

How it Works

1

We create your private wedding page

2

You receive your unique QR codes

3

Guests scan and upload in seconds

4

They appear instantly in your live gallery

5

After the wedding, you receive
everything in one
complete downloadable collection

No chasing guests. No WhatsApp groups. No
missing moments.

What it is Snap to Share?

Snap to Share allows your wedding
guests to simply scan a QR code and
upload their photos and videos instantly
— no apps, no logins, no hassle.

All memories are collected into one
beautiful private online gallery for you to
download and keep forever.

You also have the option to collect
digital RSVPs using QR codes, giving you
a live guest list table you can view
anytime.
