About Us

- OC delivers success by expertly matching our clients' unique needs with the necessary specialized talent.
- As the Department of Defense (DoD) advances software-defined warfare to outpace adversaries, there is an urgent need for agile, mission-ready partners. OC bridges this gap by delivering cutting-edge solutions and top-tier talent to help leaders achieve information dominance and operational resilience through modern, interoperable systems across enterprise and mission IT domains.

Core Competencies & Services

"Partnership, collaboration and transparency"

It's not a tag-line, these are the guiding principles all OC services are built upon.

Infrastructure & Cloud Computing

Cybersecurity

Data & Analytics

Software Engineering & Development

Strategic Planning and Product Management

User Experience & Endpoint Services

AI, Automation & Emerging Tech

Tailored Solutions

When your organization needs independent, customized solutions, we deliver. We partner closely to uncover core requirements, engineer high-impact results, and confirm satisfaction—balancing collaboration with technical excellence to exceed expectations.

Managed Services

Our managed services model goes far beyond basic maintenance. We partner with you to elevate your IT baseline through proactive monitoring, intelligent automation, AI integration, enhanced user experience models, and continuous optimization.

Consultation

For in-house teams needing targeted insight, we deliver collaborative, ROI-focused advice in optimizing cybersecurity, cloud strategies, data analytics, infrastructure or strategic planning in general—with guaranteed transparency and real value over generic reports.
