

MEGA FORGE INDIA

## Our Service

- Heavy Fabrication
- Structural fabrication, crusher plant fabrication, machine frames, and industrial structures.
- Engineering & Mechanical Works
- Fabrication with assembly, industrial repair, maintenance, and customized engineering jobs.
- Precision Machining
- Turning, milling, drilling, shaping, and custom machined components.
- Custom Industrial Solutions
- Fabrication and machining as per drawings and client requirements.

## Our Mission

1. To deliver superior-quality heavy fabrication, machining, and engineering solutions that exceed client expectations.
2. To adopt modern manufacturing technologies that enhance precision, performance, and efficiency.
3. To maintain strong quality control at every stage of production.
4. To build long-term partnerships with clients through trust, transparency, and timely delivery.
5. To empower our workforce with continuous learning and technical development.
6. To uphold the family legacy of engineering excellence while expanding into new industrial capabilities.

## ABOUT US

Mega Forge India, established in 2025, is a heavy fabrication, mechanical engineering, and precision machining company based in Howrah, West Bengal. Founded by Ayush Koley, the company stands on a strong industrial foundation shaped by decades of experience from our family-owned units Kolley Enterprise and MDKF Kolley Enterprise, both trusted and long-standing vendors of Indian Railways.

While Mega Forge India does not operate under railway licensing, our technical background, fabrication skillset, and engineering expertise come directly from this rich industrial legacy. We focus on delivering high-quality fabricated structures, machined components, and engineering solutions for diverse industrial sectors.

## Our Vision

To become a leading heavy fabrication and engineering solutions company in India by integrating modern technology, skilled craftsmanship, and a legacy of industrial excellence—delivering reliable, durable, and high-precision products across multiple sectors.

## Quality Assurance

- ISO-aligned quality management system
- Certified welders, metallurgists and inspection engineers
- In-process and final inspections to ensure full compliance with client specifications

## Core Values

- Integrity in every process and transaction
- Customer focus through tailored, value-added services
- Innovation by embracing the latest tools and methodologies
- Quality assurance backed by rigorous standards and best practices

## Our Product

- Heavy Fabricated Structures
- Machine bases, platforms, frames, brackets, support structures.
- Crusher Plant Components
- Crusher body structures, hoppers, chutes, feeders, base frames.
- Industrial Safety Items
- (Backed by family manufacturing experience) heavy-duty safety components and fabricated safety structures.
- Machined Components
- Shafts, bushes, flanges, plates, mechanical parts, custom-turned and milled items.
- Custom Engineered Products
- Fabricated and machined components made as per drawings, samples, or client specifications.

## Our Legacy

- Kolley Enterprise: Renowned vendor to Indian Railways, specializing in high-quality safety items.
  - MDFK: Leader in heavy fabrication products and crusher-plant equipment.
- These proven track records form the bedrock of Mega Forge India's capabilities and commitment to excellence.

# MEGA FORGE INDIA

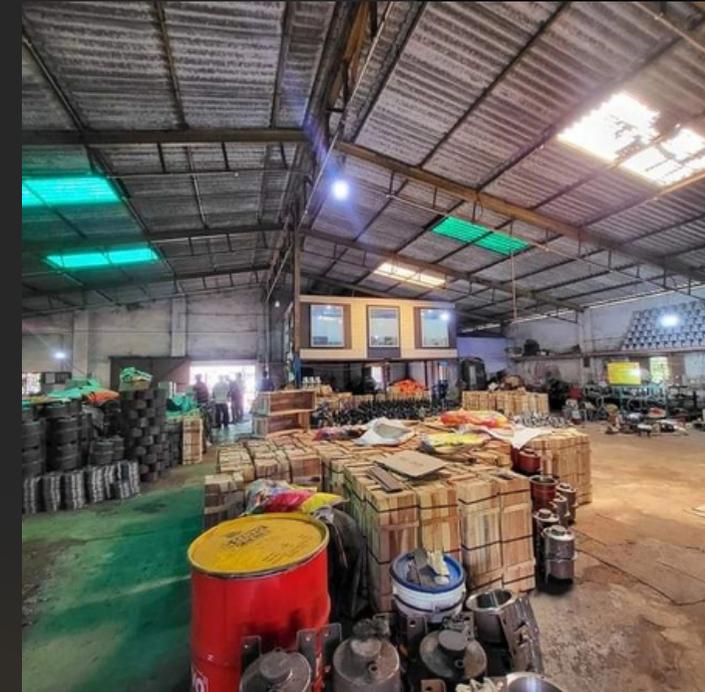

# Infrastructure & Machinery

Mega Forge India operates from a well-equipped fabrication and machining facility located at Saraswati Complex, Nimerhati, Makardah, Domjur – Howrah. Our infrastructure is designed to handle heavy fabrication, precision machining, and customized industrial jobs with efficiency and accuracy.

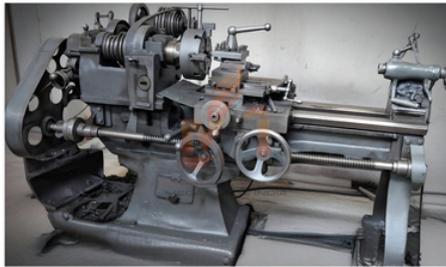

## Fabrication Infrastructure

- Spacious fabrication floor for large structures
- Welding bays with proper ventilation and safety systems
- Material handling facility with lifting equipment
- Fabrication and assembly area for structural works
- Storage space for raw materials and finished components

## Machinery & Equipment

1. HYDRAULIC PRESS
2. ROLLER 20 MM CAP
3. POWER PRESS 150
4. SHAVING MACHINE
5. LATHE MACHINE
6. SEARING MACHINE
7. MIG WELDING
8. ARC WELDING
9. AND ALL BASIC MACHINES REQUIRED FOR FABRICATION AND ENGINEERING
