

Q1 QUIET PICKLEBALL

City noise ordinances. HOA restrictions. Courts in apartment complexes. When the noise of pickleball is an issue, the answer isn't to stop the games. The answer is the **Q1 Quiet Ball.**

Selkirk's new Q1 Quiet pickleball lowers the noise without compromising on performance, so the game can continue without disrupting neighbors. It features a patent-pending 92-hole design with a material blend engineered specifically to dissipate sound.
