

FIELD METRIC

PROPERTY SERVICES

ACCURATE DATA.
DEPENDABLE REPORTING.

Overview:

Field Metric Property Services is a small service-disabled veteran owned inspection and risk-control firm providing intelligence, compliance documentation, and aerial assessment services for government and commercial clients. We support underwriting, asset management, facilities oversight, and risk-mitigation objectives through standardized field reporting and documentation.

Core Capabilities:

- Commercial & habitational loss control surveys
- Property condition & compliance inspections
- Aerial/drone-based roof & site assessments (FAA Part 107 certified)
- Vacancy, draw, BOP, and asset condition inspections
- Photo documentation, measurements, and narrative reporting

Differentiators:

- Government-ready reporting formats
- Field-verified data with photographic evidence
- Quick response to emergency work in and out of coverage area
- Veteran-owned small business focused on compliance

Certifications and Credentials:

- FAA Part 107 UAS Pilot certified
- VIITA personal and commercial certifications'
- Background-checked inspectors
- SDVOSB (Pending/upon approval)
