CONTACT US

About Us.

Bosquett Investments is a prominent investment firm, established on June 11, 2003, with a strong and diverse portfolio across multiple industries. We are dedicated to achieving sustainable growth and delivering value through our expertise in building materials, property development, industrial services, and natural resources. Our unwavering commitment to excellence and innovation drives us to propel progress through strategic investments and collaborative partnerships.

Our property development division is at the forefront of creating impactful residential, commercial, and industrial spaces. We oversee every stage of the development process, from initial design and construction to ongoing property management. Our dedication to quality and client satisfaction ensures that our projects not only meet the highest standards but also make meaningful contributions to the communities we serve.

Beyond our primary business areas, Bosquett Investments is deeply engaged in industrial contracts, mining, and IT services. We provide vital resources and tailored solutions, including irrigation systems and borehole installations, to support a wide range of industries. By focusing on financial services and strategic investments, we offer comprehensive solutions that drive growth, efficiency, and long-term success for our clients and stakeholders.

MISSION

To accelerate growth and innovation through strategic investments across diverse industries, cultivating strong partnerships, and providing outstanding property development solutions that maximize value and profitability for our stakeholders.

VISION

To become a premier investment and property development company, renowned for our unwavering commitment to sustainable growth, innovation, and excellence in every project and venture we pursue.

CORE VALUES

Integrity:

We maintain the highest standards of integrity, ensuring transparency and honesty in every business transaction we conduct.

Innovation:

We are dedicated to embracing new ideas and approaches, continually seeking opportunities to innovate and enhance our services and investments.

Bosquett Investments presents a diverse and well-rounded portfolio of products and services, carefully crafted to provide exceptional value to our clients and stakeholders. Our extensive expertise across multiple key areas allows us to offer customized solutions that promote growth and ensure long-term success. Our products and services encompass:

HARDWARE

Building Materials: Supplying a wide range of high-quality building materials, including cement, bricks, steel, and aggregates. **Plumbing Supplies:** Providing essential plumbing goods such as pipes, fittings, valves, fixtures, and accessories for construction projects.

FARMING

Providing essential irrigation systems, farming equipment, and supplies to support agricultural activities, improve productivity, and promote sustainable farming practices. **Boreholes:** Installing, servicing, and maintaining boreholes for reliable water extraction and irrigation purposes.

PRODUCE

Supplying a range of grains, legumes, and fresh farm produce for commercial and institutional buyers, ensuring quality sourcing, reliable supply, consistent availability, efficient distribution, strong quality control, and timely delivery nationwide across multiple market segments.

MINING

Resource Exploration: Acquiring and exploring mines, quarries, and lands rich in ores, metals, minerals, and other natural substances. **Resource Development:** Developing and operating mining and quarrying projects to produce and market raw materials.

Bosquet Investments provides a range of practical and reliable services that support construction, infrastructure, mining, and related projects. Our services are delivered with a focus on quality workmanship, operational efficiency, safety, and timely project execution. We work closely with clients to ensure solutions are tailored to project requirements and industry standards.

CONSTRUCTION

Providing construction and site support services for residential, commercial, and industrial projects, including building works, material coordination, supervision support, and on-site assistance to ensure quality execution and timely project completion.

PLUMBING

Offering plumbing installation, maintenance, and repair services, including piping systems, fittings, water reticulation, and drainage works for buildings and infrastructure projects, ensuring functionality, compliance with standards, and reliable water systems.

EXCAVATION

Providing excavation, earthworks, trenching, and site preparation services for construction, mining, borehole drilling, and agricultural projects, using appropriate machinery and experienced personnel to support safe and efficient project implementation.

FENCING

Providing fencing installation and related services for residential, commercial, agricultural, and industrial properties, including perimeter fencing, boundary demarcation, and site security solutions using durable materials and proper installation techniques.
