

The Denver Black Firefighters Alliance stands as a pillar of strength, unity, and representation within both the fire service and the communities we serve. Our mission is rooted in bridging the gap between public service and our people — showing up with purpose, presence, and pride.

We are committed to:

Community Presence – Actively engaging with our neighborhoods, schools, and local organizations to build trust, educate, and uplift.

Representation – Creating a visible and impactful presence in the fire service to reflect the diversity of the community we protect.

Connection – Building meaningful relationships that close historical divides and foster mutual respect.

Empowerment – Mentoring future generations, promoting equity within the fire department, and ensuring that every voice is heard.

We believe in the power of showing up — not just in times of crisis, but in everyday life. Whether in classrooms, community centers, or city streets, we are here.

For Us. By Us. Always.

The Denver Black Firefighters Alliance is committed to engaging the Community by Building Trust, Educating each other, and being uplifting. Showing up in all seasons of life-Everyday, Always!!
