# **SAFETY HANDLING MESSAGE**

## **CAUTION**

**Dry ice is the solid form of carbon dioxide (CO<sub>2</sub>). Dry ice is extremely cold (−109.3 °F / −78.5 °C) and rapidly sublimates.**

**Always use & store in good ventilated area.**

**Must OPEN window while transport DRY ICE.**

**Vehicle occupants may be overcome by CO<sub>2</sub> which cause suffocation without Warning.**

**Never place DRY ICE in your mouth or direct contact with human skin.**

**Dry ice is extremely cold and can freeze human tissue on contact.**

**If swallowed, it can cause serious injury or death.**

**Wear appropriate Personal Protective Equipment (PPE)**

**Direct contact with dry ice can cause serious FROSTBITE**

**Never store in an air-tight container.**

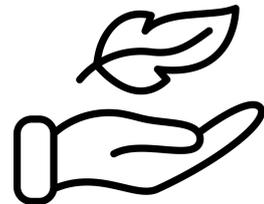

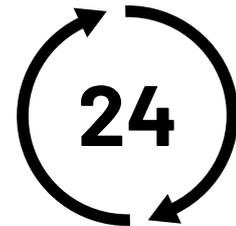

**As dry ice sublimates, gas/pressure build up can cause air-tight container explode.**

**Ensure proper disposal of dry ice**

**Allow dry ice to evaporate (sublimate) to the atmosphere in a well ventilated secured area.**
