ULTRAVIOLET LED WATER DISINFECTION SYSTEM

Specifications

Maximum Flow Rate

1 GPM

UV Dose

Greater than 10 mJ/cm2

Operating Pressure

10PSI - 100PSI

Voltage: 85 - 240 VAC/ 50-60Hz

Power: 3W

Dimensions: 4.5" (H) X 2" (W) X 2" (D)

Inlet/Outlet Ports: 1/4" NPT Shipping Weight: 2 lbs

Environmental

Maximum Water Temperature: 40°C

Cooling: Natural convection, no fans or auxiliary cooling required

Options

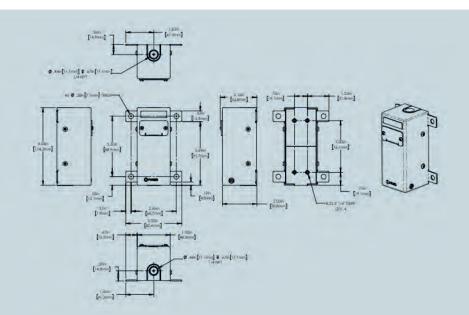

UV Detector with alarms when UV drops below the preset threshold

Battery back-up

Mechanical **Details**

ULTRAVIOLET LED WATER DISINFECTION SYSTEM

Specifications

Maximum Flow Rate

2 GPM

UV Dose

Greater than 10 mJ/ at 1.5GPM (6 LPM)

Operating Pressure

10PSI - 100PSI

Voltage: 85 - 240 VAC/ 50-60Hz

Power: 3W

Mechanical

Dimensions: 6.5"(H)X 2"(W) X 2"(D) Inlet/Outlet Ports: 1/4" FNPT

Shipping Weight 2.5lbs

Environmental

Maximum Water Temperature: 40°C

Cooling: Natural convection, no fans or auxiliary cooling required

Options

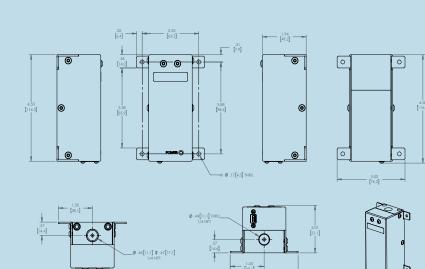

UV Detector with alarms when UV drops below the preset threshold

WIFI Connectivity with UV detector readouts

Battery back-up

Mechanical Details

DUAL ULTRAVIOLET LED WATER DISINFECTION SYSTEM

Specifications

Maximum Flow Rate

1 GPM Per Channel

UV Dose

Greater than 10 mJ/cm2

Operating Pressure

10PSI - 100PSI

Electrical

Voltage: 85 - 240 VAC/ 50-60Hz

Mechanical

Dimensions: 4.5"(H)X 4"(W) X 2"(D)

Environmental

Maximum Water Temperature: 40°C

Cooling: Natural convection, no fans or auxiliary cooling required

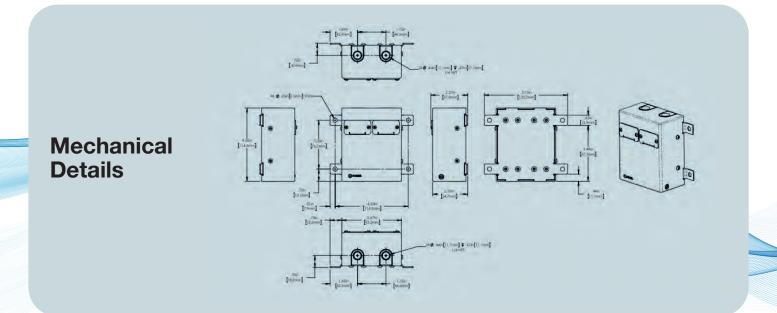

Options

UV Detector with alarms when UV drops below the preset threshold WIFI Connectivity with UV detector readouts

Battery back-up

DUAL ULTRAVIOLET LED WATER DISINFECTION SYSTEM

Specifications

Maximum Flow Rate

2 GPM Per Channel

UV Dose

Greater than 10 mJ at 1 GPM

Operating Pressure

10PSI - 100PSI

Voltage: 85 - 240 VAC/ 50-60Hz

Power: 6W

Mechanical

Dimensions: 6.5"(H)X 4"(W) X 2"(D) Inlet/Outlet Ports: 1/4" FNPT

Shipping Weight 5lbs

Environmental

Maximum Water Temperature: 40°C

Cooling: Natural convection, no fans or auxiliary cooling required

Options

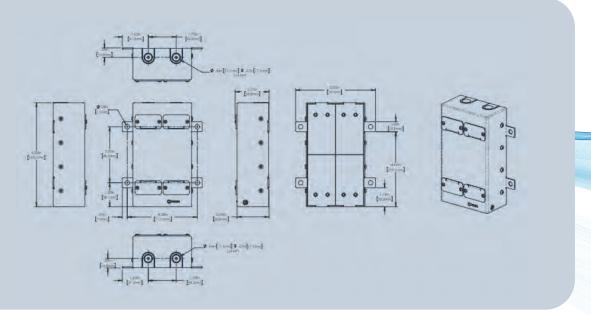

UV Detector with alarms when UV drops below the preset threshold

WIFI Connectivity with UV detector readouts

Mechanical Details

C-UV100

ULTRAVIOLET LED WATER DISINFECTION **SYSTEM**

Specifications

Maximum Flow Rate 10 GPM

UV Dose

Greater than 20 mJ/cm2

Operating Pressure

10PSI - 100PSI

Electrical

Voltage: 85 - 240 VAC/ 50-60Hz

Power: 135 W

Mechanical

Dimensions: 10" (H) x 8" (W) x 7.5" (D)

Inlet/Outlet Ports: 3/4" FNPT Shipping Weight: 15lbs

Environmental

Maximum Water Temperature: 40°C Cooling: Natural convection, no fans or

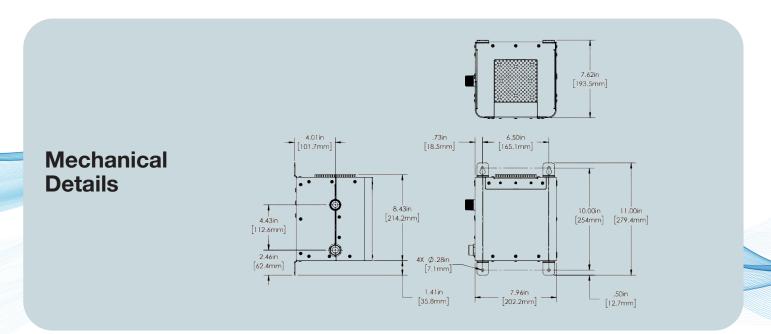

auxiliary cooling required

Options

UV Detector with alarms when UV drops below the preset threshold

WIFI Connectivity with UV detector readouts Battery back-up
