

Inquiry Cycle: Our Shared Journey.

Building a culture of Inquiry together with Students

“When teachers and students share the same inquiry language,
curiosity becomes our classroom culture.”

Wonderings

What do I already know about this?

What do I wonder about?

Why might this be important?

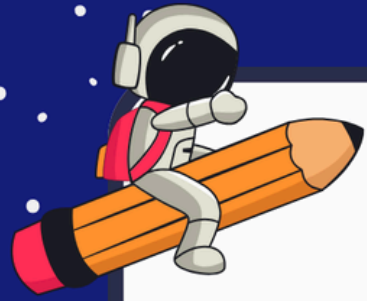

Investigation

How can I explore my questions?

What resources can I use?

Who could I talk to or learn from?

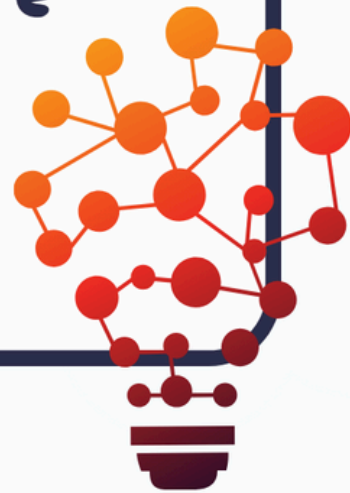

Organization

What patterns or connections do I see?

How does this change my thinking?

What concepts are emerging?

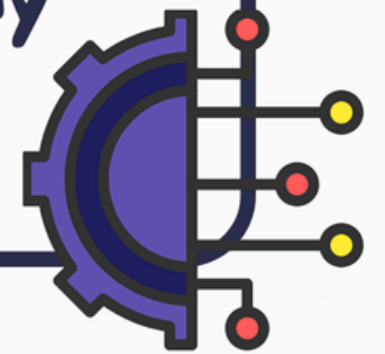

Deep Diving

What new questions do I have now?

What do I want to explore more deeply?

How can I extend my learning?

Generalization / Making Conclusion

What big idea connects
all my findings?

Can I create a
statement that others
could also use to
understand this idea?

How does this learning
apply to other situations
or subjects?

Action

How does this learning
inspire me to act?

What can I do to make a
difference?

How can I share my
learning with others?

Reflection

What am I proud of in my learning journey?

What challenges did I face and how did I overcome Them?

How has my thinking changed?
