

PT. SRIORLAN AGROBUMI SRIWIJAYA
From Coconut Origins to a Global Journey

COMPANY PROFILE

Introduction

PT. SRIORLAN AGROBUMI SRIWIJAYA is coconut supplier from Indonesia and an Indonesian trading company based in Palembang, South Sumatera. One of the largest and most established coconut-producing regions in Indonesia. Surrounded by extensive coconut plantations and long-standing farmer communities, Palembang has long been recognized as a central hub for high-quality coconuts in Sumatera.

With years of hands-on experience within this ecosystem, we specialize in coconut-derived products and natural agricultural commodities, connecting Indonesia's coconut origins to the global market in line with our tagline, *From Coconut Origins to a Global Journey*.

We believe that trust, consistency, and product quality are the foundation of long-term partnerships. Every product we supply goes through a strict selection process, from sourcing to shipment, ensuring compliance with international quality standards.

With the experience we carry from Palembang's coconut heartland, we are confident in delivering value not only to our existing clients, but also to new partners seeking a reliable and professional supplier from Indonesia.

We invite you to partner with **PT. SRIORLAN AGROBUMI SRIWIJAYA** as your trusted source of premium coconut-derived products.

Vision & Mission

Company Vision

To become a globally trusted supplier of Indonesia's coconut-based products and natural commodities by prioritizing quality, consistency, and sustainable partnerships.

Company Mission

- Deliver high-quality coconut-derived products that meet international standards with customer satisfaction as our top priority.
- Ensure a reliable and efficient supply chain for global buyers.
- Build transparent, long-term, and mutually beneficial partnerships.
- Support sustainable growth by empowering local farmers and ensuring ethical sourcing.
- Promote Indonesia's natural excellence in the global market.

OUR VALUE

Integrity

Conducting all business processes with honesty, responsibility, and consistency to uphold long-term trust.

Quality Excellence

Committed to delivering high-quality, export-ready products that meet international standards.

Trust & Transparency

Building reliable and mutually beneficial relationships through clear and open communication.

Empowerment & Sustainability

Supporting local farmers and ensuring ethical, sustainable sourcing to strengthen the entire supply chain.

Global Mindset

Adapting to international market needs with a forward-thinking, globally oriented approach.

PRODUCTS

1. Semi Husk Coconut

Fully matured coconuts with the husk are left intact over the “eyes” of the coconut, a very sensitive area. Leaving the husk untouched increases the shelf life of the coconut, protecting the area susceptible to decay.

Our Semi Husked Coconut is freshly handpicked directly from Indonesia's finest coconut trees within 60 days. Enriched with essential vitamins and minerals, its thick, sweet and tasty coconut meat is often widely used in bakery, confectionery and other food and beverage products.

These coconuts add a distinct flavor and aroma to savories and sweets. Semi Husked coconuts have varied purposes, making them highly sought after products the world over.

PRODUCTS

2. Coco Fiber / Coco Fibre

Coco Fiber is a natural fiber extracted from the outer husk of mature coconuts. The fibers are obtained through a defibering process and are widely used across various industries due to their strength, elasticity, and durability. It is one of the most sustainable natural materials derived from coconuts, making it an eco-friendly alternative for multiple applications.

Product Advantages :

- 100% natural and environmentally friendly.
- Highly durable and resistant to decay.
- Renewable and sustainable raw material.
- Excellent water absorption and tensile strength.

SPECIFICATIONS

Material

100% Coconut Coir Dust

PRODUCTS

3. Cocopeat

Cocopeat, also known as Coconut Peat or Coir Pith, is a by-product obtained from the extraction process of cocofiber. It appears as a fine, soil-like brown powder that has an excellent capacity for water retention and maintaining soil moisture. Due to its eco-friendly nature, lightweight structure, and high aeration properties, cocopeat has become one of the most popular growing media in modern agriculture especially in hydroponic systems, greenhouses, and nursery plantations.

Key Characteristics :

- Made from fine coconut husk powder.
- Exceptional water absorption capacity (up to 8–10 times its own weight).
- Neutral to slightly acidic pH (5.5–6.8).
- Lightweight, porous, and provides excellent aeration.
- 100% biodegradable and environmentally friendly.

PRODUCTS

SPECIFICATIONS

Material

100% Coconut Coir Dust

Form

Block / Loose Form

Color

Brown to Dark Brown

Moisture Content

< 30%

EC (Electrical Conductivity)

- Low EC: < 0.5 mS/cm
- High EC: 1.0–2.0 mS/cm

pH Level

5.0 – 7.0

Expansion

Expandable up to 45 – 50L per block

Block Size

30 × 30 × 12 cm (5 kg)

Packaging & Container Capacity

- Plastic shrink wrap + palletized (24 MT = 20 Pallets = 240 pieces in 40ft HC)
- PP woven bags ± @25 kg/bag (± 650 Bags = 16250 KGS in 40ft HC)

Labeling

- Customizable with buyer's brand
- OEM option available

WHY CHOOSE US

1. The Best Coconut In Sumatera

We specialize in the best coconut and high-quality coconut-derived products, supported by strong sourcing networks and a deep understanding of Indonesia's coconut heritage.

2. Consistent Quality Standards

With years of experience, all products undergo strict quality control, ensuring stable specifications, export-ready quality, and compliance with international standards.

3. Large Quantity

Production capacity reach \pm 300 MT / week, stable product availability, very close to port of loading, efficient logistics, and timely delivery to meet global demand consistently.

4. Professional & Transparent Partnership

Clear communication, complete documentation (SI, BL, COO, MSDS, COA), and a commitment to transparency make us a trusted partner for long-term collaboration.

5. Competitive & Fair Pricing

We offer competitive prices without compromising product quality or service standards.

6. Farmer Empowerment & Ethical Sourcing

We work closely with local farmers and producers, supporting ethical, sustainable sourcing that strengthens the entire supply chain.

7. Global Mindset & Responsive Service

Our team understands international market needs and provides timely, responsive communication for every inquiry, shipment, and project.

HOW WE WORK

1. Payment Terms

We offer flexible and secure payment options to ensure smooth and transparent transactions.

Available methods include:

- Telegraphic Transfer (T/T)
- Other terms can be discuss.

Our payment structure is adjustable depending on product type and buyer requirements.

2. Order Terms

Our minimum order quantity (MOQ) varies based on the product and packaging. We remain flexible and open to discussion to accommodate:

- Custom product specifications
- Specialized packaging
- Long-term contract orders

3. Delivery Terms

We provide reliable and efficient delivery options tailored to your needs:

- **Air Freight** for smaller or urgent shipments
- **Ocean Freight** for bulk orders

4. Incoterms

We support multiple international Incoterms, including:

- EXW • CFR/C&F
- FOB • CIF

Buyers may select the most suitable term according to their logistics preferences.

5. Samples

Product samples are available upon request for quality evaluation. Buyers are responsible for the shipping costs.

OUR SERVICES

1. Product Sourcing

We source high-quality coconut-derived products directly from trusted farmers and producers across Indonesia.

Our sourcing process ensures:

- Stable and consistent supply
- Strict quality selection
- Traceability and transparency

2. Logistics Coordination

We coordinate all export-related logistics to ensure smooth shipment flow, including:

- Export documentation
- Cargo handling arrangements
- Coordination with forwarders
- Shipment tracking

Our team ensures your products arrive safely and on schedule.

3. Customer Support

We provide responsive and clear communication throughout the purchasing and shipping process. Our goal is to ensure:

- Fast response to inquiries
- Transparent updates
- Professional problem-solving
- Seamless buyer experience

4. Documentation Assistance

We prepare and manage all essential export documents, including:

- Shipping Instruction (SI)
- Bill of Lading (BL)
- Certificate of Origin (COO)
- Phytosanitary
- Packing List & Commercial Invoice
- MSDS & COA
- Specific certificates required by destination country

This ensures compliance and smooth customs clearance.

Founder's Message

Growing up and working closely with Indonesia's coconut ecosystem, I have seen firsthand how powerful this commodity is. Not only for global markets, but for local communities. With years of experience supporting coconut-based businesses and managing export documentation and trade operations, I founded **PT. SRIORLAN AGROBUMI SRIWIJAYA** to bring Indonesia's finest coconut-derived products to international buyers.

I believe great partnerships are built on consistent quality, transparent communication, and integrity. That is why I personally oversee every stage from sourcing and quality control to documentation and shipment ensuring each order is handled professionally and responsibly.

Through **PT. SRIORLAN AGROBUMI SRIWIJAYA**, my commitment is simple: to connect reliable Indonesian coconut supply with global demand, while creating long-term value for both buyers and the local farmers behind every product. Thank you for trusting us as your Indonesian coconut supplier.

**Dimas Alrasyid Kurniadi –
Company Founder & Director**
