EXCLUSIVE!

CAUTION!

RESTRICTED AREA

There is a lot of speculation around what might be happening to the Selkirk paddle lines. I of course have no more insight than any of you, but that has never stopped me from spouting my mouth off anyway. So here is _MY VIEW_ of the future:

Paddle	Guess	Pure Speculation!
Selkirk Labs Series		
Project Boomstik	Expect a Mid-Term Refresh	As a lifetime Project, we are likely to see new tech before long
Project 008	Retired	Should become the next Selkirk Hybrid paddle
Project 007	Exiting	Will likely be turned into the Vanguard Power Air replacement

Selkirk Sport Series		
LUXX Control Air w/ InfiniGrit	Long-Term Retention	
LUXX Control Air	Retired	
Vanguard Power Air	Exiting	Look for a version of the Labs Project 007 to appear in its place
Vanguard Pro	Exiting	The hybrid nature of the Labs Project 008 13mm Tour lends itself to be the Pro's successor
Vanguard Control	Retired	
AMPED Pro Air	Exiting	Similar to the Vanguard Pro, with Selkirk consolidating its line, there may be only enough room for one hybrid paddle
AMPED Control	Exiting	This is the most curious of the leaving paddles. We may see new 'Control' tech, or a variation on the Labs Project 008 16mm

SLK Series		
ERA Power	Long-Term Retention	
Dauntless	New Release	
Halo Pro	Exiting	Replaced by the Dauntless
Halo Power	Exiting	Replaced by the Dauntless
Halo Control	Exiting	Replaced by the Dauntless
Omega Hybrid Air	Exiting	Replaced by the Geo
Geo	New Release	
EVO Power	Retired	Replaced by the Geo
EVO Control	Exiting	Replaced by the Geo
Valkyrie	New Release	
Atlas	Indeterminate	
Fury	Indeterminate	Likely to be replaced by the Valkyrie
Latitude	Getting handed it's hat	Likely to be replaced by the Valkyrie
Helix Pro	Indeterminate	Likely to be replaced by the Valkyrie
Nexus	Indeterminate	
Prime 2.0	Continuing	

All we really need to do is look at the current Selkirk commercial site under Paddles. Here is what we can glean from what is/is NOT there:

SERIES

Boomstik

SLK Dauntless

SLK Geo

SLK Valkyrie

SLK ERA

LUXX
