highly resistant to wear and tear, and can be easily maintained using Polyurethane (PUR) maintenance, which enhances its anti-pollution performance. When installed with professional accessories, it is an excellent choice for both commercial and administrative buildings.

Gauge : 2.0 mm  
Dimension : 2 m x 20 m

Note: Colors may vary from actual sample

## ROLL form with Antibacterial

**Clean. Welded. Superior Performance.**

- Suitable for homes, offices, commercial establishment and environment which require sanitary surroundings.
- Ideal for light to heavy foot traffic for areas requiring continuous flooring installation.
- AVQT Rollform is available per production and order with minimum order quantity.
- Available in 5ft x 45ft x 2.0mm thickness.
- Available in a wide variety of color.

## APO FLOOR CARE

Available in: **GALLON AND LITER**

- POWER STRIP**: High performance, multi-stripper that removes sealers, floor polish build up and hardened polishes by frequent varnishing.
- POWER SEAL**: Versatile floor sealer that seal pores, and provide a tough base coat while enhancing gloss of polish.
- POWER SHINE**: Premium quality acrylic floor polish for an exceptionally tough and durable finish. Equipped with a quick drying formula that gives a "wet look".
- POWER CLEAN**: Powerful neutral cleaner which is tough on dirt and stains but will not dull or damage your floor.
- POWER BUFF**: Revitalizes floor finish restoring its matte look.

## APO POWERBOND

A superior water-based acrylic floor adhesive for resilient tiles, sheet, wood parquet, linoleum, carpet and engineered wood.

Best installed on concrete, chipboard plywood and other types of sub-floors.

- No risk of fire explosion during application.
- One sided application ( floor or tile ).
- No solvent and fumes.
- Non-Addictive.
- Plasticizer resistant, no tile shrinkage.
- Possibility of correction after the tile has been laid.

NET. WEIGHT		COVERAGE	
PAIL	: 20 kg	: 100 sqm	
GALLON	: 5 kg	: 20 sqm	
LITER	: 1.25 kg	: 5 sqm	

2-in-1 with primer.

## APO POWER SLC

SELF-LEVELLING COMPOUND PREMIUM QUALITY

Excellent cementitious compound.

Ideal self-levelling material with high flow and plasticity to remove minor irregularities of concrete subfloors prior to installing resilient floor coverings.

5 SQM / PER BAG  
3mm THICKNESS

Available in  
25 kg. / bag

Note: Colors may vary from actual sample
