Business Fiber Elite

Let our dedicated internet solution address your business mission-critical connectivity needs.

Built on MetroNet's 100% fiber network, this most reliable, quality connection ensures that your business can always connect with your people, access critical cloud resources, and deliver business results. We deliver unbeatable bandwidth consistently so that your business can confidently adopt the latest innovations and expand your business opportunities.

Don't let unreliable internet put your business at risk. Consult one of our Business Account Executives to learn more about Elite Fiber Internet and dedicated internet access.

Value-Added Options
✓ Additional Static IP (5 included)
✓ BGP Traffic Routing
✓ Managed Wi-Fi

Business Fiber
Elite

Symmetrical Gigabit Speeds
Flexible options from 20 Mbps to 10 Gbps and higher enabling high volumes of VoIP, HD video conferencing, large file sharing and cloud access.

Dedicated Internet Access
Never compete for bandwidth as the highest priority traffic.

Mission-Critical Reliability
Guaranteed 99.999% uptime, or we will financially compensate you.

Fast, Expert Installations
Our seasoned field technicians ensure your new internet service is set up efficiently with the latest carrier-grade equipment.

Enterprise-Grade SLA
Most stringent performance objectives: availability, latency, jitter, packet loss, MTTR.

24/7 Professional Support
Our network experts continuously monitor to prevent service disruptions and provide rapid response to restore service availability.
