HCG 30TH
PHILIPPINES 

HCG Credo

It is the first room we go to when we wake up. And the last room we go before turning in. It is the room that relieves us, relaxes us, comforts us, and cleanses us. It is the room that takes care of us.

HCG believes we must take care of it.

The bathroom, the true living room.

Mission

- To be the premier bathroom and kitchen solution provider of HCG branded products, and internationally-renowned brands to meet the diverse demand of customers.
- To provide in-house world-class design, manufacturing and quality assurance capability in Vitreous China, brass fittings, kitchen system and accessories.
- To provide a network of leading suppliers and logistics service as a complete supply chain solution for our partners.

Quality Policy Statement

We are committed to be a premier sanitary wares provider to local and projects. To achieve this, we shall:

- Ensure the attainment of customer requirements and expectations;
- Provide quality product consistently;
- Acquire and maintain plant equipment;
- Meet applicable requirements and the needs of relevant interested parties;
- Continually improve the quality management system.

Company Profile

Hocheng Chiu founded the Hocheng Group in 1931 at Yin-Ko, Taiwan. HCG's products skillfully crafted in seamless integration of design and functionality was applauded locally and internationally.

Due to HCG's commitment to excellence and quality added to its success in Greater China, Hocheng Philippines Corporation was established in 1995. The growing demand of the market in the Philippines was catered through the opening of the 10-hectare production facility in 1997 at the First Cavite Industrial Estate (FCIE).

State-of-the-art technology is now fused with a touch of Filipino creativity and ingenuity. Hocheng Philippines Corporation continues to provide innovative products and professional service, making it one of the leading bathroom fixture brands in the country.

HCG stands for:

H (Hygiene) – HCG is devoted in providing hygienic solutions for an exceptional bath experience.

C (Comfort) – HCG provides products that ease life and give more meaning to it.

G (Green) – HCG manufactures products supporting the green revolution of the natural environment.

HCG Heritage

1931 – Hocheng Chiu established Hocheng Pottery Manufacturing in Yin-Ko, Taiwan with an initial capital of USD 12.50.

1981 – Hocheng Group launched the new "HCG" logo to mark its international presence.

1984 – HCG introduced the first one-piece watercloset, Alps, in Taiwan which successfully reached 100,000 unit sales in the first year.

1995 – HCG was awarded the "World's Top 10 Bathroom manufacturers by American Ceramics and as Top 100 SME (Small and Medium Enterprise) by Forbes.

1997 – Launched a 10-hectare production facility in the Philippines.

2005 – Introduced the Lazuli brand to broaden portfolio of international renowned brands which completed the HCG's products to luxury level. In the same year, HCG became the market leader in the Philippine sanitary wares market.

2010 – Hocheng Group celebrates its 80th anniversary. It is awarded as the "No.1 Ideal Brand" by Taiwan consumers for the past 25 years.

2012 – HCG launched Cerabo in the Philippines, offering a 21st century low-carbon construction material.

2013 – Kitchen system was the new addition to the growing product portfolio of HCG Philippines. 2014 – EBOX was introduced in the Philippines.

2015 – Hocheng Philippines Corporation's 20th anniversary in the Philippines.

As part of our Corporate Social Responsibility, we launched ArchiNEXT HCG Young Designers' Competition as an avenue to show students' limitless creativity.

2018 – Lazuli's official launch, with its Showroom opening in BGC.

2012 – HCG launched Cerabo in the Philippines, offering a 21st century low-carbon construction material.

2013 – Kitchen system was the new addition to the growing product portfolio of HCG Philippines.

2014 – ArchiNEXT HCG Young Designers' Competition

2015 – Hocheng Philippines Corporation's 20th Anniversary in the Philippines.

2018 – Lazuli's official launch with its showroom opening in BGC Taguig.

2021 – Launch of LENUS in HCG - The Integrated Anti-Virus Guard.

2022 – Bathroom Redefined Launch.

2023 – HCG BGC Showroom Grand Opening.

2024 – ArchiNEXT HCG Young Designers' Competition – 10th Year.

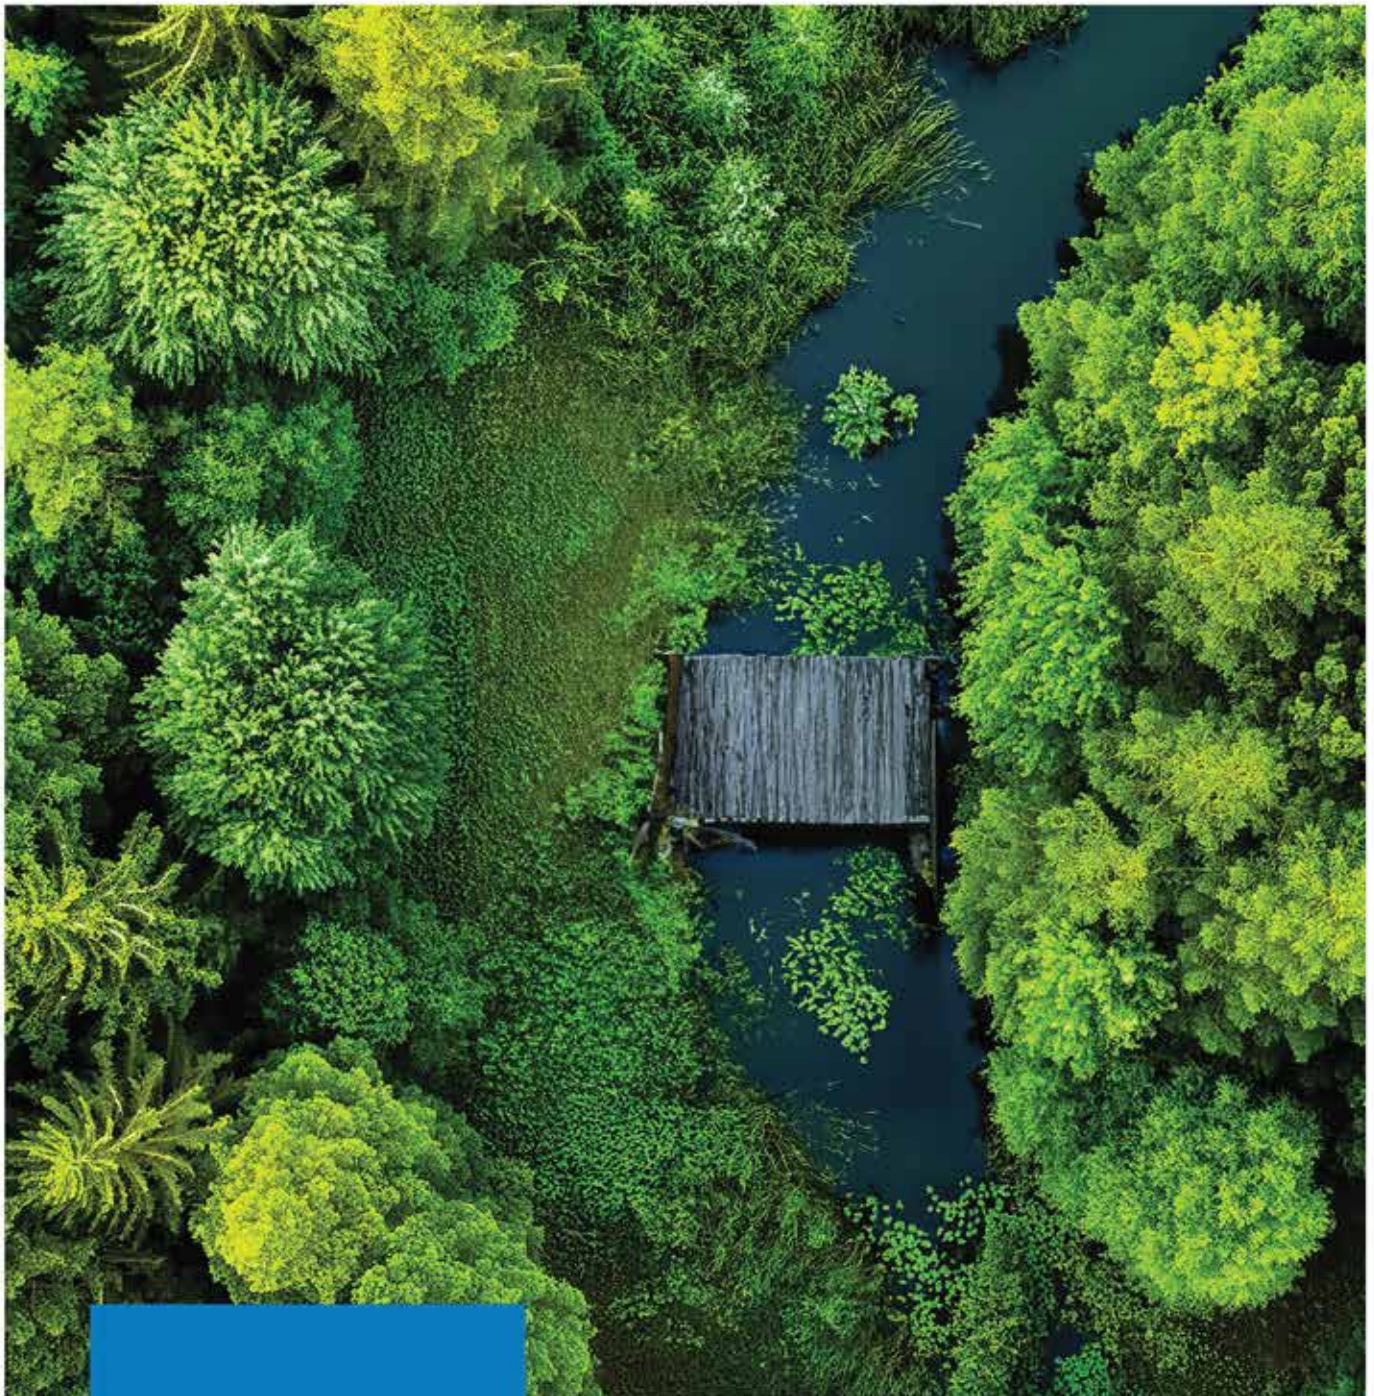

**Thirty years of growth, innovation,
and sustainability together, we're
cultivating a greener future.**

The past 30 years have been filled with growth, innovation, and the shared belief that sustainability is the foundation of true progress. As we look to the future, we continue to cultivate our vision for a more sustainable tomorrow—one where our impact grows as positively as the green initiatives we champion today.

HCG Green

As HCG continues to innovate, we also take the lead in the practice of environmental awareness in the production process and in the products we manufacture. This faithful persistence for a Greener Earth is a continuing practice of HCG for the betterment of the environment.

Water used in the bathroom accounts to almost 40% of the total use of the world. To help lessen carbon and water footprints globally, HCG complies and develops water saving products for nature conservation.

HCG does not only live by the 3R environmental protection. HCG also developed a waste heat utilization system and re-engineered the production process for greener products.

For more than 80 years now, HCG keeps the ultimate mission to protect the globe so the next generation can still say, "We can live here."

DOUBLE WATER CONSERVATION (WATER SAVING + DUAL FLUSH) HIGH QUALITY ACCESSORIES

Compared with the traditional 6 LPF water closets, our selections of 3/4.5 LPF dual flush water closets can save as much as 50% water when flushing liquid waste. This saves not only clean water, but also money from high water bills.

Leadership in Energy and Environmental Design (LEED) is a rating system devised by the United States Green Building Council (USGBC) to evaluate the environmental performance of a building and encourage market transformation towards sustainable design.

Water consumption is minimized through the dual flush technology system. The half-flush (3L) is for liquid waste, meanwhile, the full-flush (4.5L) is for solid waste. Compared to traditional 6 LPF toilets, this can save as much as 20% water.

HCG SIPHON JET FLUSHING TECHNOLOGY

- Excellent flushing performance is achieved at 4.5 liters per flush.
- Stronger water pressure is enhanced through the integrated vortex technology and 3 inches flushing valve.
- Larger glazed trap way provides smoother water discharge with no blocks.

HIGH QUALITY ACCESSORIES

Neoperl, a German made aerator, is known to be one of the top three aerator brands in the world.

- Neoperl's Watercolours® concept color codes aerators in terms of flow rate for easier identification.
- It has an adjustable water outlet (±7°), which makes it more convenient to use.
- Our products conform to the international standard of quality.

HCG Ceramic Technology

A. HCG S-FORCE FLUSH TECHNOLOGY

Most HCG water closets are made with 3" water tank discharge hole and an enlarged trap way size of 2" from the regular size of only 1.5". Due to this breakthrough, plus a fully glazed trap way, HCG water closer's flushing power is strengthened.

Based on miso tests at the same water consumption, toilets with HCG S-FORCE Flush Technology flushes 12 pieces of miso (600g to 1000g), which is more than the international standard of 7 pieces (350g).

B. HCG SIPHON VORTEX TECHNOLOGY

Flushes Smoothly, Cleans Instantly.

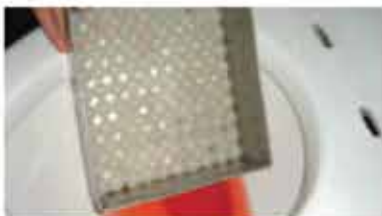

HCG created this special flushing system to offer a "silent" toilet for a tranquil bathroom. The silent flush is achieved through the special rim and trap way configuration which creates the vortex action under the water's surface. This means the water in the trap way is actually "locked", isolating the flushing noise down to 30db.

C. ULTRA LOW WATER ABSORPTION

Lesser Dirt Absorption.

With only 0.2% water absorption, much less than the national standard of 0.5%, it absorbs lesser dirt than the normal toilet.

D. FUNCTION TEST BEFORE PACKING

Strict function test, ensures quality.

Each toilet is simulated for its flushing performance before packing.

E. ALL-IN-ONE-PACKAGE

All tank fittings of HCG toilets are pre-installed in the tank and adjusted to exactly match with HCG standard water consumption. Save your time and enjoy excellent flush performance.

Water Closet Features

HCG complies with the most widely used third-party verification for green buildings, Leadership in Energy and Environmental Design (LEED). HCG is making items that use water in a much efficient way, adhered to the standards for buildings and communities to be considered a green building.

LEED COMPLIANT

HCG complies with the most widely used third-party verification for green buildings, Leadership in Energy and Environmental Design (LEED). HCG is making items that use water in a much efficient way, adhered to the standards for buildings and communities to be considered a green building.

WATER SAVING

HCG Water Closets consume less water because of the dual flush system. This opts for half flush (liquid waste) and full flush (solid waste) utilized accordingly. Also, the maximum consumption of HCG's water closets are at 4.8 LPF, saving at least 20% water compared to traditional 6 LPF toilets.

ANTI DIRT TECHNOLOGY

HCG ceramic products with anti-dirt glaze all undergo glazing twice and fired in the kiln under 1200°C. The special anti-dirt glaze after firing looks shiny and compact. HCG ADT glazed ceramic surface appears smooth. A very thin water film will be formed and acts as a barrier between glazed surface and dirt. The dirt will then be isolated to ensure cleanliness.

ANTI DIRT & BACTERIA SEAT & COVER

Same as the surface of HCG's seat and cover is treated with anti-dirt and bacterial coat that inhibits bacterial growth. It kills 99.9% of germs, eliminates odor, and ward-off germs that cause skin irritation.

SOFT CLOSING SEAT & COVER

Live in tranquility with a peaceful bathroom piece. HCG Water closets have a unique roller device to create the soft-closing seat and cover.

Explore various functions
flawlessly integrated
for optimal efficiency.

HCG Faucet Technology

Digital display pull-out and
liftable lavatory faucet
With multi-function spout.

Faucet Features

HCG VALVE PLUG TECHNOLOGY

HCG's faucet handle with an excellent valve plug technology feels smooth and flexible. It also has a reliable service life of up to 500,000 times.

HCG LED TEMPERATURE INDICATOR

Its LED display lets you easily monitor water temperature, ensuring the perfect balance of comfort and safety.

LONGER AND TALLER SPOUT

Aside from enhancing its aesthetics, faucets with longer and taller spout provide more hygienic wash and wider compatibility to different design of under and counter top lavatories.

HCG SENSE OF WATER TECHNOLOGY

The different water outflow options bring you a varied sense of rejuvenating freshness.

HCG SPEED-CLEANING TECHNOLOGY

With just a few wipes, accumulated dirt on our faucets is easily removed.

HCG USER-FRIENDLY DESIGN

HCG faucets come with designs easily understood for its functionality. These also come with gentle switches for different functions for the ease of use.

Accessibility Items

BATHROOM ACCESSIBILITY ITEMS

HCG believes that every individual deserves quality and hygienic bathroom fixtures. We have developed a line that gives maximum support and care for people who are physically challenged, but also a symbol of strength and recognition. Each series imposes the priority and familiarity of everyone to the importance of hygiene and care.

EASY GRIP DESIGN

The surface of HCG Grab Bars is developed with an easy grip design for maximum comfort and ease.

ADA AND BP344 COMPLIANT

Grab bars have 32-34 mm diameter, and 38 mm clearance, adhering to the requirement of Americans with Disabilities (ADA) and Philippine Accessibility Law.

SAFE AND DURABLE

Stainless steel (SUS304) screws and brackets make the grab bars secure and safe.

HIGH PULL WEIGHT CAPACITY

The pull weight capacity of our grab bars is at 150 kgf (330 lbf), higher than the requirement of ADA (113.50 kgf or 250 lbf).

CERTIFICATION AND TESTS

ISO 10996-5 and ISO 10993-10 are the mandated types of testing for medical device materials by ISO. In-house testing and tests (by a third party certification company) is done during the production of the items to ensure that the items are passing the international standards.

HCG CSR Programs

HCG CARES

HCG Philippines' "Adopt-a-School" Program made 31 schools happier and more hygienic with toilet set donations for the students. This program aims to reach out to children in school and bring happy smiles through providing quality bathroom fixtures for them to use.

ARCHINEXT

In 2015, ArchiNEXT: HCG Young Designers' Competition began to challenge the ingenuity and creativity of Architecture students nationwide. From receiving 110 entries on our first to generating 151 entries amidst the challenges during the pandemic. The ArchiNEXT team always believes in the power of our generations young mind and we will continue to unleash their talents for them to recognize their potential abilities and bring it to the next level.

World Toilet Day 2024

Advocating Sanitation for Health and Harmony

Toilets: A Place for Peace

HCG Philippines proudly joined the global observance of World Toilet Day 2024, emphasizing the importance of safe and clean sanitation in promoting health, dignity, and harmony. This year's theme, "Toilets: A Place for Peace", underscores how access to proper sanitation facilities can address public health challenges, reduce environmental pollution, and promote social equity.

HCG Philippines continues to innovate and provide high-quality bathroom solutions that prioritize sustainability and hygiene. By ensuring that modern, efficient toilets are accessible, the company contributes to creating spaces that uphold human dignity and well-being.

Beyond product innovation, HCG Philippines actively engages with communities to advocate for sanitation awareness. Through educational campaigns and partnerships, the company highlights the role of sanitation in creating a world where every individual can live with safety and dignity.

Together, let's make every flush a step toward peace

HCG Philippines Advocates Hygiene Awareness on Global Handwashing Day 2024

HCG Philippines, in collaboration with Unitec Pipe Mfg. Corp. and TESDA Women's Center, joined the 2024 Global Handwashing Day celebration organized by the Local Government Unit of Taguig. The event, held at Tenement Elementary School, drew participation from 51 parents, 300 students from Grades 1 to 6, and the school's dedicated teaching staff.

With the theme "Goodbye Bulate: Sabayang Pagpupurga Kontra Bulate", the event emphasized the critical importance of early deworming in preventing malnutrition and parasitic worm-related disorders in children. The seminar highlighted handwashing as the first line of defense against pathogens, advocating hygiene practices that significantly improve children's health outcomes.

Interactive activities, educational talks, and live demonstrations of proper handwashing techniques engaged students and parents alike. By instilling these essential hygiene habits, HCG Philippines aims to contribute to a healthier future for Filipino children while raising awareness about the significance of sanitation in daily life.

Through this initiative, HCG Philippines reaffirms its commitment to health advocacy and community empowerment, underscoring the profound impact that simple, consistent hygiene practices can have on public health.

HCG Philippines Participates in "Trees 4 Sustainability 2024" to Champion Environmental Conservation

On August 24, 2024, HCG Philippines actively participated in "Trees 4 Sustainability 2024", a tree-planting initiative held at the picturesque Siniloan Forest Park in Siniloan, Laguna. This event underscores the company's enduring commitment to environmental sustainability and aligns with the United Nations' Sustainable Development Goals (SDGs). Employees, local volunteers, and eco-conscious citizens came together to combat climate change and preserve the region's natural beauty.

Siniloan Forest Park, known for its rich landscapes and thriving ecosystems, provided an ideal venue for this initiative. Throughout the day, participants planted hundreds of Molave trees, contributing to enhanced biodiversity, improved soil stability, and cleaner air for future generations.

HCG Philippines' involvement in "Trees 4 Sustainability 2024" highlights its unwavering dedication to environmental stewardship, adhering to ISO14064 Greenhouse Gas standards. By engaging in this green initiative, the company reinforces its role as a responsible corporate citizen while inspiring others to take action for a sustainable future.

This initiative transcends corporate responsibility; it represents a heartfelt investment in the planet's future. Each tree planted is a symbol of hope, resilience, and the commitment to fostering a greener, healthier world for generations to come.

Customer Service

At HCG, every customer enjoys professional pre and after sales service. We offer fast and reliable after-sales service should the need arise.

We trust the quality of our products and spare parts, thus we provide the following warranties:

- Lifetime after-sales service.
- 5 – year limited warranty on all tank fittings
- 1- year limited warranty on non-ceramic products and spare parts (brass faucets, regular tank fittings, regular sensors, seat and covers, and plumbing accessories)

(The following actions and consumer behaviors are not included in our guarantee: product's normal deterioration, lack of normal maintenance, improper use of tools during maintenance of our products, chemical and electrical influence.

Ceramic Collections

A delightful collection of stylish and durable bathroom fixtures, HCG provides a wide range of selection for the meticulous and distinct. Live in functional and exceptional pieces that create the absolute experience.

Smart-T Plus

Simplistic Elegance, Smart Innovation

Designed to achieve effortless comfort and convenience with features carefully curated for seamless technology performance and hygiene. Its smooth curves and straight lines are the perfect example of simplistic elegance.

Washing with Running Water

Featuring a built-in oxygen-enriched air pump and running water filtration, our system provides a soft and comfortable washing experience. It also includes self-cleaning functionality both before and after use, ensuring optimal hygiene.

Siphon Jet | 4 LPF
300 mm rough-in

Automatic Induction technology can always do more for you

When a person approaches the automatic flip cover, the sensor at the base detects their presence, lifting the seat ring automatically. Upon departure, the toilet flushes and closes the lid automatically.

**Small Size
Large Performance**

No water pressure limitation
High strength and high toughness pressurized water storage tank can solve the problem that the toilet has no impulse due to insufficient water pressure. It has strong high-speed sewage discharge impulse and no time zone limitation

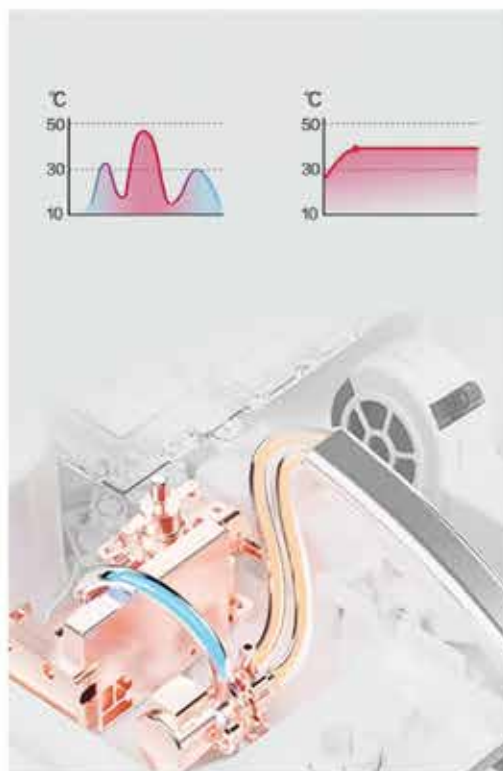

New Intelligent Heating System

Other

- Water and electricity are not isolated, sometimes hot and sometimes cold
- Susceptible to bacteria

Smart - T

- Water and electricity isolation, constant water temperature
- Fresh water is clean and safe

Arosa

Delight in unconditional comfort like no other.

The smooth lines, gentle curves and vast sitting area soothe and calm the senses, and complete the sophisticated yet hygienic benefits of Arosa. Its ceaseless physique and classic detail will instantly add flair and sophistication to your comfort place.
