Established in the year 1993, Danube Group was founded and cultivated under the leadership of Rizwan Sajan, who is known to be the Founder and Chairman of the Group. Starting off as a small trading firm, the company is moving from strength-to-strength, expanding its foothold in the region, and has established itself as the No. 1 building Materials Company along with other branches under its vast umbrella. In 2015, the company recorded a turnover of AED 5.14 billion and has been growing ever since.

BRAND STORY MILANO

THE ORIGIN

“Of an Inspiring Innovation”

Every success holds a great story behind the frame. The story of MILANO started with its visionary founder Anis Sajan, who had the idea of creating the legacy of future inspired bathing style innovations. Breaking the white and chrome convention, the journey started with providing affordable luxury Sanitary ware, Tiles, and Furniture fittings. Without compromising on the superior design, style, and functionality, MILANO became the answer to creating a style that hits home.

THE BEGINNINGS

“Of Simplified Comfort”

With Anis Sajan's unwavering commitment only to “the best”, the brand is taking life to a new level of liveliness. This also meant that only the most skilled craftsmen were represented by MILANO with its inception. Inheriting the Italian style of creative rendering MILANO is contributing varying designs enhancing the wholesome bathing experience. Offering the most advanced product innovation, today the brand is widely known across the GCC.

THE IDEAL EXPANSION

“Of Transcending Products”

With the vision to help build marvels, the diverse portfolio of MILANO began to flourish. The bespoke ranges of sanitary ware further expanded to the category of Hardware, Electrical products, Tiles as well as Water purifiers. Being the trailblazer brand in the sanitary ware industry, MILANO gained more prominence and reputation for revolutionizing the comfort style of living with its exclusive collections.

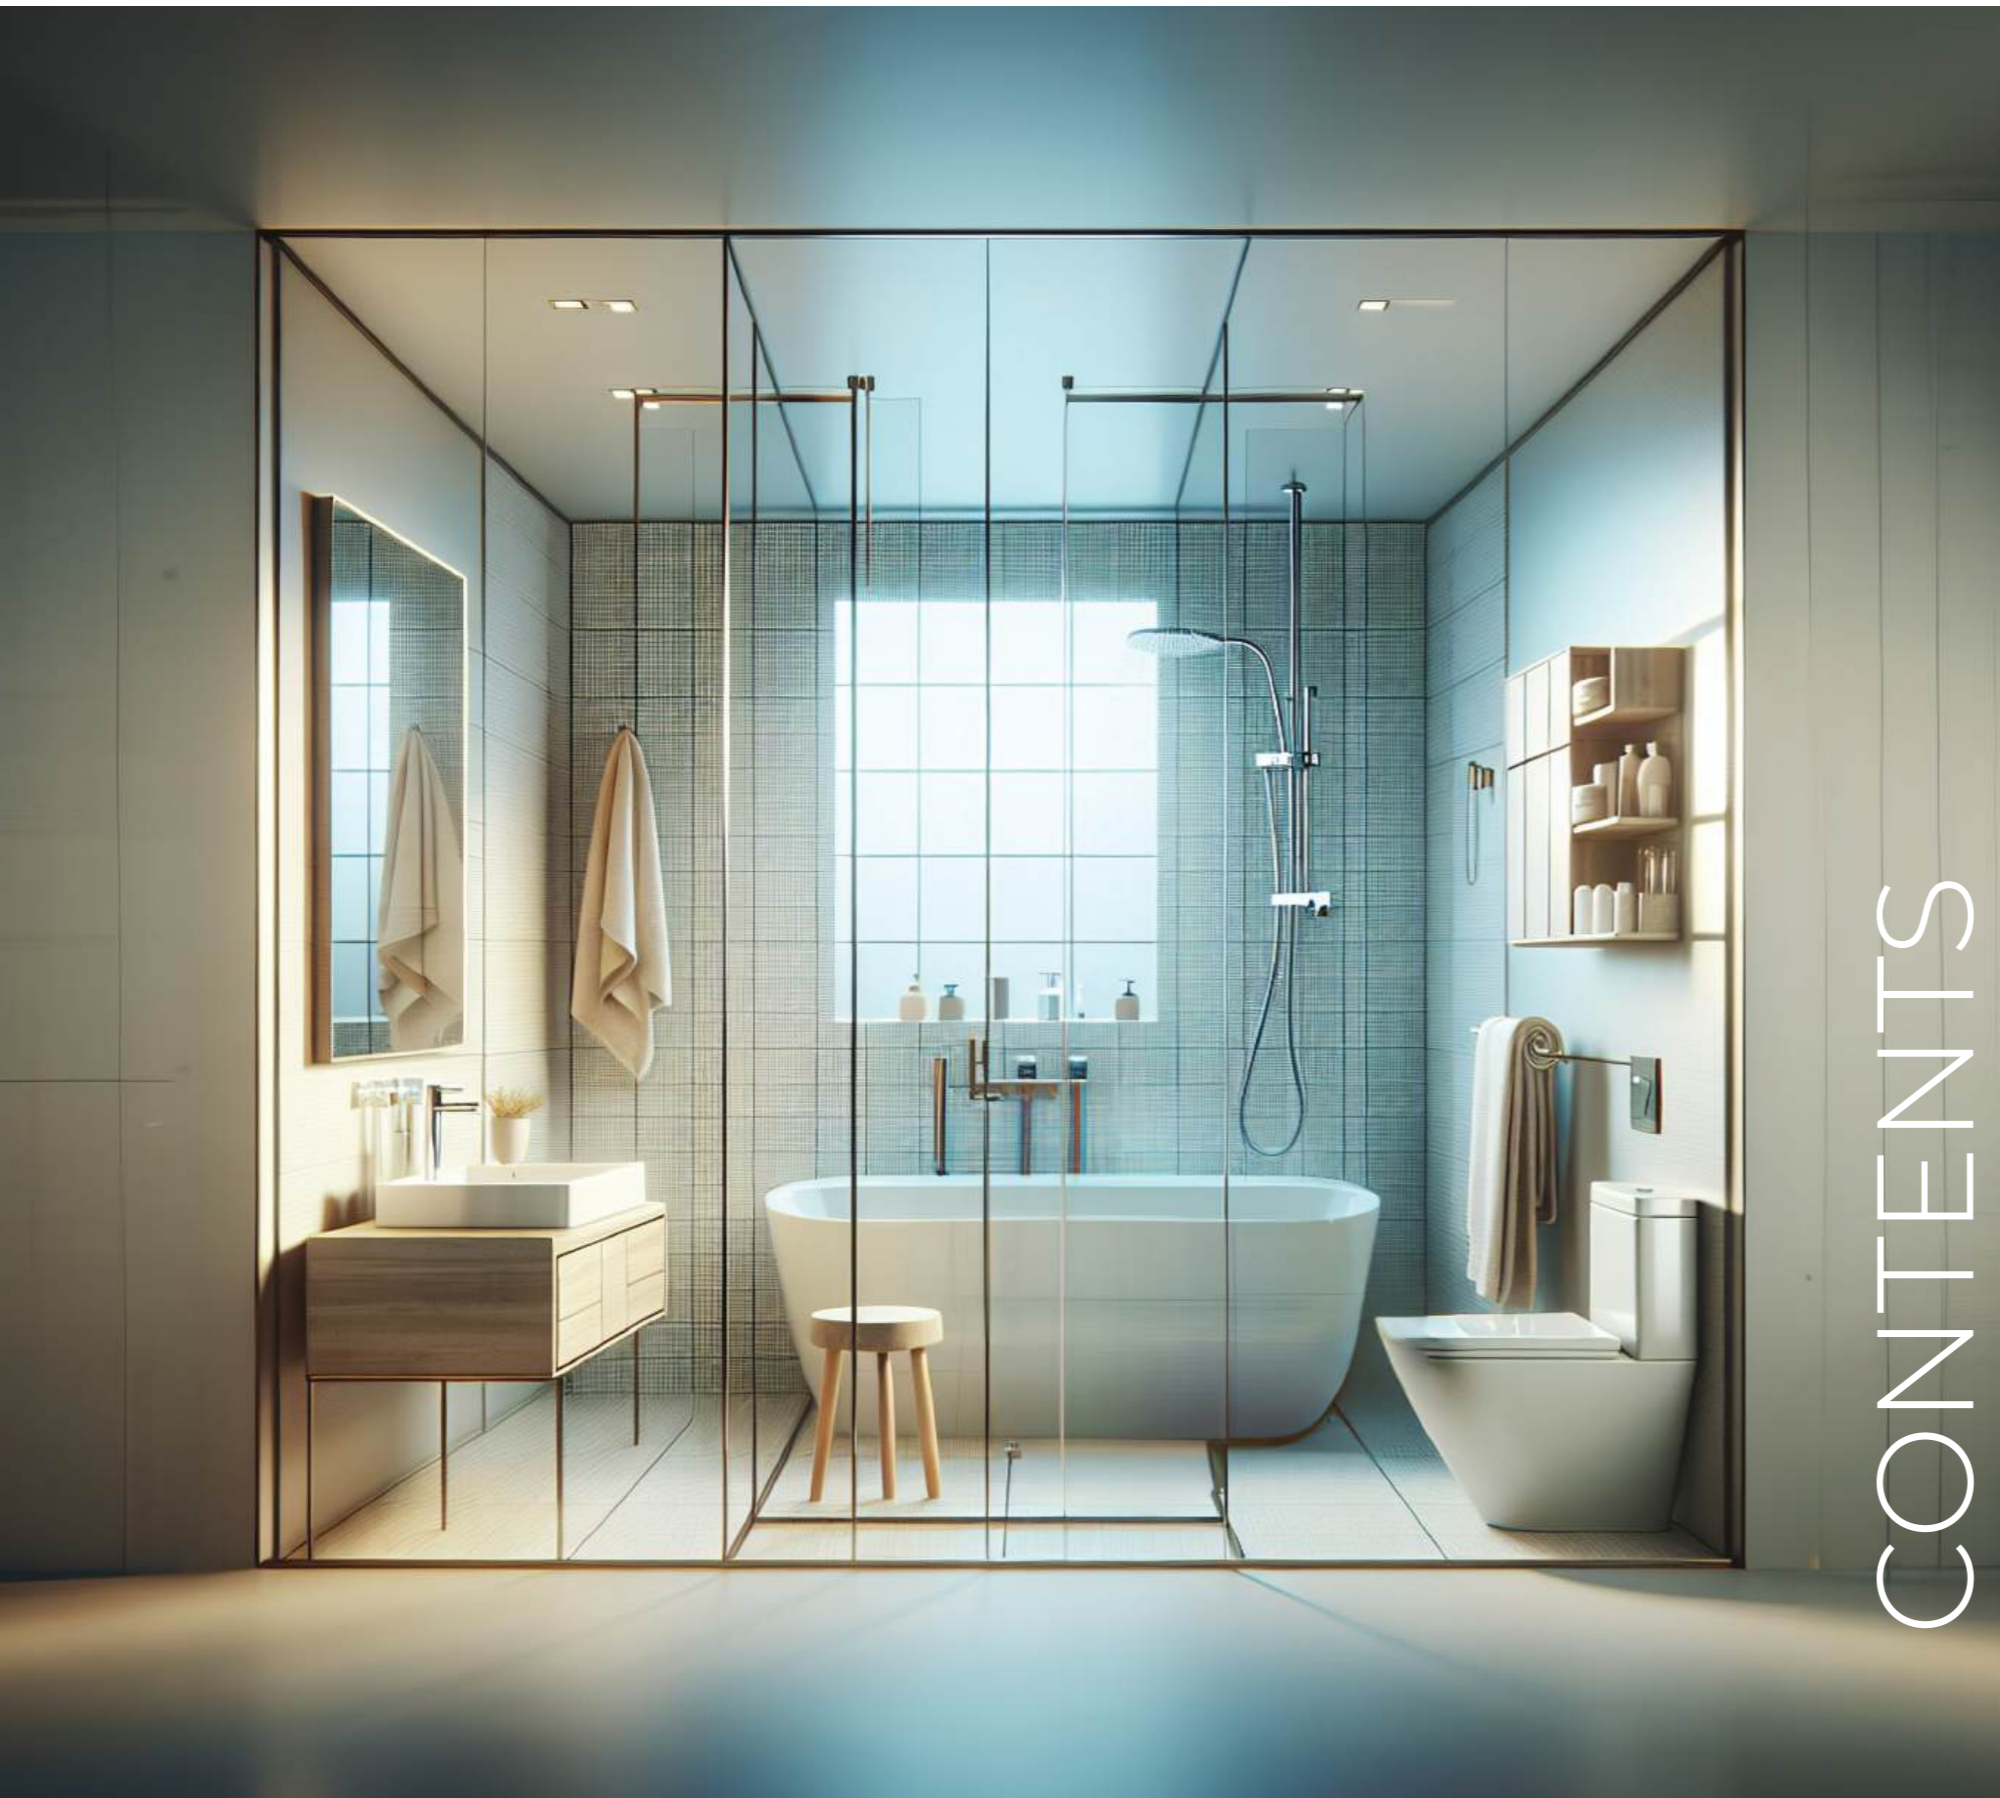

THE MISSION CONTINUES

“Of Creating Timeless Elegance”

Understanding the latest trends and working with some of the best designers, the highest quality products have been launched by the brand using state-of-the-art-technology. MILANO is known today for its premium bath & home solutions and continues the journey of excellence creating a new level of joy for a new you everyday.

COLLECTION

Sleek and classy style that suits all your design and architectural needs.

MILANO

DESIGN ELEMENTS

The function of design elements is letting design function!

Providing design, the combination of square and round styles, square element takes the man-machine safety chamber into account. With the use of a built-in bubbler and square faucets that are flat, the design does not lose proportion. The circular body style complies with standard coverage plate holes (diameter 50) and all the cambered surfaces have a beautiful proportion of design and consistent process requirements.

Graceful cambered surfaces consistent process

The ultra thin water pipeline

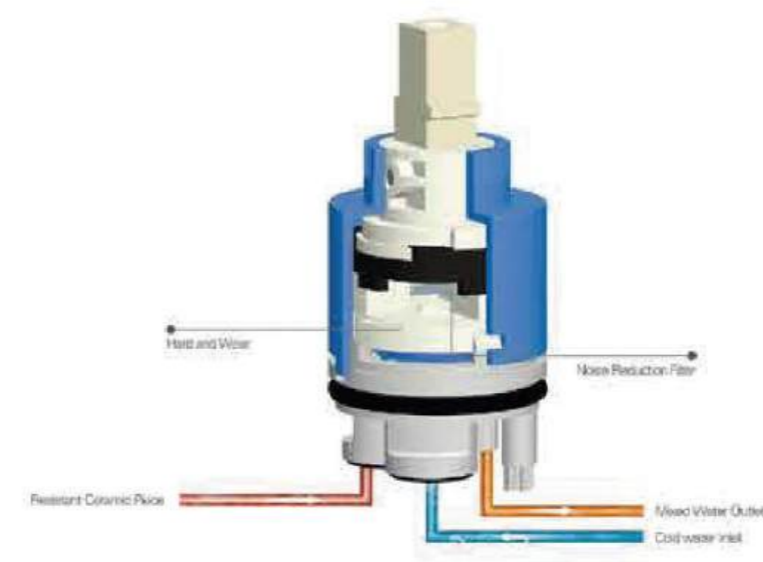

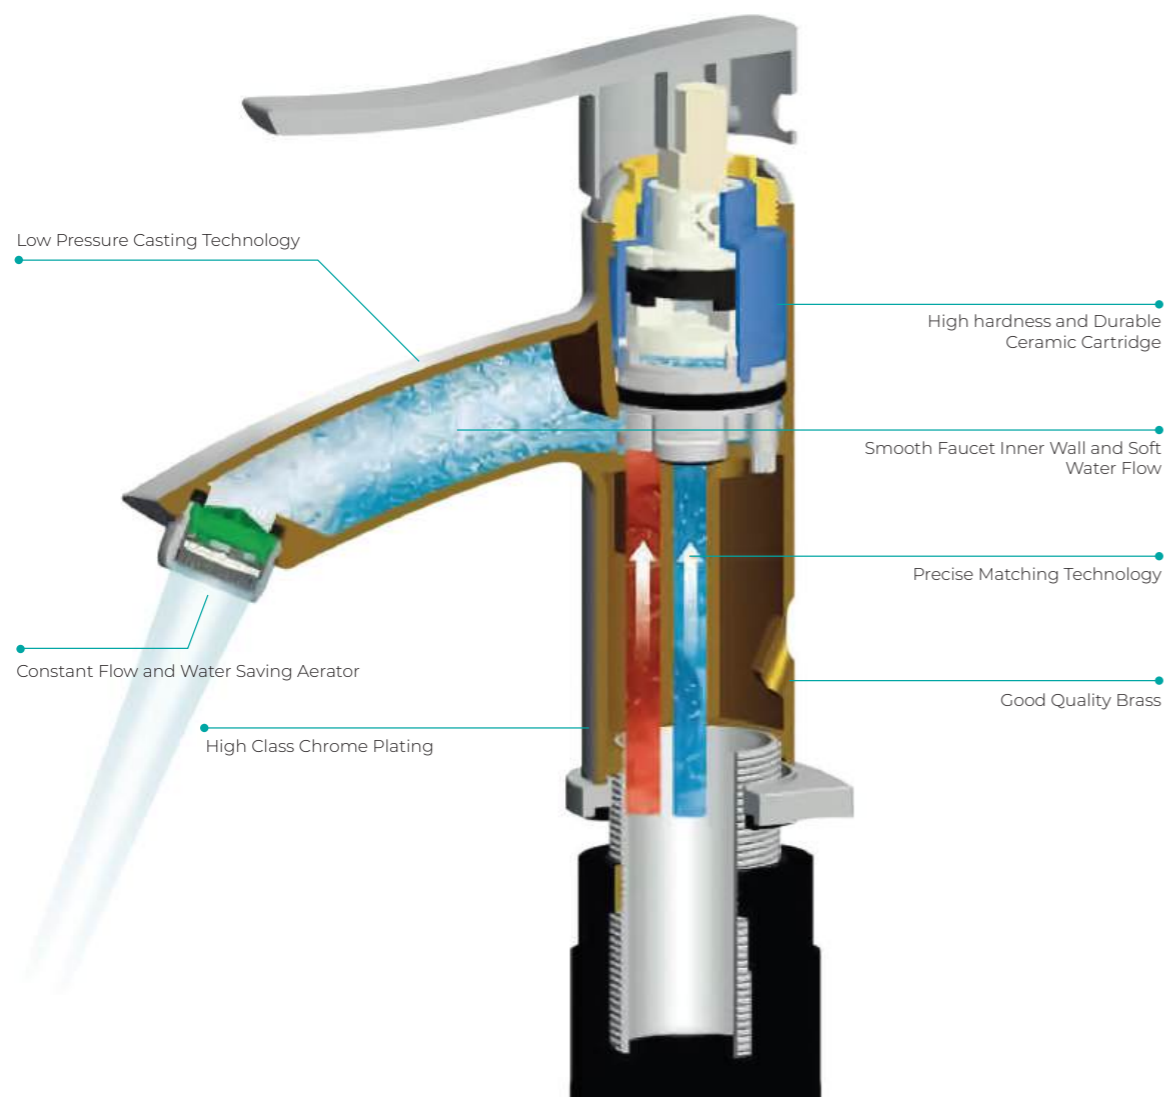

Built-in bubbler

Human safety chamber consideration

MIXERS WITH CONSTANT FLOW & WATER SAVING FUNCTION

PRECISE CARTRIDGE
High hardness and durable ceramic cartridge, with special noise reduction filter, provide good performance on daily use.

CONSTANT FLOW
Constant flow and water saving aerator provides plentiful bubble and a comfortable bathing.

LOW PRESSURE CASTING
Low pressure casting technology.

PRECISE MACHINING
Precise machining technology.

GOOD QUALITY BRASS
Good quality brass material ensures perfect chrome plating surface.

PRECISE CONNECTING
Smooth faucet inner wall and soft water flow.

MIRROR CHROME PLATING
High class chrome plating technology makes our faucet surface bright and sharp. With the merit of ant-acid, antioxidant and strong absorption, after long time using, the faucet surface is still lustrous and shining.

COMPACT WATER HEATER

10 LTR
 Model: FWH-10-20YA
 Item Code:
 140900200035

15 LTR
 Model: FWH-15-20YA
 Item Code:
 140900200036

- Five Star Rated Product
- Sapphire Tank
- Sapphire Heating Element
- Single Weld Line
- Overall Polyurethane Foam
- ABS Body
- 27% Thicker Magnesium Anode
- Water Proof IPX4
- Anti-Dry-heating Protection
- Overheat Protection
- Anti-Over-pressure Protection
- Earthing Protection
- More Protection With ELCB
- Easy Repairing

Model	FWH-10-20YA	FWH-15-20YA
Item Code	140900200035	140900200036
Installation Type	Compact	Compact

COLLECTORS DATA

Technical Data	Units (SI)	Technical Specification of collectors	
Type		H81 2.0	H81 2.5
External Dimensions (Height x Length x Thickness)	mm	1965 x 960 x 80	1965 x 1210 x 80
Overall Area	m ²	1.88	2.38
Aperture Area	m ²	1.79	2.28
Absorber Area	m ²	1.85	2.34
Weight (Dry & Packed)	kg	34	42
Absorber Capacity	L	1.52	1.74
Housing / Thickness	mm	Prepainted Metal Sheet / 0.5	
Glass Cover		Tempered	
Thermal Insulation / Thickness / Density	mm/Kg/m ³	Rockwool / 30 / 50 this rockwool is specially designed for solar collectors, is chemically inert, its attributes are maintained constant in time and do not allow the growth of parasites.	
Back Support / Thickness	mm	See Housing	
Absorber		Copper tubes, Harp shape - selective aluminium surface in sheets (FF) - laser Welded	
• Absorbtion	%	95	
• Emission	%	5	
• Header Cu Ø / Thickness	mm	22/0.7	
• Riser Cu Ø / Thickness	mm	8/0.40	
• Number of Risers	Pcs	10	11
• Connections Cu Ø 22		4 or 2	
• Max. Working Pressure	Bar	10	
Heat Transfer Medium		Mixture Of Water & Antifreeze (Monopropylene Glycol)	
Position		Vertical	

UNDER SINK RO WATER PURIFIER

Milano RO under the sink water purifier utilizes 4 stages high-precision filtration system. The produced water is pure water which tastes better. It has an automatic control system, which makes it easy to use.

FEATURES

- 4 stages purification
- Automatic flushing RO Membrane
- Superior silent booster pump
- The post carbon stage reduces odor and chlorine, providing great water taste
- Integrated water-route system prevents water leakage

Itemcode	140900100029
Color	White
Rated Power (W)	30W
Intallation Type	Under The Sink
Purified Water Flow(L/min)	0.13L/min
Net Weight (Kg)	3.9/5.6
Gross Weight (Kg)	5.25/8.4
Packing Dimension	610X285X485 (Pressure Tank Packed Inside)
Applicable Water Hardness	≤350ppm
Applicable Environment	4 ~ 40°C Without Direct Sunshine
Applicable Water Pressure	0.1 ~ 0.4 Mpa
Feed Water Temperature	5 ~ 38°C

SINGLE WATER FILTER

High Grade Glass
Item Code: 140900100046

PERIPHERAL PUMP

PREMIUM WATER PUMP 0.5HP

MKM-60

Item Code: 140900300118

Std Pkg : 4 pcs/Ctn

Application

Suitable for use with **clean water** that does not contain abrasive particles and liquids that are not chemically aggressive towards the materials from which the pump is made.

They are easy to use and are economical, they are ideal for domestic use and in particular for distributing water in combination with small pressure sets and for the irrigation of gardens and allotments.

The pump should be installed in an enclosed environment, or at least sheltered from inclement weather.

Motor

- ※ Two-pole induction motor(n=2850 r.p.m)
- ※ Insulation **Class B**
- ※ Protection **IP44**
- ※ Continuous service **S1**
- ※ Thermal protector
- ※ Single-phase 220V/50Hz, 60Hz if request

Operating conditions

- ※ Liquid temperature up to **60°C**
- ※ Ambient temperature up to **40°C**
- ※ Total suction lift up to **8m**

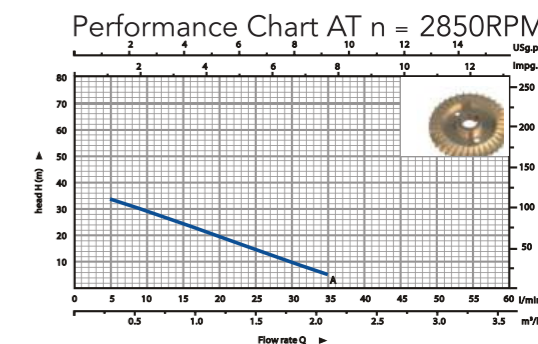

Component Construction

- ※ **Pump body:** Cast iron, with **brass/AISI304 SS insert** if request, reduces the risk of impeller seizure
- ※ **Pump support:** Cast iron, with **brass/AISI304 SS insert** if request, reduces the risk of impeller seizure
- ※ **Motor housing:** Aluminum, Sheet steel for CP130
- ※ **Impeller:** Brass
- ※ **Motor shaft :** Carbon steel, **AISI420/304 SS** if request
- ※ **Mechanical seal:** Ceramic/Graphite
- ※ **Bearings:** **6201 RZ/6201 RZ** (0.5HP, VP5M by ZZ), **6202 RZ/6202 RZ** (0.75HP&1HP)

CENTRIFUGAL PUMP

Performance Chart AT n = 2850RPM

- ITEM CODE: 140900300119 - CPM 158 - 1HP
- ITEM CODE: 140900300171 - HGAM 75 - 1.5HP
- ITEM CODE: 140900300172 - HGAM 80 - 2HP

Application

Suitable for use with **clean water** and liquids that are not chemically aggressive towards the materials from which the pump is made.

As a result of their reliability and the fact that they are easy to use, these pumps are widely used in domestic and civil applications such as the distribution of water in combination with small and medium sized pressure sets, for transferring liquids and for the irrigation of gardens and allotments.

The pump should be installed in an enclosed environment, or at least sheltered from inclement weather.

Motor

- ※ Two-pole induction motor(n=2850 r.p.m)

SELF-PRIMING PUMP - MULTI-STAGE

Performance Chart AT n = 2850RPM

- HMC-4SA - 1HP
- Item Code: 140900300120

Application

Suitable for use with **clean water** even where air is present and with liquids that are not chemically aggressive towards the materials from which the pump is made.

The pumps are designed to pump water even in cases where air is present. As a result of their quietness, reliability and low energy consumption they are recommended for use in domestic and civil applications such as the pressurisation and distribution of water in combination with pressure sets, and in rain water recovery and irrigation systems, etc.

The pump should be installed in an enclosed environment, or at least sheltered from inclement weather.

Motor

- ※ Two-pole induction motor(n=2850 r.p.m)
- ※ Insulation **Class B**
