## LETTER OF INTENT

Dear Yasmine,

Thank you for reaching out to us and for introducing the Dr Sunshine concept and your proposed licensing model for the Irish market.

We have reviewed your website and the information provided regarding your Comfort Kits and your internationalisation plans. We find the concept both innovative and meaningful, particularly in its combination of commercial viability and social impact.

While we understand that Dr Sunshine is currently a student-led initiative and still in its early stages of development, we believe the project shows strong potential for growth. Subject to the development of a structured licensing framework and further discussions, we would be interested in exploring the possibility of collaborating with your organisation.

With over 60 years of experience in the toy and stationery sector, and an established network across Ireland, Toyland Cash & Carry would welcome the opportunity to be considered as a potential partner for the Irish market. In this context, we would appreciate being given the right of first consideration should you proceed with appointing a partner in Ireland.

We look forward to following the development of Dr Sunshine and would be pleased to continue discussions at the appropriate stage.

Yours sincerely,

*Conor Hanratty*
