

BOS (Built On Solana) — Litepaper v1.1

1. Introduction

BOS is a culture-backed meme token built to represent and empower everything being built on Solana. It celebrates the chain's speed, innovation, and strong builder identity while offering lightweight ecosystem utilities.

2. Core Narrative

Solana is the most rapidly growing blockchain ecosystem with unmatched throughput and cultural momentum. BOS taps into this identity, positioning itself as the meme-layer representing builders, creators, and community movement.

3. Mission & Purpose

BOS exists to unify the Solana builder community, amplify creativity, and empower new micro-projects. It has no investment guarantees and functions as a cultural and ecosystem-supporting token.

4. Brand Identity

Theme: Solana neon gradient (purple, cyan, green) Mascot: BOS-Builder robot — a futuristic mini robot symbolic of Solana innovation. Primary Slogan: "If it's BOS, it's Built On Solana."

5. Utility

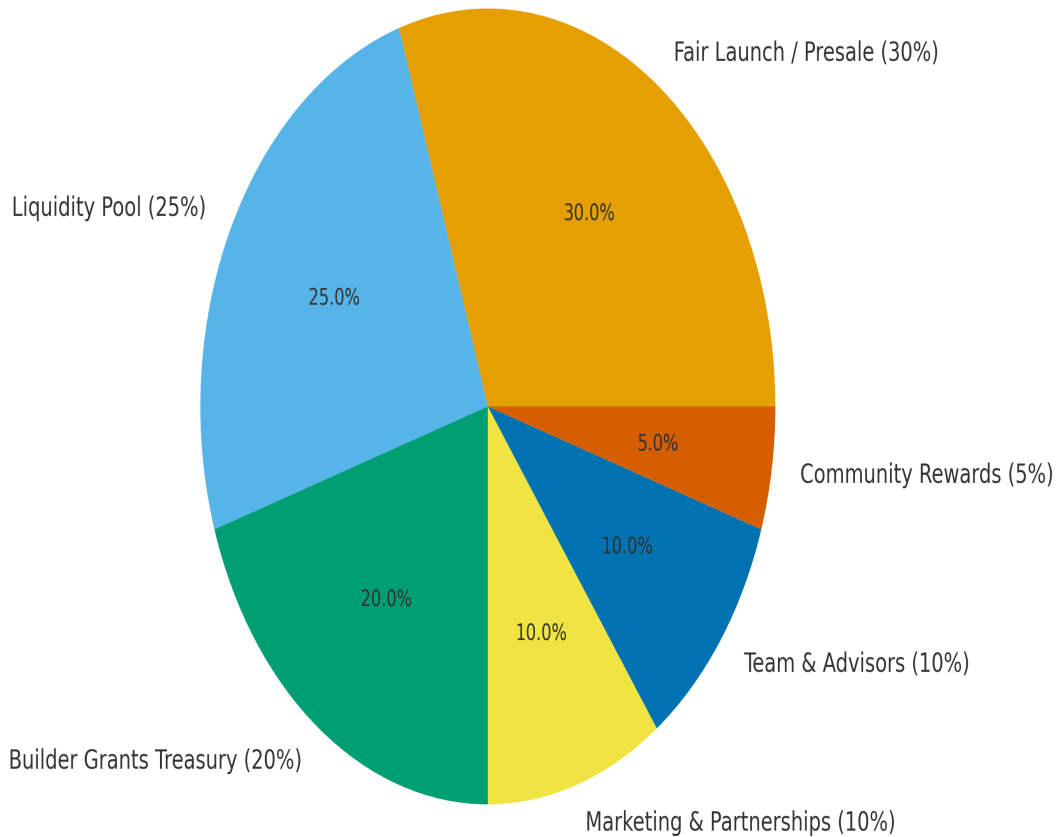

• BOS Build Hub — idea launchpad for Solana mini-projects • BOS Builder Grants — ecosystem treasury for micro-grants • BOS Identity Layer — NFT badges representing participation • BOS Hype Engine — dashboard tracking Solana cultural trends

6. Tokenomics

Total Supply: 1,000,000,000 BOS • 30% Fair Launch / Presale • 25% Liquidity Pool (locked) • 20% Builder Grants Treasury • 10% Marketing & Partnerships • 10% Team & Advisors (time-locked) • 5% Community Rewards

BOS (Built On Solana) Tokenomics Distribution

7. Transparency Commitments

• No mint authority • No freeze authority • Public burns & locks • LP locked for transparency • Community-influenced decision making

8. Roadmap

Phase 1: Token launch & branding Phase 2: Dashboard beta & community expansion Phase 3: Builder grants rollout Phase 4: NFT identity system Phase 5: Full Solana ecosystem integrations

9. Legal Disclaimer

BOS is not a financial product and carries no guarantees. It is a cultural token created to support the Solana community. All participation is voluntary and community-driven.
